These books of accounts must be kept on accrual basis and according to the double entry system of accounting.

Accrual basis and double-entry system of accounting

Accrual basis of accounting is an accounting assumption or an accounting concept followed in preparation of the financial statements. Accrual concept is one of the four principles of accounting concepts, which involves recording income and expenses as they accrue; distinct from when they are received or paid.

Double entry book-keeping is a method of recording any transaction of a business in a set of accounts, in which every transaction has a dual aspect of debit and credit and therefore, needs to be recorded in at least two accounts. Double aspect enables effective control of business because all the books of accounts must balance.

“Books of account” as defined in Section 2(13) includes records maintained in respect of—

- all sums of money received and expended by a company and matters in relation to which the receipts and expenditure take place;
- all sales and purchases of goods and services by the company;
- the assets and liabilities of the company; and
- the items of cost as may be prescribed under section 148 of the Companies Act 2013 (“Act”) in the case of a company which belongs to any class of companies specified under that section.

“Book and paper” and “book or paper” as defined in Section 2(12) include books of account, deeds, vouchers, writings, documents, minutes and registers maintained on paper or in electronic form;

Board the company shall within seven days thereof file with the registrar a notice in writing giving full address of that other place.

9. CORPORATE SOCIAL RESPONSIBILITY
[SECTION 135]

The Companies Act, 2013 lays down the provisions requiring corporates to mandatorily spend a prescribed percentage of their profits on certain specified areas of social upliftment in discharge of their social responsibilities. Broadly, Corporate Social Responsibility (CSR) implies a concept, whereby companies decide to contribute to a better society and a cleaner environment – a concept, whereby the companies integrate social and other useful concerns in their business operations for the betterment of its stakeholders and society in general.

Corporate Social Responsibility: The Companies (CSR Policy) Rules, 2014 [Rule 2(1)(c)] provides the exhaustive definition of CSR which provides that the CSR means and includes but is not limited to:

(i) Projects or programs relating to activities areas or subjects specified in Schedule VII to the Act; or

(ii) Projects or programs relating to activities undertaken by the board of directors of a company in pursuance of recommendations of the CSR Committee of the Board as per declared CSR Policy of the company subject to the condition that such policy include activities, areas or subjects specified in Schedule VII of the Act.

According to section 135 of the Companies Act, 2013 read with the Companies (Corporate Social Responsibility) Rules, 2014:

(i) Which company is required to constitute CSR committee:

(a) According to section 135(1), every company having

(1) net worth of rupees 500 crore or more, or

(2) turnover of rupees 1000 crore or more or

(3) a net profit of rupees 5 crore or more

during the immediately preceding financial year shall constitute a Corporate Social Responsibility Committee of the Board consisting of

6 In case of specified IFSC public & IFSC private company, section 135 shall not apply for period of 5 years from the commencement of business of a specified IFSC public company

three or more directors, out of which at least one director shall be an independent director.

Provided that where a company is not required to appoint an independent director under sub-section (4) of section 149, it shall have in its Corporate Social Responsibility Committee two or more directors.

As per Rule 3(1) of the Companies (Corporate Social Responsibility) Rules, 2014-

Every company including its holding or subsidiary, and a foreign company defined under clause (42) of section 2 of the Act having its branch office or project office in India, which fulfills the criteria specified in sub-section (1) of section 135 of the Act shall comply with the provisions of section 135 of the Act and these rules.

Provided that net worth, turnover or net profit of a foreign company of the Act shall be computed in accordance with balance sheet and Profit and loss account of such company prepared in accordance with the provisions of clause (a) of sub-section (1) of section 381 and section 198 of the Act.

“Net worth” [As per Section 2(57)] means the aggregate value of the paid-up share capital and all reserves created out of the profits and securities premium account, after deducting the aggregate value of the accumulated losses, deferred expenditure and miscellaneous expenditure not written off, as per the audited balance sheet, but does not include reserves created out of revaluation of assets, write-back of depreciation and amalgamation.

Explanation.—For the purposes of this section (i.e. section 135) "net profit" shall not include such sums as may be prescribed, and shall be calculated in accordance with the provisions of section 198.

Example:

The statutory auditors of a company were required to issue a certificate on the net worth of the company as per the requirement of the management as of 30 September 2018 computed as per the provision of section 2(57) of the Companies Act, 2013.

The company had fair valued its property, plant and equipment in the current year which was mistakenly taken into retained earnings of the company in its
books of accounts. Please advise whether this fair valuation would be covered in the net worth of the company as per the legal requirements.

**Solution:**

As per sec 2(57) of the Companies Act 2013, any reserves created out of revaluation of assets doesn’t form part of net worth. The company fair valued its property, plant and equipment and took that to retained earnings.

Even if the company has taken the fair valuation to the retained earnings in its books of accounts, the resultant credit in reserves (by whatever name called) would be in the category of ‘reserves created out of revaluation of assets’ which is specifically excluded in the definition of ‘net worth’ in section 2 (57) and hence should be excluded by the company.

Further the auditors should also consider the matter related to accounting of this reserve separately at the time of audit of books of accounts of the company.

**Example:** ABC Ltd is a company with a turnover of more than ₹ 1000 crores and having incurred a loss in one of the preceding three financial years. Will it be required to comply with CSR?

**Answer:** As per section 135(1) of the Act, if any one of the three criteria (whether net worth, or turnover or net profit) gets satisfied then the company is mandatorily required to comply with the CSR provisions. Hence ABC Ltd will be required to comply with CSR based on its turnover.

(ii) **Exclusion of Companies** [Rule 3(2) of the Companies (CSR) Rules, 2014]

Every company which ceases to be a company covered under subsection (1) of section 135 of the Act for three consecutive financial years shall not be required to-

(a) constitute a CSR Committee; and

(b) comply with the provisions contained in sub-section (2) to (5) of the said section,

till such time it meets the criteria specified in sub-section (1) of section 135.

(iii) **Composition of CSR Committee:**

(1) The CSR Committee shall be consisting of three or more directors, out of which at least one director shall be an independent director.
Provided that where a company is not required to appoint an independent director under sub-section (4) of section 149, it shall have in its Corporate Social Responsibility Committee two or more directors.

(iv) Duties of CSR Committee [Section 135(3)]:
The CSR Committee shall-

(a) formulate and recommend to the Board, a CSR Policy which shall indicate the activities to be undertaken by the company in areas or subject, specified in Schedule VII;

(b) recommend the amount of expenditure to be incurred on the activities referred to in clause (a); and

(c) monitor the CSR Policy of the company from time to time.
(v) **Contents of the CSR Policy** [Rule 6 of the Companies (CSR) Rules, 2014]:

(a) List of CSR projects or programs which a company plans to undertake falling within the purview of the Schedule VII of the Act, specifying modalities of execution of such project or programs and implementation schedules for the same; and

(vii) **Amount of contribution towards CSR** [Section 135(5)]:

(a) The Board of every company shall ensure that the company spends, in every financial year, at least two per cent of the average net profits of the company made during the three immediately preceding financial years, in pursuance of its CSR Policy.

(b) Provided that the company shall give preference to the local area and areas around it where it operates, for spending the amount earmarked for CSR activities.

(c) Provided further that if the company fails to spend such amount, the Board shall, in its report, specify the reasons for not spending the amount.
(d) Companies may build CSR capacities of their own personnel as well as those of implementing agencies through institutions with established track records of at least three financial years but such expenditure including expenditure on administrative overhead shall not exceed 5% of total CSR expenditure of the company in one financial year [Rule 4 of the Companies (CSR Policy) Rules, 2014].

Example: XYZ Ltd is a listed company having turnover of ₹ 1200 crores during the financial year 2017-18. The CSR committee of the Board of the company formulated and recommended a CSR project which was approved by the Board. The company finalised the project under its CSR initiatives which require funds @ 5% of average net profit of the company for last three financial years. Will such excess expense be counted in subsequent financial years as a part of CSR expenditure? Please advise.

Answer: In terms of Section 135(5) of the Companies Act, 2013, the Board of every company to which section 135 is applicable, shall ensure that the company spends, in every financial year at least 2 percent of average net profits of the company made during the three immediately preceding financial years, in pursuance of its CSR policy. There is no provision for carry forward of excess expenditure to the next year(s). The words used in the section are ‘at least’. Therefore, any expenditure over 2% would be considered as voluntary higher spending.

(viii) CSR Activities:

Rule 4 of the Companies (CSR Policy) Rules, 2014 states the various CSR activities that shall be undertaken by the companies.

(1) The CSR activities shall be taken by the company as per its CSR Policy, as projects or programmes or activities excluding activities undertaken in pursuance of its normal course of business.

(2) The Board of a company may decide to undertake its CSR activities approved by the CSR Committee, through

(a) a company established under section 8 of the Act or a registered trust or a registered society, established by the company, either singly or alongwith any other company, or

(3) A company may also collaborate with other companies for undertaking projects or programs or CSR activities in such manner that the CSR Committees of respective companies are in a position to report separately on such projects or programs in accordance with these rules.

(4) Subject to provisions contained in section 135(5), the CSR projects or programs or activities undertaken in India only shall amount to CSR expenditure.

(5) The CSR projects or programs or activities that benefit only the employees of the company and their families shall not be considered as CSR activities in accordance with section 135 of the Act.

(6) Companies may build CSR capacities of their own personnel as well as those of implementing agencies through Institutions with established track records of at least three financial years but such expenditure including expenditure on administrative overhead shall not exceed 5% of total CSR expenditure of the company in one financial year.

(7) Contribution of any amount directly or indirectly to any political party under section 182 of the Act, shall not be considered as CSR activity.

Example

ADV Ltd is engaged in the business of construction and has various projects which are under execution in Delhi-NCR region. The company is also looking for new projects, particularly in Southern part of India based on an understanding that the margins are very high over there.
During the year ended 31 March 2018, the company got covered within the requirements of CSR. Considering the nature of its business, company has a large employee base and it decided to spend CSR on some activity related to construction which would benefit its employees and would indirectly also help the business of the company. Please advise on this.
