3. (a) Happy Ltd., cleared certain goods to P. Ltd., paying higher rate of excise duty in the month of March, although the rate of duty on the said goods had been reduced in the Budget of the same financial year. However, P Ltd., refused to pay the higher duty which Happy Ltd., had paid by mistake. P Ltd., raised a debit note in the month of June of the same year. Happy Ltd., applied for refund of the excess excise duty paid in August. The department rejected the claim on the ground that the incidence of duty has been passed by Happy Ltd. to P. Ltd.

While claiming refund Happy Ltd., relied on the debit note raised by P Ltd., in the month of June to demonstrate that its customer P Ltd, had not paid the excess duty to Happy Ltd. The department contended that since the debit note was issued in the month of June and not March it could not be the basis for refund.

With a brief note :

(i) Examine with the help of decided case law whether the contention of the department is correct in law.

(ii) State whether in the above case assuming that the issue is decided in favour of Happy Ltd., by the Commissioner of Central Excise (Appeals) and the duty involved is ₹ 4,80,000 the revenue could file an appeal before the CESTAT against such an order.

4. (a) Gaseous Ltd., purchased helium gas in bulk from the open market and its quality control officer had conducted various tests and issued test reports stating the results of the tests. The bulk purchase was packed and filled in cylinders of various sizes and certificates were issued along with quantities. The purchases from the open market were of generic description and after test and analysis were sold to different customers based on their specific requirements with a profit margin of 40 to 60%. The central excise department claimed that duty had to be paid on the sale price as there was “deemed manufacture” in terms of Note 9 to chapter 28 of the Central Excise Tariff 1985 which reads as follows:

“In relation to products of this chapter labelling or relabelling of containers or repacking from bulk packs to retail packs or adoption of any other treatment to render the product marketable to the consumer shall amount to manufacture.”

Briefly explain with a note based on case law if any whether:

(i) the process of filling the bulk gas into cylinders of smaller quantities after tests and quality processes with distinct grades would amount to ‘treatment’ as per the said chapter note.
(ii) Whether it could be said that the helium gas purchased in bulk is already marketable and hence the chapter note will not be attracted in this case.

(b) PQR & Co. was involved in the services of unloading of coal from wagon tripping system, stacking/reclaiming of coal to stacker reclaimer system and feeding of coal to boiler bunkers through conveyor system. The department had taken a view that the charges received by PQR & Co. for such activity were taxable under the category of ‘Cargo Handling Services’ in terms of Sec. 65 (105) (zr) read with Sec. 65(23) of the Finance Act, 1994. However PQR & Co. claimed that the services rendered by them cannot be brought under ‘Cargo handling services’ as it is engaged only in the handling of coal from railway wagons to the required destination of the thermal power station wherein machines are used with the aid of some man power.

Briefly explain:

(i) with reference to relevant provisions and case law, if any, whether the stand taken by the department is correct in law;

(ii) Whether in the above matter, against an adverse order passed by the Commissioner of Central Excise in adjudication proceedings against PQR & Co and thereafter confirmed by the CESTAT, PQR & Co. could file an appeal against the order of the CESTAT before the High Court under Sec. 35G of the Central Excise Act, 1944.
