(b) Engagement Acceptance - A professional accountant in public practice should agree to provide only those services that the professional accountant in public practice is competent to perform.

(c) Changes in Professional Appointment - A professional accountant in public practice who is asked to replace another professional accountant should determine whether there are any reasons, professional or other, for not accepting the engagement, such as circumstances that threaten compliance with the fundamental principles. It shall require direct communication with the existing accountant to establish the facts and circumstances behind the proposed change so that the professional accountant in public practice can decide whether it would be appropriate to accept the engagement.

Under all the 3 circumstances, the significance of any threats should be evaluated. If identified threats are other than clearly insignificant, safeguards should be considered and applied as necessary to eliminate them or reduce them to an acceptable level. Where it is not possible to reduce the threats to an acceptable level, a professional accountant in public practice should decline to enter into the client relationship.
