Introduction
Scope of this SA
1. This Standard on Auditing (SA) explains what constitutes audit evidence in an audit of financial statements, and deals with the auditor’s responsibility to design and perform audit procedures to obtain sufficient appropriate audit evidence to be able to draw reasonable conclusions on which to base the auditor’s opinion.
2. This SA is applicable to all the audit evidence obtained during the course of the audit. Other SAs deal with specific aspects of the audit (for example, SA 315\(^1\)), the audit evidence to be obtained in relation to a particular topic (for example, SA 570\(^2\)), specific procedures to obtain audit evidence (for example, SA 520\(^3\)), and the evaluation of whether sufficient appropriate audit evidence has been obtained (SA 200 and SA 330\(^4\)).

Effective Date
3. This SA is effective for audits of financial statements for periods beginning on or after April 1, 2009.

Objective
4. The objective of the auditor is to design and perform audit procedures in such a way as to enable the auditor to obtain sufficient appropriate audit evidence to be able to draw reasonable conclusions on which to base the auditor’s opinion.

Definitions
5. For purposes of the SAs, the following terms have the meanings attributed below:

(a) Accounting records – The records of initial accounting entries and supporting records, such as checks and records of electronic fund transfers; invoices; contracts; the general and subsidiary ledgers, journal entries and other adjustments to the financial statements that are not reflected in journal entries; and records such as work sheets and spreadsheets supporting cost allocations, computations, reconciliations and disclosures.

(b) Appropriateness (of audit evidence) – The measure of the quality of audit evidence; that is, its relevance and its reliability in providing support for the conclusions on which the auditor’s opinion is based.

(c) Audit evidence – Information used by the auditor in arriving at the conclusions on which the auditor’s opinion is based. Audit evidence includes both information contained in the accounting records

underlying the financial statements and other information.

(d) Management’s expert – An individual or organisation possessing expertise in a field other than accounting or auditing, whose work in that field is used by the entity to assist the entity in preparing the financial statements.

(e) Sufficiency (of audit evidence) – The measure of the quantity of audit evidence. The quantity of the audit evidence needed is affected by the auditor’s assessment of the risks of material misstatement and also by the quality of such audit evidence.

Requirements

Sufficient Appropriate Audit Evidence

6. The auditor shall design and perform audit procedures that are appropriate in the circumstances for the purpose of obtaining sufficient appropriate audit evidence. (Ref: Para. A1-A25)

Information to Be Used as Audit Evidence

7. When designing and performing audit procedures, the auditor shall consider the relevance and reliability of the information to be used as audit evidence. (Ref: Para. A26-A33)

8. When information to be used as audit evidence has been prepared using the work of a management’s expert, the auditor shall, to the extent necessary, having regard to the significance of that expert’s work for the auditor’s purposes:

(a) Evaluate the competence, capabilities and objectivity of that expert; (Ref: Para. A37-A43)

(b) Obtain an understanding of the work of that expert; and (Ref: Para. A44-A47)

(c) Evaluate the appropriateness of that expert’s work as audit evidence for the relevant assertion. (Ref: Para. A48)

9. When using information produced by the entity, the auditor shall evaluate whether the information is sufficiently reliable for the auditor’s purposes, including as necessary in the circumstances:

(a) Obtaining audit evidence about the accuracy and completeness of the information; and (Ref: Para. A49-A50)

(b) Evaluating whether the information is sufficiently precise and detailed for the auditor’s purposes. (Ref: Para. A51)

Selecting Items for Testing to Obtain Audit Evidence

10. When designing tests of controls and tests of details, the auditor shall determine means of selecting items for testing that are effective in meeting the purpose of the audit procedure. (Ref: Para. A52-A56)

Inconsistency in, or Doubts over Reliability of, Audit Evidence

11. If:

(a) audit evidence obtained from one source is inconsistent with that obtained from another; or

(b) the auditor has doubts over the reliability of information to be used as audit evidence,

The auditor shall determine what modifications or additions to audit procedures are necessary to resolve the matter, and shall consider the effect of the matter, if any, on other aspects of the audit. (Ref: Para. A57)

Application and Other Explanatory Material

Sufficient Appropriate Audit Evidence (Ref: Para. 6)

A1. Audit evidence is necessary to support the auditor’s opinion and report. It is cumulative in nature and is primarily obtained from audit procedures performed during the course of the audit. It may, however, also
Auditing Pronouncements

include information obtained from other sources such as previous audits (provided the auditor has determined whether changes have occurred since the previous audit that may affect its relevance to the current audit)\(^5\) or a firm’s quality control procedures for client acceptance and continuance. In addition to other sources inside and outside the entity, the entity’s accounting records are an important source of audit evidence. Also, information that may be used as audit evidence may have been prepared using the work of a management’s expert. Audit evidence comprises both information that supports and corroborates management’s assertions, and any information that contradicts such assertions. In addition, in some cases the absence of information (for example, management’s refusal to provide a requested representation) is used by the auditor, and therefore, also constitutes audit evidence.

A2. Most of the auditor’s work in forming the auditor’s opinion consists of obtaining and evaluating audit evidence. Audit procedures to obtain audit evidence can include inspection, observation, confirmation, recalculation, reperformance and analytical procedures, often in some combination, in addition to inquiry. Although inquiry may provide important audit evidence, and may even produce evidence of a misstatement, inquiry alone ordinarily does not provide sufficient audit evidence of the absence of a material misstatement at the assertion level, nor of the operating effectiveness of controls.

A3. As explained in SA 200,\(^6\) reasonable assurance is obtained when the auditor has obtained sufficient appropriate audit evidence to reduce audit risk (i.e., the risk that the auditor expresses an inappropriate opinion when the financial statements are materially misstated) to an acceptably low level.

A4. The sufficiency and appropriateness of audit evidence are interrelated. Sufficiency is the measure of the quantity of audit evidence. The quantity of audit evidence needed is affected by the auditor’s assessment of the risks of misstatement (the higher the assessed risks, the more audit evidence is likely to be required) and also by the quality of such audit evidence (the higher the quality, the less may be required). Obtaining more audit evidence, however, may not compensate for its poor quality.

A5. Appropriateness is the measure of the quality of audit evidence; that is, its relevance and its reliability in providing support for the conclusions on which the auditor’s opinion is based. The reliability of evidence is influenced by its source and by its nature, and is dependent on the individual circumstances under which it is obtained.

A6. SA 330 requires the auditor to conclude whether sufficient appropriate audit evidence has been obtained.\(^7\) Whether sufficient appropriate audit evidence has been obtained to reduce audit risk to an acceptably low level, and thereby enable the auditor to draw reasonable conclusions on which to base the auditor’s opinion, is a matter of professional judgment. SA 200 contains discussion of such matters as the nature of audit procedures, the timeliness of financial reporting, and the balance between benefit and cost, which are relevant factors when the auditor exercises professional judgment regarding whether sufficient appropriate audit evidence has been obtained.

**Sources of Audit Evidence**

A7. Some audit evidence is obtained by performing audit procedures to test the accounting records, for example, through analysis and review, reperforming procedures followed in the financial reporting process, and reconciling related types and applications of the same information. Through the performance of such audit procedures, the auditor may determine that the accounting records are internally consistent and agree to the financial statements.

---

\(^5\) SA 315, paragraph 9.
\(^6\) SA 200, paragraph 5.
\(^7\) SA 330, paragraph 26.
A8. More assurance is ordinarily obtained from consistent audit evidence obtained from different sources or of a different nature than from items of audit evidence considered individually. For example, corroborating information obtained from a source independent of the entity may increase the assurance the auditor obtains from audit evidence that is generated internally, such as evidence existing within the accounting records, minutes of meetings, or a management representation.

A9. Information from sources independent of the entity that the auditor may use as audit evidence may include confirmations from third parties, analysts' reports, and comparable data about competitors (benchmarking data).

Audit Procedures for Obtaining Audit Evidence

A10. As required by, and explained further in, SA 315 and SA 330, audit evidence to draw reasonable conclusions on which to base the auditor’s opinion is obtained by performing:

(a) Risk assessment procedures; and

(b) Further audit procedures, which comprise:
   (i) Tests of controls, when required by the SAs or when the auditor has chosen to do so; and
   (ii) Substantive procedures, including tests of details and substantive analytical procedures.

A11. The audit procedures described in paragraphs A14-A25 below may be used as risk assessment procedures, tests of controls or substantive procedures, depending on the context in which they are applied by the auditor. As explained in SA 330, audit evidence obtained from previous audits may, in certain circumstances, provide appropriate audit evidence where the auditor performs audit procedures to establish its continuing relevance.

A12. The nature and timing of the audit procedures to be used may be affected by the fact that some of the accounting data and other information may be available only in electronic form or only at certain points or periods in time. For example, source documents, such as purchase orders and invoices, may exist only in electronic form when an entity uses electronic commerce, or may be discarded after scanning when an entity uses image processing systems to facilitate storage and reference.

A13. Certain electronic information may not be retrievable after a specified period of time, for example, if files are changed and if backup files do not exist. Accordingly, the auditor may find it necessary as a result of an entity’s data retention policies to request retention of some information for the auditor’s review or to perform audit procedures at a time when the information is available.

Inspection

A14. Inspection involves examining records or documents, whether internal or external, in paper form, electronic form, or other media, or a physical examination of an asset. Inspection of records and documents provides audit evidence of varying degrees of reliability, depending on their nature and source and, in the case of internal records and documents, on the effectiveness of the controls over their production. An example of inspection used as a test of controls is inspection of records for evidence of authorisation.

A15. Some documents represent direct audit evidence of the existence of an asset, for example, a document constituting a financial instrument such as a stock or bond. Inspection of such documents may not necessarily provide audit evidence about ownership or value. In addition, inspecting an executed contract may provide audit evidence relevant to the entity's application of accounting policies, such as revenue recognition.

A16. Inspection of tangible assets may provide reliable audit evidence with respect to their existence, but not

---

8 SA 330, paragraph A35.
necessarily about the entity’s rights and obligations or the valuation of the assets. Inspection of individual inventory items may accompany the observation of inventory counting.

**Observation**

A17. Observation consists of looking at a process or procedure being performed by others, for example, the auditor’s observation of inventory counting by the entity’s personnel, or of the performance of control activities. Observation provides audit evidence about the performance of a process or procedure, but is limited to the point in time at which the observation takes place, and by the fact that the act of being observed may affect how the process or procedure is performed. See SA 501 for further guidance on observation of the counting of inventory.9

**External Confirmation**

A18. An external confirmation represents audit evidence obtained by the auditor as a direct written response to the auditor from a third party (the confirming party), in paper form, or by electronic or other medium. External confirmation procedures frequently are relevant when addressing assertions associated with certain account balances and their elements. However, external confirmations need not be restricted to account balances only. For example, the auditor may request confirmation of the terms of agreements or transactions an entity has with third parties; the confirmation request may be designed to ask if any modifications have been made to the agreement and, if so, what the relevant details are. External confirmation procedures also are used to obtain audit evidence about the absence of certain conditions, for example, the absence of a “side agreement” that may influence revenue recognition. See SA 505 for further guidance.10

**Recalculation**

A19. Recalculation consists of checking the mathematical accuracy of documents or records. Recalculation may be performed manually or electronically.

**Reperformance**

A20. Reperformance involves the auditor’s independent execution of procedures or controls that were originally performed as part of the entity’s internal control.

**Analytical Procedures**

A21. Analytical procedures consist of evaluations of financial information made by a study of plausible relationships among both financial and non-financial data. Analytical procedures also encompass the investigation of identified fluctuations and relationships that are inconsistent with other relevant information or deviate significantly from predicted amounts. See SA 520 for further guidance.

**Inquiry**

A22. Inquiry consists of seeking information of knowledgeable persons, both financial and non-financial, within the entity or outside the entity. Inquiry is used extensively throughout the audit in addition to other audit procedures. Inquiries may range from formal written inquiries to informal oral inquiries. Evaluating responses to inquiries is an integral part of the inquiry process.

A23. Responses to inquiries may provide the auditor with information not previously possessed or with corroborative audit evidence. Alternatively, responses might provide information that differs significantly from other information that the auditor has obtained, for example, information regarding the possibility of management override of controls. In some cases, responses to inquiries provide a basis for the auditor to

---

9 SA 501, “Audit Evidence—Specific Considerations for Selected Items”.
10 SA 505, “External Confirmations”.
modify or perform additional audit procedures.

A24. Although corroboration of evidence obtained through inquiry is often of particular importance, in the case of inquiries about management intent, the information available to support management’s intent may be limited. In these cases, understanding management’s past history of carrying out its stated intentions, management’s stated reasons for choosing a particular course of action, and management’s ability to pursue a specific course of action may provide relevant information to corroborate the evidence obtained through inquiry.

A25. In respect of some matters, the auditor may consider it necessary to obtain written representations from management and, where appropriate, those charged with governance to confirm responses to oral inquiries. See SA 580 for further guidance.11

Information to Be Used as Audit Evidence

Relevance and Reliability (Ref: Para. 7)

A26. As noted in paragraph A1, while audit evidence is primarily obtained from audit procedures performed during the course of the audit, it may also include information obtained from other sources such as, for example, previous audits, in certain circumstances, and a firm’s quality control procedures for client acceptance and continuance. The quality of all audit evidence is affected by the relevance and reliability of the information upon which it is based.

Relevance

A27. Relevance deals with the logical connection with, or bearing upon, the purpose of the audit procedure and, where appropriate, the assertion under consideration. The relevance of information to be used as audit evidence may be affected by the direction of testing. For example, if the purpose of an audit procedure is to test for overstatement in the existence or valuation of accounts payable, testing the recorded accounts payable may be a relevant audit procedure. On the other hand, when testing for understatement in the existence or valuation of accounts payable, testing the recorded accounts payable would not be relevant, but testing such information as subsequent disbursements, unpaid invoices, suppliers’ statements, and unmatched receiving reports may be relevant.

A28. A given set of audit procedures may provide audit evidence that is relevant to certain assertions, but not others. For example, inspection of documents related to the collection of receivables after the period end may provide audit evidence regarding existence and valuation, but not necessarily cut-off. Similarly, obtaining audit evidence regarding a particular assertion, for example, the existence of inventory, is not a substitute for obtaining audit evidence regarding another assertion, for example, the valuation of that inventory. On the other hand, audit evidence from different sources or of a different nature may often be relevant to the same assertion.

A29. Tests of controls are designed to evaluate the operating effectiveness of controls in preventing, or detecting and correcting, material misstatements at the assertion level. Designing tests of controls to obtain relevant audit evidence includes identifying conditions (characteristics or attributes) that indicate performance of a control, and deviation conditions which indicate departures from adequate performance. The presence or absence of those conditions can then be tested by the auditor.

A30. Substantive procedures are designed to detect material misstatements at the assertion level. They comprise tests of details and substantive analytical procedures. Designing substantive procedures includes identifying conditions relevant to the purpose of the test that constitute a misstatement in the relevant assertion.

Reliability

A31. The reliability of information to be used as audit evidence, and therefore of the audit evidence itself, is

11 SA 580, “Written Representations”.

© The Institute of Chartered Accountants of India
influenced by its source and its nature, and the circumstances under which it is obtained, including the controls over its preparation and maintenance where relevant. Therefore, generalisations about the reliability of various kinds of audit evidence are subject to important exceptions. Even when information to be used as audit evidence is obtained from sources external to the entity, circumstances may exist that could affect its reliability. For example, information obtained from an independent external source may not be reliable if the source is not knowledgeable, or a management's expert may lack objectivity. While recognising that exceptions may exist, the following generalisations about the reliability of audit evidence may be useful:

- The reliability of audit evidence is increased when it is obtained from independent sources outside the entity.
- The reliability of audit evidence that is generated internally is increased when the related controls, including those over its preparation and maintenance, imposed by the entity are effective.
- Audit evidence obtained directly by the auditor (for example, observation of the application of a control) is more reliable than audit evidence obtained indirectly or by inference (for example, inquiry about the application of a control).
- Audit evidence in documentary form, whether paper, electronic, or other medium, is more reliable than evidence obtained orally (for example, a contemporaneously written record of a meeting is more reliable than a subsequent oral representation of the matters discussed).
- Audit evidence provided by original documents is more reliable than audit evidence provided by photocopies or facsimiles, or documents that have been filmed, digitised or otherwise transformed into electronic form, the reliability of which may depend on the controls over their preparation and maintenance.

A32. SA 520 provides further guidance regarding the reliability of data used for purposes of designing analytical procedures as substantive procedures.12

A33. SA 240 deals with circumstances where the auditor has reason to believe that a document may not be authentic, or may have been modified without that modification having been disclosed to the auditor.13

Reliability of Information Produced by a Management's Expert (Ref: Para. 8)

A34. The preparation of an entity's financial statements may require expertise in a field other than accounting or auditing, such as actuarial calculations, valuations, or engineering data. The entity may employ or engage experts in these fields to obtain the needed expertise to prepare the financial statements. Failure to do so when such expertise is necessary increases the risks of material misstatement.

A35. When information to be used as audit evidence has been prepared using the work of a management's expert, the requirement in paragraph 8 of this SA applies. For example, an individual or organisation may possess expertise in the application of models to estimate the fair value of securities for which there is no observable market. If the individual or organisation applies that expertise in making an estimate which the entity uses in preparing its financial statements, the individual or organisation is a management's expert and paragraph 8 applies. If, on the other hand, that individual or organization merely provides price data regarding private transactions not otherwise available to the entity which the entity uses in its own estimation methods, such information, if used as audit evidence, is subject to paragraph 7 of this SA, but is not the use of a management's expert by the entity.

A36. The nature, timing and extent of audit procedures in relation to the requirement in paragraph 8 of this

---

12 SA 520, paragraph 5 (a).
SA, may be affected by such matters as:

- The nature and complexity of the matter to which the management’s expert relates.
- The risks of material misstatement in the matter.
- The availability of alternative sources of audit evidence.
- The nature, scope and objectives of the management’s expert’s work.
- Whether the management’s expert is employed by the entity, or is a party engaged by it to provide relevant services.
- The extent to which management can exercise control or influence over the work of the management’s expert.
- Whether the management’s expert is subject to technical performance standards or other professional or industry requirements.
- The nature and extent of any controls within the entity over the management’s expert’s work.
- The auditor’s knowledge and experience of the management’s expert’s field of expertise.
- The auditor’s previous experience of the work of that expert.

The Competence, Capabilities and Objectivity of a Management’s Expert (Ref: Para. 8(a))

A37. Competence relates to the nature and level of expertise of the management’s expert. Capability relates the ability of the management’s expert to exercise that competence in the circumstances. Factors that influence capability may include, for example, geographic location, and the availability of time and resources. Objectivity relates to the possible effects that bias, conflict of interest or the influence of others may have on the professional or business judgment of the management’s expert. The competence, capabilities and objectivity of a management’s expert, and any controls within the entity over that expert’s work, are important factors in relation to the reliability of any information produced by a management’s expert.

A38. Information regarding the competence, capabilities and objectivity of a management’s expert may come from a variety of sources, such as:

- Personal experience with previous work of that expert.
- Discussions with that expert.
- Discussions with others who are familiar with that expert’s work.
- Knowledge of that expert’s qualifications, membership of a professional body or industry association, license to practice, or other forms of external recognition.
- Published papers or books written by that expert.
- An auditor’s expert, if any, who assists the auditor in obtaining sufficient appropriate audit evidence with respect to information produced by the management’s expert.

A39. Matters relevant to evaluating the competence, capabilities and objectivity of a management’s expert include whether that expert’s work is subject to technical performance standards or other professional or industry requirements, for example, ethical standards and other membership requirements of a professional body or industry association, accreditation standards of a licensing body, or requirements imposed by law or regulation.

A40. Other matters that may be relevant include:

- The relevance of the management’s expert’s competence to the matter for which that expert’s work will
be used, including any areas of specialty within that expert’s field. For example, a particular actuary may specialize in property and casualty insurance, but have limited expertise regarding pension calculations.

- The management’s expert’s competence with respect to relevant accounting requirements, for example, knowledge of assumptions and methods, including models where applicable, that are consistent with the applicable financial reporting framework.
- Whether unexpected events, changes in conditions, or the audit evidence obtained from the results of audit procedures indicate that it may be necessary to reconsider the initial evaluation of the competence, capabilities and objectivity of the management’s expert as the audit progresses.

A41. A broad range of circumstances may threaten objectivity, for example, self-interest threats, advocacy threats, familiarity threats, self-review threats and intimidation threats. Safeguards may reduce such threats, and may be created either by external structures (for example, the management’s expert’s profession, legislation or regulation), or by the management’s expert’s work environment (for example, quality control policies and procedures).

A42. Although safeguards cannot eliminate all threats to a management’s expert’s objectivity, threats such as intimidation threats may be of less significance to an expert engaged by the entity than to an expert employed by the entity, and the effectiveness of safeguards such as quality control policies and procedures may be greater. Because the threat to objectivity created by being an employee of the entity will always be present, an expert employed by the entity cannot ordinarily be regarded as being more likely to be objective than other employees of the entity.

A43. When evaluating the objectivity of an expert engaged by the entity, it may be relevant to discuss with management and that expert any interests and relationships that may create threats to the expert’s objectivity, and any applicable safeguards, including any professional requirements that apply to the expert; and to evaluate whether the safeguards are adequate. Interests and relationships creating threats may include:

- Financial interests.
- Business and personal relationships.
- Provision of other services.

Obtaining an Understanding of the Work of the Management’s Expert (Ref: Para. 8(b))

A44. An understanding of the work of the management’s expert includes an understanding of the relevant field of expertise. An understanding of the relevant field of expertise may be obtained in conjunction with the auditor’s determination of whether the auditor has the expertise to evaluate the work of the management’s expert, or whether the auditor needs an auditor’s expert for this purpose.14

A45. Aspects of the management’s expert’s field relevant to the auditor’s understanding may include:

- Whether that expert’s field has areas of specialty within it that are relevant to the audit.
- Whether any professional or other standards, and regulatory or legal requirements apply.
- What assumptions and methods are used by the management’s expert, and whether they are generally accepted within that expert’s field and appropriate for financial reporting purposes.
- The nature of internal and external data or information the auditor’s expert uses.

A46. In the case of a management’s expert engaged by the entity, there will ordinarily be an engagement letter or other written form of agreement between the entity and that expert. Evaluating that agreement when

obtaining an understanding of the work of the management’s expert may assist the auditor in determining the appropriateness of the following for the auditor’s purposes:

- The nature, scope and objectives of that expert’s work;
- The respective roles and responsibilities of management and that expert; and
- The nature, timing and extent of communication between management and that expert, including the form of any report to be provided by that expert.

A47. In the case of a management’s expert employed by the entity, it is less likely there will be a written agreement of this kind. Inquiry of the expert and other members of management may be the most appropriate way for the auditor to obtain the necessary understanding.

Evaluating the Appropriateness of the Management’s Expert’s Work (Ref: Para. 8(c))

A48. Considerations when evaluating the appropriateness of the management’s expert’s work as audit evidence for the relevant assertion may include:

- The relevance and reasonableness of that expert’s findings or conclusions, their consistency with other audit evidence, and whether they have been appropriately reflected in the financial statements;
- If that expert’s work involves use of significant assumptions and methods, the relevance and reasonableness of those assumptions and methods; and
- If that expert’s work involves significant use of source data, the relevance, completeness, and accuracy of that source data.

Information Produced by the Entity and Used for the Auditor’s Purposes (Ref: Para. 9(a)-(b))

A49. In order for the auditor to obtain reliable audit evidence, information produced by the entity that is used for performing audit procedures needs to be sufficiently complete and accurate. For example, the effectiveness of auditing revenue by applying standard prices to records of sales volume is affected by the accuracy of the price information and the completeness and accuracy of the sales volume data. Similarly, if the auditor intends to test a population (for example, payments) for a certain characteristic (for example, authorisation), the results of the test will be less reliable if the population from which items are selected for testing is not complete.

A50. Obtaining audit evidence about the accuracy and completeness of such information may be performed concurrently with the actual audit procedure applied to the information when obtaining such audit evidence is an integral part of the audit procedure itself. In other situations, the auditor may have obtained audit evidence of the accuracy and completeness of such information by testing controls over the preparation and maintenance of the information. In some situations, however, the auditor may determine that additional audit procedures are needed.

A51. In some cases, the auditor may intend to use information produced by the entity for other audit purposes. For example, the auditor may intend to make use of the entity’s performance measures for the purpose of analytical procedures, or to make use of the entity’s information produced for monitoring activities, such as internal auditor’s reports. In such cases, the appropriateness of the audit evidence obtained is affected by whether the information is sufficiently precise or detailed for the auditor’s purposes. For example, performance measures used by management may not be precise enough to detect material misstatements.

Selecting Items for Testing to Obtain Audit Evidence (Ref: Para. 10)

A52. An effective test provides appropriate audit evidence to an extent that, taken with other audit evidence obtained or to be obtained, will be sufficient for the auditor’s purposes. In selecting items for testing, the auditor is required by paragraph 7 to determine the relevance and reliability of information to be used as audit evidence;
the other aspect of effectiveness (sufficiency) is an important consideration in selecting items to test. The means available to the auditor for selecting items for testing are:

(a) Selecting all items (100% examination);
(b) Selecting specific items; and
(c) Audit sampling.

The application of any one or combination of these means may be appropriate depending on the particular circumstances, for example, the risks of material misstatement related to the assertion being tested, and the practicality and efficiency of the different means.

Selecting All Items

A53. The auditor may decide that it will be most appropriate to examine the entire population of items that make up a class of transactions or account balance (or a stratum within that population). 100% examination is unlikely in the case of tests of controls; however, it is more common for tests of details. 100% examination may be appropriate when, for example:

- The population constitutes a small number of large value items;
- There is a significant risk and other means do not provide sufficient appropriate audit evidence; or
- The repetitive nature of a calculation or other process performed automatically by an information system makes a 100% examination cost effective.

Selecting Specific Items

A54. The auditor may decide to select specific items from a population. In making this decision, factors that may be relevant include the auditor’s understanding of the entity, the assessed risks of material misstatement, and the characteristics of the population being tested. The judgmental selection of specific items is subject to non-sampling risk. Specific items selected may include:

- High value or key items. The auditor may decide to select specific items within a population because they are of high value, or exhibit some other characteristic, for example, items that are suspicious, unusual, particularly risk-prone or that have a history of error.
- All items over a certain amount. The auditor may decide to examine items whose recorded values exceed a certain amount so as to verify a large proportion of the total amount of a class of transactions or account balance.
- Items to obtain information. The auditor may examine items to obtain information about matters such as the nature of the entity or the nature of transactions.

A55. While selective examination of specific items from a class of transactions or account balance will often be an efficient means of obtaining audit evidence, it does not constitute audit sampling. The results of audit procedures applied to items selected in this way cannot be projected to the entire population; accordingly, selective examination of specific items does not provide audit evidence concerning the remainder of the population.

Audit Sampling

A56. Audit sampling is designed to enable conclusions to be drawn about an entire population on the basis of testing a sample drawn from it. Audit sampling is discussed in SA 530.\textsuperscript{15}

\textbf{Inconsistency in, or Doubts over Reliability of, Audit Evidence} (Ref: Para. 11)

\textsuperscript{15} SA 530, “Audit Sampling”. © The Institute of Chartered Accountants of India
A57. Obtaining audit evidence from different sources or of a different nature may indicate that an individual item of audit evidence is not reliable, such as when audit evidence obtained from one source is inconsistent with that obtained from another. This may be the case when, for example, responses to inquiries of management, internal audit, and others are inconsistent, or when responses to inquiries of those charged with governance made to corroborate the responses to inquiries of management are inconsistent with the response by management. SA 230 includes a specific documentation requirement if the auditor identified information that is inconsistent with the auditor’s final conclusion regarding a significant matter.16

Material Modifications vis-à-vis ISA 500, “Audit Evidence”

SA 500, “Audit Evidence” does not contain any material modifications vis-a-vis ISA 500.

SA 501*  
Audit Evidence—Specific Considerations for Selected Items  
(Effective for all audits relating to accounting periods beginning on or after April 1, 2010)

Introduction

Scope of this SA
1. This Standard on Auditing (SA) deals with specific considerations by the auditor in obtaining sufficient appropriate audit evidence in accordance with SA 330, SA 500 and other relevant SAs, with respect to certain aspects of inventory, litigation and claims involving the entity, and segment information in an audit of financial statements.

Effective Date
2. This SA is effective for audits of financial statements for periods beginning on or after April 1, 2010.

Objective
3. The objective of the auditor is to obtain sufficient appropriate audit evidence regarding the:
   (a) Existence and condition of inventory;
   (b) Completeness of litigation and claims involving the entity; and
   (c) Presentation and disclosure of segment information in accordance with the applicable financial reporting framework.

Requirements

Inventory
4. When inventory is material to the financial statements, the auditor shall obtain sufficient appropriate audit evidence regarding the existence and condition of inventory by:
   (a) Attendance at physical inventory counting, unless impracticable, to: (Ref: Para. A1-A3)
       (i) Evaluate management’s instructions and procedures for recording and controlling the results of the entity’s physical inventory counting; (Ref: Para. A4)
       (ii) Observe the performance of management’s count procedures; (Ref: Para. A5)
       (iii) Inspect the inventory; and (Ref: Para. A6)
       (iv) Perform test counts; and (Ref: Para. A7-A8)
   (b) Performing audit procedures over the entity’s final inventory records to determine whether they accurately reflect actual inventory count results.

* Published in March, 2010 issue of the Journal.

2 SA 500, “Audit Evidence”.

© The Institute of Chartered Accountants of India
5. If physical inventory counting is conducted at a date other than the date of the financial statements, the auditor shall, in addition to the procedures required by paragraph 4, perform audit procedures to obtain audit evidence about whether changes in inventory between the count date and the date of the financial statements are properly recorded. (Ref: Para. A9-A11)

6. If the auditor is unable to attend physical inventory counting due to unforeseen circumstances, the auditor shall make or observe some physical counts on an alternative date, and perform audit procedures on intervening transactions.

7. If attendance at physical inventory counting is impracticable, the auditor shall perform alternative audit procedures to obtain sufficient appropriate audit evidence regarding the existence and condition of inventory. If it is not possible to do so, the auditor shall modify the opinion in the auditor's report in accordance with SA 705. (Ref: Para. A12-A14)

8. When inventory under the custody and control of a third party is material to the financial statements, the auditor shall obtain sufficient appropriate audit evidence regarding the existence and condition of that inventory by performing one or both of the following:
   (a) Request confirmation from the third party as to the quantities and condition of inventory held on behalf of the entity. (Ref: Para. A15)
   (b) Perform inspection or other audit procedures appropriate in the circumstances. (Ref: Para. A16)

Litigation and Claims

9. The auditor shall design and perform audit procedures in order to identify litigation and claims involving the entity which may give rise to a risk of material misstatement, including: (Ref: Para. A17-A19)
   (a) Inquiry of management and, where applicable, others within the entity, including in-house legal counsel;
   (b) Reviewing minutes of meetings of those charged with governance and correspondence between the entity and its external legal counsel; and
   (c) Reviewing legal expense accounts. (Ref: Para. A20)

10. If the auditor assesses a risk of material misstatement regarding litigation or claims that have been identified, or when audit procedures performed indicate that other material litigation or claims may exist, the auditor shall, in addition to the procedures required by other SAs, seek direct communication with the entity's external legal counsel. The auditor shall do so through a letter of inquiry, prepared by management and sent by the auditor, requesting the entity's external legal counsel to communicate directly with the auditor. If law, regulation or the respective legal professional body prohibits the entity's external legal counsel from communicating directly with the auditor, the auditor shall perform alternative audit procedures. (Ref: Para. A21-A25)

11. If:
   (a) management refuses to give the auditor permission to communicate or meet with the entity's external legal counsel, or the entity's external legal counsel refuses to respond appropriately to the letter of inquiry, or is prohibited from responding; and
   (b) the auditor is unable to obtain sufficient appropriate audit evidence by performing alternative audit procedures, the auditor shall modify the opinion in the auditor's report in accordance with SA 705.

3 SA 705, “Modifications to the Opinion in the Independent Auditor's Report”.
Written Representations
12. The auditor shall request management and, where appropriate, those charged with governance to provide written representations that all known actual or possible litigation and claims whose effects should be considered when preparing the financial statements have been disclosed to the auditor and appropriately accounted for and disclosed in accordance with the applicable financial reporting framework.

Segment Information
13. The auditor shall obtain sufficient appropriate audit evidence regarding the presentation and disclosure of segment information in accordance with the applicable financial reporting framework by: (Ref: Para. A26)
   (a) Obtaining an understanding of the methods used by management in determining segment information, and: (Ref: Para. A27)
      (i) Evaluating whether such methods are likely to result in disclosure in accordance with the applicable financial reporting framework; and
      (ii) Where appropriate, testing the application of such methods; and
   (b) Performing analytical procedures or other audit procedures appropriate in the circumstances.

Application and Other Explanatory Material
Inventory
Attendance at Physical Inventory Counting (Ref: Para. 4(a))
A1. Management ordinarily establishes procedures under which inventory is physically counted at least once a year to serve as a basis for the preparation of the financial statements and, if applicable, to ascertain the reliability of the entity's perpetual inventory system.
A2. Attendance at physical inventory counting involves:
   • Inspecting the inventory to ascertain its existence and evaluate its condition, and performing test counts;
   • Observing compliance with management’s instructions and the performance of procedures for recording and controlling the results of the physical inventory count; and
   • Obtaining audit evidence as to the reliability of management’s count procedures.
These procedures may serve as test of controls or substantive procedures depending on the auditor’s risk assessment, planned approach and the specific procedures carried out.
A3. Matters relevant in planning attendance at physical inventory counting (or in designing and performing audit procedures pursuant to paragraphs 4-8 of this SA) include, for example:
   • Nature of inventory.
   • Stages of completion of work in progress.
   • The risks of material misstatement related to inventory.
   • The nature of the internal control related to inventory.
   • Whether adequate procedures are expected to be established and proper instructions issued for physical inventory counting.
   • The timing of physical inventory counting.
   • Whether the entity maintains a perpetual inventory system.
   • The locations at which inventory is held, including the materiality of the inventory and the risks of material misstatement at different locations, in deciding at which locations attendance is appropriate. SA 600,
“Using the Work of Another Auditor” deals with the involvement of other auditors and accordingly may be relevant if such involvement is with regards to attendance of physical inventory counting at a remote location.

- Whether the assistance of an auditor’s expert is needed. SA 620\(^4\) deals with the use of an auditor’s expert to assist the auditor to obtain sufficient appropriate audit evidence.

**Evaluate Management’s Instructions and Procedures (Ref: Para. 4(a)(i))**

A4. Matters relevant in evaluating management’s instructions and procedures for recording and controlling the physical inventory counting include whether they address, for example:

- The application of appropriate control activities, for example, collection of used physical inventory count records, accounting for unused physical inventory count records, and count and re-count procedures.
- The accurate identification of the stage of completion of work in progress, of slow moving, obsolete or damaged items and of inventory owned by a third party, for example, on consignment.
- The procedures used to estimate physical quantities, where applicable, such as may be needed in estimating the physical quantity of a coal pile.
- Control over the movement of inventory between areas and the shipping and receipt of inventory before and after the cut off date.

**Observe the Performance of Management’s Count Procedures (Ref: Para. 4(a)(ii))**

A5. Observing the performance of management’s count procedures, for example those relating to control over the movement of inventory before, during and after the count, assists the auditor in obtaining audit evidence that management’s instructions and count procedures are adequately designed and implemented. In addition, the auditor may obtain copies of cut off information, such as details of the movement of inventory, to assist the auditor in performing audit procedures over the accounting for such movements at a later date.

**Inspect the Inventory (Ref: Para. 4(a)(iii))**

A6. Inspecting inventory when attending physical inventory counting assists the auditor in ascertaining the existence of the inventory (though not necessarily its ownership), and in identifying, for example, obsolete, damaged or ageing inventory.

**Perform Test Counts (Ref: Para. 4(a)(iv))**

A7. Performing test counts, for example by tracing items selected from management’s count records to the physical inventory and tracing items selected from the physical inventory to management’s count records, provides audit evidence about the completeness and the accuracy of those records.

A8. In addition to recording the auditor’s test counts, obtaining copies of management’s completed physical inventory count records assists the auditor in performing subsequent audit procedures to determine whether the entity’s final inventory records accurately reflect actual inventory count results.

**Physical Inventory Counting Conducted Other than At the Date of the Financial Statements (Ref: Para. 5)**

A9. For practical reasons, the physical inventory counting may be conducted at a date, or dates, other than the date of the financial statements. This may be done irrespective of whether management determines inventory quantities by an annual physical inventory counting or maintains a perpetual inventory system. In either case, the effectiveness of the design, implementation and maintenance of controls over changes in inventory

\(^4\) SA 620, “Using the Work of an Auditor’s Expert”.
determines whether the conduct of physical inventory counting at a date, or dates, other than the date of the financial statements is appropriate for audit purposes. SA 330 establishes requirements and provides guidance on substantive procedures performed at an interim date.

A10. Where a perpetual inventory system is maintained, management may perform physical counts or other tests to ascertain the reliability of inventory quantity information included in the entity’s perpetual inventory records. In some cases, management or the auditor may identify differences between the perpetual inventory records and actual physical inventory quantities on hand; this may indicate that the controls over changes in inventory are not operating effectively.

A11. Relevant matters for consideration when designing audit procedures to obtain audit evidence about whether changes in inventory amounts between the count date, or dates, and the final inventory records are properly recorded include:

- Whether the perpetual inventory records are properly adjusted.
- Reliability of the entity’s perpetual inventory records.
- Reasons for significant differences between the information obtained during the physical count and the perpetual inventory records.

**Attendance at Physical Inventory Counting Is Impracticable** (Ref: Para. 7)

A12. In some cases, attendance at physical inventory counting may be impracticable. This may be due to factors such as the nature and location of the inventory, for example, where inventory is held in a location that may pose threats to the safety of the auditor. The matter of general inconvenience to the auditor, however, is not sufficient to support a decision by the auditor that attendance is impracticable. Further, as explained in SA 200, the matter of difficulty, time, or cost involved is not in itself a valid basis for the auditor to omit an audit procedure for which there is no alternative or to be satisfied with audit evidence that is less than persuasive.

A13. In some cases where attendance is impracticable, alternative audit procedures, for example inspection of documentation of the subsequent sale of specific inventory items acquired or purchased prior to the physical inventory counting, may provide sufficient appropriate audit evidence about the existence and condition of inventory.

A14. In other cases, however, it may not be possible to obtain sufficient appropriate audit evidence regarding the existence and condition of inventory by performing alternative audit procedures. In such cases, SA 705 requires the auditor to modify the opinion in the auditor’s report as a result of the scope limitation.

**Inventory under the Custody and Control of a Third Party**

**Confirmation** (Ref: Para. 8(a))

A15. SA 505 establishes requirements and provides guidance for performing external confirmation procedures.

**Other Audit Procedures** (Ref: Para. 8(b))

A16. Depending on the circumstances, for example where information is obtained that raises doubt about the integrity and objectivity of the third party, the auditor may consider it appropriate to perform other audit procedures instead of, or in addition to, confirmation with the third party. Examples of other audit procedures

---

5 SA 330, paragraphs 22-23.
7 SA 705, paragraph 13.
8 SA 505, “External Confirmations”.

© The Institute of Chartered Accountants of India
include:

- Attending, or arranging for another auditor to attend, the third party’s physical counting of inventory, if practicable.
- Obtaining another auditor’s report, or a service auditor’s report, on the adequacy of the third party’s internal control for ensuring that inventory is properly counted and adequately safeguarded.
- Inspecting documentation regarding inventory held by third parties, for example, warehouse receipts.
- Requesting confirmation from other parties when inventory has been pledged as collateral.

**Litigation and Claims**

**Completeness of Litigations and Claims** (Ref: Para. 9)

A17. Litigation and claims involving the entity may have a material effect on the financial statements and thus may be required to be disclosed or accounted for in the financial statements.

A18. In addition to the procedures identified in paragraph 9, other relevant procedures include, for example, using information obtained through risk assessment procedures carried out as part of obtaining an understanding of the entity and its environment to assist the auditor to become aware of litigation and claims involving the entity.

A19. Audit evidence obtained for purposes of identifying litigation and claims that may give rise to a risk of material misstatement also may provide audit evidence regarding other relevant considerations, such as valuation or measurement, regarding litigation and claims. SA 540 establishes requirements and provides guidance relevant to the auditor’s consideration of litigation and claims requiring accounting estimates or related disclosures in the financial statements.

**Reviewing Legal Expense Accounts** (Ref: Para. 9(c))

A20. Depending on the circumstances, the auditor may judge it appropriate to examine related source documents, such as invoices for legal expenses, as part of the auditor’s review of legal expense accounts.

**Communication with the Entity’s External Legal Counsel** (Ref: Para. 10-11)

A21. Direct communication with the entity’s external legal counsel assists the auditor in obtaining sufficient appropriate audit evidence as to whether potentially material litigation and claims are known and management’s estimates of the financial implications, including costs, are reasonable.

A22. In some cases, the auditor may seek direct communication with the entity’s external legal counsel through a letter of general inquiry. For this purpose, a letter of general inquiry requests the entity’s external legal counsel to inform the auditor of any litigation and claims that the counsel is aware of, together with an assessment of the outcome of the litigation and claims, and an estimate of the financial implications, including costs involved.

A23. If it is considered unlikely that the entity’s external legal counsel will respond appropriately to a letter of general inquiry, for example if the professional body to which the external legal counsel belongs prohibits response to such a letter, the auditor may seek direct communication through a letter of specific inquiry. For this purpose, a letter of specific inquiry includes:

(a) A list of litigation and claims;
(b) Where available, management’s assessment of the outcome of each of the identified litigation and claims and its estimate of the financial implications, including costs involved; and
(c) A request that the entity’s external legal counsel confirm the reasonableness of management’s

---

© The Institute of Chartered Accountants of India
assessments and provide the auditor with further information if the list is considered by the entity’s external legal counsel to be incomplete or incorrect.

A24. In certain circumstances, the auditor also may judge it necessary to meet with the entity’s external legal counsel to discuss the likely outcome of the litigation or claims. This may be the case, for example, where:

- The auditor determines that the matter is a significant risk.
- The matter is complex.
- There is disagreement between management and the entity’s external legal counsel. Ordinarily, such meetings require management’s permission and are held with a representative of management in attendance.

A25. In accordance with Revised SA 700\(^ {10} \), the auditor is required to date the auditor’s report no earlier than the date on which the auditor has obtained sufficient appropriate audit evidence on which to base the auditor’s opinion on the financial statements. Audit evidence about the status of litigation and claims up to the date of the auditor’s report may be obtained by inquiry of management, including in-house legal counsel, responsible for dealing with the relevant matters. In some instances, the auditor may need to obtain updated information from the entity’s external legal counsel.

**Segment Information (Ref: Para. 13)**

A26. Depending on the applicable financial reporting framework, the entity may be required or permitted to disclose segment information in the financial statements. The auditor’s responsibility regarding the presentation and disclosure of segment information is in relation to the financial statements taken as a whole. Accordingly, the auditor is not required to perform audit procedures that would be necessary to express an opinion on the segment information presented on a stand alone basis.

**Understanding of the Methods Used by Management (Ref: Para. 13(a))**

A27. Depending on the circumstances, example of matters that may be relevant when obtaining an understanding of the methods used by management in determining segment information and whether such methods are likely to result in disclosure in accordance with the applicable financial reporting framework include:

- Sales, transfers and charges between segments, and elimination of inter-segment amounts.
- Comparisons with budgets and other expected results, for example, operating profits as a percentage of sales.
- The allocation of assets and costs among segments.
- Consistency with prior periods, and the adequacy of the disclosures with respect to inconsistencies.

**Modifications vis-à-vis ISA 501, “Audit Evidence—Specific Considerations for Selected Items”**

SA 501, “Audit Evidence—Specific Considerations for Selected Items” does not contain any modifications vis-à-vis ISA 501.

---

\(^ {10} \) Revised SA 700, “Forming an Opinion and Reporting on Financial Statements”, paragraph 41.
Introduction

Scope of this SA

1. This Standard on Auditing (SA) deals with the auditor’s use of external confirmation procedures to obtain audit evidence in accordance with the requirements of SA 330 and SA 500. It does not address inquiries regarding litigation and claims. SA 501 deals with obtaining sufficient appropriate audit evidence from such inquiries.

External Confirmation Procedures to Obtain Audit Evidence

2. SA 500 indicates that the reliability of audit evidence is influenced by its source and by its nature, and is dependent on the individual circumstances under which it is obtained. That SA also includes the following generalisations applicable to audit evidence:

- Audit evidence is more reliable when it is obtained from independent sources outside the entity.
- Audit evidence obtained directly by the auditor is more reliable than audit evidence obtained indirectly or by inference.
- Audit evidence is more reliable when it exists in documentary form, whether paper, electronic or other medium.

Accordingly, depending on the circumstances of the audit, audit evidence in the form of external confirmations received directly by the auditor from confirming parties may be more reliable than evidence generated internally by the entity. This SA is intended to assist the auditor in designing and performing external confirmations procedures to obtain relevant and reliable audit evidence.

3. Other SAs recognise the importance of external confirmations as audit evidence, for example:

- SA 330 discusses the auditor’s responsibility to design and implement overall responses to address the assessed risks of material misstatement at the financial statement level, and to design and perform further audit procedures whose nature, timing and extent are based on, and are responsive to, the assessed risks of material misstatement at the assertion level. In addition, SA 330 requires that,

---

* Published in March, 2010 issue of the Journal.
1 SA 330, “The Auditor’s Responses to Assessed Risks”.
2 SA 500, “Audit Evidence”.
3 SA 501, “Audit Evidence—Specific Considerations for Selected Items”.
4 SA 500, paragraph A5.
5 SA 500, paragraph A31.
6 SA 330, paragraphs 5-6.
irrespective of the assessed risks of material misstatement, the auditor designs and performs substantive procedures for each material class of transactions, account balance, and disclosure. The auditor is also required to consider whether external confirmation procedures are to be performed as substantive audit procedures.

- SA 330 requires that the auditor obtain more persuasive audit evidence the higher the auditor’s assessment of risk. To do this, the auditor may increase the quantity of the evidence or obtain evidence that is more relevant or reliable, or both. For example, the auditor may place more emphasis on obtaining evidence directly from third parties or obtaining corroborating evidence from a number of independent sources. SA 330 also indicates that external confirmation procedures may assist the auditor in obtaining audit evidence with the high level of reliability that the auditor requires to respond to significant risks of material misstatement, whether due to fraud or error.

- SA 240 indicates that the auditor may design confirmation requests to obtain additional corroborative information as a response to address the assessed risks of material misstatement, whether due to fraud at the assertion level.

- SA 500 indicates that corroborating information obtained from a source independent of the entity, such as external confirmations, may increase the assurance the auditor obtains from evidence existing within the accounting records or from the representations made by the management.

Effective Date

4. This SA is effective for audit of financial statements for period beginning on or after April 1, 2010.

Objective

5. The objective of the auditor, when using external confirmation procedures, is to design and perform such procedures to obtain relevant and reliable audit evidence.

Definitions

6. For purposes of the SAs, the following terms have the meanings attributed below:

a) External confirmation – Audit evidence obtained as a direct written response to the auditor from a third party (the confirming party), in paper form, or by electronic or other medium.

b) Positive confirmation request – A request that the confirming party respond directly to the auditor indicating whether the confirming party agrees or disagrees with the information in the request, or providing the requested information.

c) Negative confirmation request – A request that the confirming party respond directly to the auditor only if the confirming party disagrees with the information provided in the request.

d) Non-response – A failure of the confirming party to respond, or fully respond, to a positive confirmation request, or a confirmation request returned undelivered.

e) Exception – A response that indicates a difference between information requested to be confirmed, or contained in the entity’s records, and information provided by the confirming party.
Requirements

External Confirmation Procedures

7. When using external confirmation procedures, the auditor shall maintain control over external confirmation requests, including:
   (a) Determining the information to be confirmed or requested; (Ref: Para. A1)
   (b) Selecting the appropriate confirming party; (Ref: Para. A2)
   (c) Designing the confirmation requests, including determining that requests are properly addressed and contain return information for responses to be sent directly to the auditor; and (Ref: Para. A3-A6)
   (d) Sending the requests, including follow-up requests when applicable, to the confirming party. (Ref: Para. A7)

Management’s Refusal to Allow the Auditor to Send a Confirmation Request

8. If management refuses to allow the auditor to send a confirmation request, the auditor shall:
   (a) Inquire as to management’s reasons for the refusal, and seek audit evidence as to their validity and reasonableness; (Ref: Para. A8)
   (b) Evaluate the implications of management’s refusal on the auditor’s assessment of the relevant risks of material misstatement, including the risk of fraud, and on the nature, timing and extent of other audit procedures; and (Ref: Para. A9)
   (c) Perform alternative audit procedures designed to obtain relevant and reliable audit evidence. (Ref: Para. A10)

9. If the auditor concludes that management’s refusal to allow the auditor to send a confirmation request is unreasonable, or the auditor is unable to obtain relevant and reliable audit evidence from alternative audit procedures, the auditor shall communicate with those charged with governance in accordance with SA 26012. The auditor also shall determine the implications for the audit and the auditor’s opinion in accordance with SA 70513.

Results of the External Confirmation Procedures

Reliability of Responses to Confirmation Requests

10. If the auditor identifies factors that give rise to doubts about the reliability of the response to a confirmation request, the auditor shall obtain further audit evidence to resolve those doubts. (Ref: Para. A11-A16)

11. If the auditor determines that a response to a confirmation request is not reliable, the auditor shall evaluate the implications on the assessment of the relevant risks of material misstatement, including the risk of fraud, and on the related nature, timing and extent of other audit procedures. (Ref: Para. A17)

Non-Responses

12. In the case of each non-response, the auditor shall perform alternative audit procedures to obtain relevant and reliable audit evidence. (Ref: Para A18-A19)

12 SA 260, “Communication with Those Charged with Governance”, paragraph 12.
13 SA 705, “Modifications to the Opinion in the Independent Auditor’s Report”.
When a Response to a Positive Confirmation Request is Necessary to Obtain Sufficient Appropriate Audit Evidence

13. If the auditor has determined that a response to a positive confirmation request is necessary to obtain sufficient appropriate audit evidence, alternative audit procedures will not provide the audit evidence the auditor requires. If the auditor does not obtain such confirmation, the auditor shall determine the implications for the audit and the auditor’s opinion in accordance with SA 705. (Ref: Para A20)

Exceptions

14. The auditor shall investigate exceptions to determine whether or not they are indicative of misstatements. (Ref: Para A21-A22)

Negative Confirmations

15. Negative confirmations provide less persuasive audit evidence than positive confirmations. Accordingly, the auditor shall not use negative confirmation requests as the sole substantive audit procedure to address an assessed risk of material misstatement at the assertion level unless all of the following are present: (Ref: Para A23)

(a) The auditor has assessed the risk of material misstatement as low and has obtained sufficient appropriate audit evidence regarding the operating effectiveness of controls relevant to the assertion;
(b) The population of items subject to negative confirmation procedures comprises a large number of small, homogeneous, account balances, transactions or conditions;
(c) A very low exception rate is expected; and
(d) The auditor is not aware of circumstances or conditions that would cause recipients of negative confirmation requests to disregard such requests.

Evaluating the Evidence Obtained

16. The auditor shall evaluate whether the results of the external confirmation procedures provide relevant and reliable audit evidence, or whether performing further audit procedures is necessary. (Ref: Para A24-A25)

Application and Other Explanatory Material

External Confirmation Procedures

Determining the Information to be Confirmed or Requested (Ref: Para. 7(a))

A1. External confirmation procedures frequently are performed to confirm or request information regarding account balances and their elements. They may also be used to confirm terms of agreements, contracts, or transactions between an entity and other parties, or to confirm the absence of certain conditions, such as a “side agreement”.

Selecting the Appropriate Confirming Party (Ref: Para. 7(b))

A2. Responses to confirmation requests provide more relevant and reliable audit evidence when confirmation requests are sent to a confirming party the auditor believes is knowledgeable about the information to be confirmed. For example, a financial institution official who is knowledgeable about the transactions or arrangements for which confirmation is requested may be the most appropriate person at the financial institution from whom to request confirmation.

Designing Confirmation Requests (Ref: Para. 7(c))

A3. The design of a confirmation request may directly affect the confirmation response rate, and the reliability and the nature of the audit evidence obtained from responses.

A4. Factors to consider when designing confirmation requests include:
• The assertions being addressed.
• Specific identified risks of material misstatement, including fraud risks.
• The layout and presentation of the confirmation request.
• Prior experience on the audit or similar engagements.
• The method of communication (for example, in paper form, or by electronic or other medium).
• Management’s authorisation or encouragement to the confirming parties to respond to the auditor. Confirming parties may only be willing to respond to a confirmation request containing management’s authorisation.
• The ability of the intended confirming party to confirm or provide the requested information (for example, individual invoice amount versus total balance).

A5. A positive external confirmation request asks the confirming party to reply to the auditor in all cases, either by indicating the confirming party’s agreement with the given information, or by asking the confirming party to provide information. A response to a positive confirmation request ordinarily is expected to provide reliable audit evidence. There is a risk, however, that a confirming party may reply to the confirmation request without verifying that the information is correct. The auditor may reduce this risk by using positive confirmation requests that do not state the amount (or other information) on the confirmation request, and ask the confirming party to fill in the amount or furnish other information. On the other hand, use of this type of “blank” confirmation request may result in lower response rates because additional effort is required of the confirming parties.

A6. Determining that requests are properly addressed includes testing the validity of some or all of the addresses on confirmation requests before they are sent out.

Follow-Up on Confirmation Requests (Ref: Para. 7(d))

A7. The auditor may send an additional confirmation request when a reply to a previous request has not been received within a reasonable time. For example, the auditor may, having re-verified the accuracy of the original address, send an additional or follow-up request.

Management’s Refusal to Allow the Auditor to Send a Confirmation Request

Reasonableness of Management’s Refusal (Ref: Para. 8(a))

A8. A refusal by management to allow the auditor to send a confirmation request is a limitation on the audit evidence the auditor may wish to obtain. The auditor is therefore required to inquire as to the reasons for the limitation. A common reason advanced is the existence of a legal dispute or ongoing negotiation with the intended confirming party, the resolution of which may be affected by an untimely confirmation request. The auditor is required to seek audit evidence as to the validity and reasonableness of the reasons because of the risk that management may be attempting to deny the auditor access to audit evidence that may reveal fraud or error.

Implications for the Assessment of Risks of Material Misstatement (Ref: Para. 8(b))

A9. The auditor may conclude from the evaluation in paragraph 8(b) that it would be appropriate to revise the assessment of the risks of material misstatement at the assertion level and modify planned audit procedures in accordance with SA 315\textsuperscript{14}. For example, if management’s request to not confirm is unreasonable, this may indicate a fraud risk factor that requires evaluation in accordance with SA 240\textsuperscript{15}.

\textsuperscript{14} SA 315, paragraph 31.

\textsuperscript{15} SA 240, paragraph 24.
Alternative Audit Procedures (Ref: Para. 8(c))

A10. The alternative audit procedures performed may be similar to those appropriate for a non-response as set out in paragraphs A18-A19 of this SA. Such procedures also would take account of the results of the auditor’s evaluation in paragraph 8(b) of this SA.

Results of the External Confirmation Procedures

Reliability of Responses to Confirmation Requests (Ref: Para. 10)

A11. SA 500 indicates that even when audit evidence is obtained from sources external to the entity, circumstances may exist that affect its reliability. All responses carry some risk of interception, alteration or fraud. Such risk exists regardless of whether a response is obtained in paper form, or by electronic or other medium. Factors that may indicate doubts about the reliability of a response include that it:

- Was received by the auditor indirectly; or
- Appeared not to come from the originally intended confirming party.

A12. Responses received electronically, for example by facsimile or electronic mail, involve risks as to reliability because proof of origin and authority of the respondent may be difficult to establish, and alterations may be difficult to detect. A process used by the auditor and the respondent that creates a secure environment for responses received electronically may mitigate these risks. If the auditor is satisfied that such a process is secure and properly controlled, the reliability of the related responses is enhanced. An electronic confirmation process might incorporate various techniques for validating the identity of a sender of information in electronic form, for example, through the use of encryption, electronic digital signatures, and procedures to verify website authenticity.

A13. If a confirming party uses a third party to coordinate and provide responses to confirmation requests, the auditor may perform procedures to address the risks that:

(a) The response may not be from the proper source;
(b) A respondent may not be authorised to respond; and
(c) The integrity of the transmission may have been compromised.

A14. The auditor is required by SA 500 to determine whether to modify or add procedures to resolve doubts over the reliability of information to be used as audit evidence. The auditor may choose to verify the source and contents of a response to a confirmation request by contacting the confirming party. For example, when a confirming party responds by electronic mail, the auditor may telephone the confirming party to determine whether the confirming party did, in fact, send the response. When a response has been returned to the auditor indirectly (for example, because the confirming party incorrectly addressed it to the entity rather than to the auditor), the auditor may request the confirming party to respond in writing directly to the auditor.

A15. On its own, an oral response to a confirmation request does not meet the definition of an external confirmation because it is not a direct written response to the auditor. However, upon obtaining an oral response to a confirmation request, the auditor may, depending on the circumstances, request the confirming party to respond in writing directly to the auditor. If no such response is received, in accordance with paragraph 12, the auditor seeks other audit evidence to support the information in the oral response.

A16. A response to a confirmation request may contain restrictive language regarding its use. Such restrictions do not necessarily invalidate the reliability of the response as audit evidence.

---

16 SA 500, paragraph A31.
17 SA 500, paragraph 11.
Unreliable Responses (Ref: Para. 11)

A17. When the auditor concludes that a response is unreliable, the auditor may need to revise the assessment of the risks of material misstatement at the assertion level and modify planned audit procedures accordingly, in accordance with SA 315\(^{18}\). For example, an unreliable response may indicate a fraud risk factor that requires evaluation in accordance with SA 240\(^{19}\).

Non-Responses (Ref: Para. 12)

A18. Examples of alternative audit procedures the auditor may perform include:

- For accounts receivable balances – examining specific subsequent cash receipts, shipping documentation, and sales near the period-end.
- For accounts payable balances – examining subsequent cash disbursements or correspondence from third parties, and other records, such as goods received notes.

A19. The nature and extent of alternative audit procedures are affected by the account and assertion in question. A non-response to a confirmation request may indicate a previously unidentified risk of material misstatement. In such situations, the auditor may need to revise the assessed risk of material misstatement at the assertion level, and modify planned audit procedures, in accordance with SA 315\(^{20}\). For example, fewer responses to confirmation requests than anticipated, or a greater number of responses than anticipated, may indicate a previously unidentified fraud risk factor that requires evaluation in accordance with SA 240\(^{21}\).

When a Response to a Positive Confirmation Request is Necessary to Obtain Sufficient Appropriate Audit Evidence (Ref: Para. 13)

A20. In certain circumstances, the auditor may identify an assessed risk of material misstatement at the assertion level for which a response to a positive confirmation request is necessary to obtain sufficient appropriate audit evidence. Such circumstances may include where:

- The information available to corroborate management’s assertion(s) is only available outside the entity.
- Specific fraud risk factors, such as the risk of management override of controls, or the risk of collusion which can involve employee(s) and/or management, prevent the auditor from relying on evidence from the entity.

Exceptions (Ref: Para. 14)

A21. Exceptions noted in responses to confirmation requests may indicate misstatements or potential misstatements in the financial statements. When a misstatement is identified, the auditor is required by SA 240 to evaluate whether such misstatement is indicative of fraud\(^{22}\). Exceptions may provide a guide to the quality of responses from similar confirming parties or for similar accounts. Exceptions also may indicate a deficiency, or deficiencies, in the entity’s internal control over financial reporting.

A22. Some exceptions do not represent misstatements. For example, the auditor may conclude that differences in responses to confirmation requests are due to timing, measurement, or clerical errors in the external confirmation procedures.

Negative Confirmations (Ref: Para. 15)

\(^{18}\) SA 315, paragraph 31.
\(^{19}\) SA 240, paragraph 24.
\(^{20}\) SA 315, paragraph 31.
\(^{21}\) SA 240, paragraph 24.
\(^{22}\) SA 240, paragraph 35.
A23. The failure to receive a response to a negative confirmation request does not explicitly indicate receipt by the intended confirming party of the confirmation request or verification of the accuracy of the information contained in the request. Accordingly, a failure of a confirming party to respond to a negative confirmation request provides significantly less persuasive audit evidence than does a response to a positive confirmation request. Confirming parties also may be more likely to respond indicating their disagreement with a confirmation request when the information in the request is not in their favour, and less likely to respond otherwise. For example, holders of bank deposit accounts may be more likely to respond if they believe that the balance in their account is understated in the confirmation request, but may be less likely to respond when they believe the balance is overstated. Therefore, sending negative confirmation requests to holders of bank deposit accounts may be a useful procedure in considering whether such balances may be understated, but is unlikely to be effective if the auditor is seeking evidence regarding overstatement.

Evaluating the Evidence Obtained (Ref: Para. 16)

A24. When evaluating the results of individual external confirmation requests, the auditor may categorise such results as follows:

(a) A response by the appropriate confirming party indicating agreement with the information provided in the confirmation request, or providing requested information without exception;
(b) A response deemed unreliable;
(c) A non-response; or
(d) A response indicating an exception.

A25. The auditor’s evaluation, when taken into account with other audit procedures the auditor may have performed, may assist the auditor in concluding whether sufficient appropriate audit evidence has been obtained or whether performing further audit procedures is necessary, as required by SA 330\textsuperscript{23}.

Modifications vis-à-vis ISA 505, “External Confirmations”

SA 505, “External Confirmations” does not contain any modifications vis-à-vis ISA 505.

\textsuperscript{23} SA 330, paragraphs 27-28.
SA 510*

Initial Audit Engagements—Opening Balances

(Effective for audits of financial statements for periods beginning on or after April 1, 2010)

Introduction

Scope of this SA

1. This Standard on Auditing (SA) deals with the auditor’s responsibilities relating to opening balances when conducting an initial audit engagement. In addition to financial statement amounts, opening balances include matters requiring disclosure that existed at the beginning of the period, such as contingencies and commitments. When the financial statements include comparative financial information, the requirements and guidance in SA 710\(^1\) also apply. SA 300\(^2\) includes additional requirements and guidance regarding activities prior to starting an initial audit.

Effective Date

2. This SA is effective for audits of financial statements for periods beginning on or after April 1, 2010.

Objective

3. In conducting an initial audit engagement, the objective of the auditor with respect to opening balances is to obtain sufficient appropriate audit evidence about whether:

(a) Opening balances contain misstatements that materially affect the current period’s financial statements; and

(b) Appropriate accounting policies reflected in the opening balances have been consistently applied in the current period’s financial statements, or changes thereto are properly accounted for and adequately presented and disclosed in accordance with the applicable financial reporting framework.

Definitions

4. For the purposes of the SAs, the following terms have the meanings attributed below:

(a) Initial audit engagement – An engagement in which either:

   (i) The financial statements for the prior period were not audited; or

   (ii) The financial statements for the prior period were audited by a predecessor auditor.

(b) Opening balances – Those account balances that exist at the beginning of the period. Opening balances are based upon the closing balances of the prior period and reflect the effects of transactions and events of prior periods and accounting policies applied in the prior period. Opening balances also include matters requiring disclosure that existed at the beginning of the period, such as contingencies and commitments.

(c) Predecessor auditor – The auditor from a different audit firm, who audited the financial statements of an entity in the prior period and who has been replaced by the current auditor.

---

\( ^1 \) Published in March, 2009 issue of the Journal.

\( ^2 \) SA 710, “Comparative Information- Corresponding Figures and Comparatives Financial Statements”.

© The Institute of Chartered Accountants of India
5. The auditor shall read the most recent financial statements, if any, and the predecessor auditor’s report thereon, if any, for information relevant to opening balances, including disclosures.

6. The auditor shall obtain sufficient appropriate audit evidence about whether the opening balances contain misstatements that materially affect the current period’s financial statements by:

(a) Determining whether the prior period’s closing balances have been correctly brought forward to the current period or, when appropriate, any adjustments have been disclosed as prior period items in the current year’s Statement of Profit and Loss;

(b) Determining whether the opening balances reflect the application of appropriate accounting policies; and

(c) Performing one or more of the following: (Ref: Para. A1–A4)

(i) Where the prior year financial statements were audited, perusing the copies of the audited financial statements including the other relevant documents relating to the prior period financial statements;

(ii) Evaluating whether audit procedures performed in the current period provide evidence relevant to the opening balances; or

(iii) Performing specific audit procedures to obtain evidence regarding the opening balances.

7. If the auditor obtains audit evidence that the opening balances contain misstatements that could materially affect the current period’s financial statements, the auditor shall perform such additional audit procedures as are appropriate in the circumstances to determine the effect on the current period’s financial statements. If the auditor concludes that such misstatements exist in the current period’s financial statements, the auditor shall communicate the misstatements with the appropriate level of management and those charged with governance in accordance with SA 450.

8. The auditor shall obtain sufficient appropriate audit evidence about whether the accounting policies reflected in the opening balances have been consistently applied in the current period’s financial statements, and whether changes in the accounting policies have been properly accounted for and adequately presented and disclosed in accordance with the applicable financial reporting framework.

9. If the prior period’s financial statements were audited by a predecessor auditor and there was a modification to the opinion, the auditor shall evaluate the effect of the matter giving rise to the modification in assessing the risks of material misstatement in the current period’s financial statements in accordance with SA 315.

Audit Conclusions and Reporting

---

3 Accounting Standard (AS) 5, “Net Profit or Loss for the Period, Prior Period Items and Changes in Accounting Policies” requires that prior period items should be separately disclosed in the Statement of Profit and Loss in a manner that their impact on the current profit or loss can be perceived.

4 SA 450, “Evaluation of Misstatements Identified During the Audit”, paragraphs 8 and 12.

5 SA 315, “Identifying and Assessing the Risks of Material Misstatement Through Understanding the Entity and Its Environment”.
Opening Balances

10. If the auditor is unable to obtain sufficient appropriate audit evidence regarding the opening balances, the auditor shall express a qualified opinion or a disclaimer of opinion, as appropriate, in accordance with SA 705. (Ref: Para. A5)

11. If the auditor concludes that the opening balances contain a misstatement that materially affects the current period's financial statements, and the effect of the misstatement is not properly accounted for or not adequately presented or disclosed, the auditor shall express a qualified opinion or an adverse opinion, as appropriate, in accordance with SA 705.

Consistency of Accounting Policies

12. If the auditor concludes that:

(a) the current period’s accounting policies are not consistently applied in relation to opening balances in accordance with the applicable financial reporting framework; or

(b) a change in accounting policies is not properly accounted for or not adequately presented or disclosed in accordance with the applicable financial reporting framework,

the auditor shall express a qualified opinion or an adverse opinion as appropriate in accordance with SA 705.

Modification to the Opinion in the Predecessor Auditor’s Report

13. If the predecessor auditor's opinion regarding the prior period’s financial statements included a modification to the auditor’s opinion that remains relevant and material to the current period’s financial statements, the auditor shall modify the auditor’s opinion on the current period’s financial statements in accordance with SA 705 and SA 710. (Ref: Para. A6)

Application and Other Explanatory Material

Audit Procedures (Ref: Para. 6)

Opening Balances (Ref: Para. 6(c))

A1. The nature and extent of audit procedures necessary to obtain sufficient appropriate audit evidence regarding opening balances depend on such matters as:

- The accounting policies followed by the entity.
- The nature of the account balances, classes of transactions and disclosures and the risks of material misstatement in the current period’s financial statements.
- The significance of the opening balances relative to the current period’s financial statements.
- Whether the prior period’s financial statements were audited and, if so, whether the predecessor auditor’s opinion was modified.

A2. If the prior period’s financial statements were audited by a predecessor auditor, the auditor may be able to obtain sufficient appropriate audit evidence regarding the opening balances by perusing the copies of the audited financial statements including the other relevant documents relating to the prior period financial statements such as supporting schedules to the audited financial statements. Ordinarily, the current auditor can place reliance on the closing balances contained in the financial statements for the preceding period, except when during the performance of audit procedures for the current period the possibility of misstatements in opening balances is indicated.

© The Institute of Chartered Accountants of India
A3. For current assets and liabilities, some audit evidence about opening balances may be obtained as part of the current period’s audit procedures. For example, the collection (payment) of opening accounts receivable (accounts payable) during the current period will provide some audit evidence of their existence, rights and obligations, completeness and valuation at the beginning of the period. In the case of inventories, however, the current period’s audit procedures on the closing inventory balance provide little audit evidence regarding inventory on hand at the beginning of the period. Therefore, additional audit procedures may be necessary, and one or more of the following may provide sufficient appropriate audit evidence:

- Observing a current physical inventory count and reconciling it to the opening inventory quantities.
- Performing audit procedures on the valuation of the opening inventory items.
- Performing audit procedures on gross profit and cut-off.

A4. For non-current assets and liabilities, such as property plant and equipment, investments and long-term debt, some audit evidence may be obtained by examining the accounting records and other information underlying the opening balances. In certain cases, the auditor may be able to obtain some audit evidence regarding opening balances through confirmation with third parties, for example, for long-term debt and investments. In other cases, the auditor may need to carry out additional audit procedures.

**Audit Conclusions and Reporting**

**Opening Balances** (Ref: Para. 10)

A5. SA 705 establishes requirements and provides guidance on circumstances that may result in a modification to the auditor’s opinion on the financial statements, the type of opinion appropriate in the circumstances, and the content of the auditor’s report when the auditor’s opinion is modified. The inability of the auditor to obtain sufficient appropriate audit evidence regarding opening balances may result in one of the following modifications to the opinion in the auditor’s report:

(a) A qualified opinion or a disclaimer of opinion, as is appropriate in the circumstances; or
(b) Unless prohibited by law or regulation, an opinion which is qualified or disclaimed, as appropriate, regarding the results of operations*, and cash flows, where relevant, and unmodified regarding State of Affairs*.

The Appendix includes illustrative auditor’s reports.

**Modification to the Opinion in the Predecessor Auditor’s Report** (Ref: Para. 13)

A6. In some situations, a modification to the predecessor auditor’s opinion may not be relevant and material to the opinion on the current period’s financial statements. This may be the case where, for example, there was a scope limitation in the prior period, but the matter giving rise to the scope limitation has been resolved in the current period.

**Material Modifications vis a vis ISA 510, “Initial Audit Engagements - Opening Balances”**

**Deletions**

1. Paragraph 6 (a) of ISA 510 dealt with the procedure for obtaining sufficient appropriate audit evidence about the opening balances which contain misstatements that materially affect the current period’s financial statements by determining whether the prior period’s closing balances have been correctly brought forward to the current period or, when appropriate, have been restated. Since in India Accounting Standard (AS) 5, “Net Profit & Loss Account.” and “Balance Sheet.”
Profit or Loss for the Period, Prior Period Items and Changes in Accounting Policies’ requires that prior period items should be separately disclosed in the Statement of Profit and Loss in a manner that their impact on the current profit or loss can be perceived, the restatement of the prior period financial statements does not exist in the Indian scenario. Hence, to align with the requirements of AS 5, the requirement of restatement of prior period items has been replaced with the requirement to disclose the prior period items in the current year’s Statement of Profit & Loss.

2. Paragraph 6 (c) (i) of ISA 510 dealt with the procedure for obtaining sufficient appropriate audit evidence about the opening balances which contain misstatements that materially affect the current period’s financial statements by reviewing the predecessor auditor’s working papers, where the prior year financial statements were audited. Since in India Clause 1 of Part I of the Second Schedule to the Code of Ethics provides that a Chartered Accountant in Practice shall be deemed to be guilty of professional misconduct if he discloses information acquired in the course of his professional engagement to any person other than his client, an auditor cannot provide access to his working paper to the another auditor. Therefore, keeping in view the requirements of Code of Ethics, the requirement of reviewing the predecessor auditor’s working papers has been replaced with the requirement of perusing the copies of the audited financial statements including the other relevant documents relating to the prior period financial statements. Corresponding change has also been made in the paragraph A4 of ISA 510 and Paragraphs A1 and A5 have been deleted.

3. Paragraph A2 of ISA 510 dealt with the outsourcing of an audit of a public sector entity by the statutorily appointed auditor to a private sector audit firm. Since in the Indian context such situation does not exist, the paragraph A2 of the application part has been deleted completely.

Appendix

(Ref: Para. A5)

Illustrations of Auditors’ Reports with Modified Opinions*

Illustration 1:

Circumstances described in paragraph A5 (a) include the following:

- The auditor did not observe the counting of the physical inventory at the beginning of the current period and was unable to obtain sufficient appropriate audit evidence regarding the opening balances of inventory.
- The possible effects of the inability to obtain sufficient appropriate audit evidence regarding opening balances of inventory are deemed to be material but not pervasive to the entity’s results of operations and cash flows.\(^7\)
- The State of Affairs at year end gives a true and fair view.
- In this particular jurisdiction, law and regulation prohibit the auditor from giving an opinion which is qualified regarding the results of operations and cash flows and unmodified regarding State of Affairs.

---

* The Reporting Standards may give rise to conforming amendments to the illustrations of auditors’ reports.

\(^7\) If the possible effects, in the auditor’s judgment, are considered to be material and pervasive to the entity’s results of operations and cash flows, the auditor would disclaim an opinion on the results of operations and cash flows.
INDEPENDENT AUDITOR’S REPORT

[Appropriate Addressee]

Report on the Financial Statements

We have audited the accompanying financial statements of ABC Company, which comprise the balance sheet as at March 31, 20X1, and the Statement of Profit and Loss, and the cash flow statement for the year then ended, and a summary of significant accounting policies and other explanatory notes.

Management’s Responsibility for the Financial Statements

Management is responsible for the preparation and presentation of financial statements that give a true and fair view in accordance with applicable Accounting Standards. This responsibility includes: designing, implementing and maintaining internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error; selecting and applying appropriate accounting policies; and making accounting estimates that are reasonable in the circumstances.

Auditor’s Responsibility

Our responsibility is to express an opinion on these financial statements based on our audit. We conducted our audit in accordance with Standards on Auditing. Those standards require that we comply with ethical requirements and plan and perform the audit to obtain reasonable assurance whether the financial statements are free from material misstatement.

An audit involves performing procedures to obtain audit evidence about the amounts and disclosures in the financial statements. The procedures selected depend on the auditor’s judgment, including the assessment of the risks of material misstatement of the financial statements, whether due to fraud or error. In making those risk assessments, the auditor considers internal control relevant to the entity’s preparation and presentation of financial statements that give a true and fair view in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the entity’s internal control. An audit also includes evaluating the appropriateness of accounting policies used and the reasonableness of accounting estimates made by management, as well as evaluating the overall presentation of the financial statements.

We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our qualified audit opinion.

---

8 The sub-title “Report on the Financial Statements” is unnecessary in circumstances when the second sub-title “Report on Other Legal and Regulatory Requirements” is not applicable.

9 Depending on the circumstances, this sentence may read: “Management is responsible for the preparation and fair presentation of these financial statements in accordance with applicable accounting standards”.

10 Depending on the circumstances, this sentence may read: “In making those risk assessments, the auditor considers internal control relevant to the entity’s preparation and fair presentation of the financial statements in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the entity’s internal control”.

11 In circumstances when the auditor also has responsibility to express an opinion on the effectiveness of internal control in conjunction with the audit of the financial statements, this sentence would be worded as follows: “In making those risk assessments, the auditor considers internal control relevant to the entity’s preparation and fair presentation of the financial statements in order to design audit procedures that are appropriate in the circumstances”. In the case of footnote 13, this sentence may read: “In making those risk assessments, the auditor considers internal control relevant to the entity’s preparation and presentation of financial statements that give a true and fair view in order to design audit procedures that are appropriate in the circumstances”.

© The Institute of Chartered Accountants of India
Basis for Qualified Opinion

We were appointed as auditors of the company on June 30, 20X0 and thus did not observe the counting of the physical inventories at the beginning of the year. We were unable to satisfy ourselves by alternative means concerning inventory quantities held at March 31, 20X0. Since opening inventories enter into the determination of the results of operations and cash flows, we were unable to determine whether adjustments might have been necessary in respect of the profit for the year reported in the Statement of Profit and Loss and the net cash flows from operating activities reported in the cash flow statement.

Qualified Opinion

In our opinion, except for the possible effects of the matter described in the Basis for Qualified Opinion paragraph, the financial statements give a true and fair view of the State of Affairs of ABC Company as of March 31, 20X1, and of its Results of Operations and its cash flows for the year then ended in accordance with applicable Accounting Standards.

Other Matters

The financial statements of the Company for the year ended March 31, 20X0, were audited by another auditor whose report dated July 1, 20X0 expressed an unmodified opinion on those statements.

Report on Other Legal and Regulatory Requirements

[Form and content of this section of the auditor’s report will vary depending on the nature of the auditor’s other reporting responsibilities].

- The possible effects of the inability to obtain sufficient appropriate audit evidence regarding opening balances of inventory are deemed to be material but not pervasive to the entity’s results of operations and cash flows.13
- The State of Affairs at year end gives a true and fair view.
- An opinion that is qualified regarding the results of operations and cash flows and unmodified regarding State of Affairs is considered appropriate in the circumstances.

12 Partner or Proprietor, as the case may be.
13 If the possible effects, in the auditor’s judgment, are considered to be material and pervasive to the entity’s results of operations and cash flows, the auditor would disclaim the opinion on the results of operations and cash flows.
INDEPENDENT AUDITOR’S REPORT

[Appropriate Addressee]

Report on the Financial Statements\(^{14}\)

We have audited the accompanying financial statements of ABC Company, which comprise the balance sheet as at March 31, 20X1, and the Statement of Profit and Loss, and the cash flow statement for the year then ended, and a summary of significant accounting policies and other explanatory notes.

Management’s Responsibility for the Financial Statements

Management is responsible for the preparation and presentation\(^{15}\) of financial statements that give a true and fair view in accordance with applicable Accounting Standards. This responsibility includes: designing, implementing and maintaining internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error; selecting and applying appropriate accounting policies; and making accounting estimates that are reasonable in the circumstances.

Auditor’s Responsibility

Our responsibility is to express an opinion on these financial statements based on our audit. We conducted our audit in accordance with Standards on Auditing. Those standards require that we comply with ethical requirements and plan and perform the audit to obtain reasonable assurance whether the financial statements are free from material misstatement.

An audit involves performing procedures to obtain audit evidence about the amounts and disclosures in the financial statements. The procedures selected depend on the auditor’s judgment, including the assessment of the risks of material misstatement of the financial statements, whether due to fraud or error. In making those risk assessments, the auditor considers internal control relevant to the entity’s preparation and presentation\(^{16}\) of financial statements that give a true and fair view in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the entity’s internal control.\(^{17}\) An audit also includes evaluating the appropriateness of accounting policies used and the reasonableness of accounting estimates made by management, as well as evaluating the overall presentation of the financial statements.

We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our unmodified opinion on the State of Affairs and our qualified audit opinion on the results of operations and cash flows.

\(^{14}\) The sub-title “Report on the Financial Statements” is unnecessary in circumstances when the second sub-title “Report on Other Legal and Regulatory Requirements” is not applicable.

\(^{15}\) Depending on the circumstances, this sentence may read: ‘Management is responsible for the preparation and fair presentation of these financial statements in accordance with applicable accounting standards’.

\(^{16}\) Depending on the circumstances, this sentence may read: “In making those risk assessments, the auditor considers internal control relevant to the entity’s preparation and fair presentation of the financial statements in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the entity’s internal control”.

\(^{17}\) In circumstances when the auditor also has responsibility to express an opinion on the effectiveness of internal control in conjunction with the audit of the financial statements, this sentence would be worded as follows: “In making those risk assessments, the auditor considers internal control relevant to the entity's preparation and fair presentation of the financial statements in order to design audit procedures that are appropriate in the circumstances”. In the case of footnote 19, this sentence may read: “In making those risk assessments, the auditor considers internal control relevant to the entity’s preparation and presentation of financial statements that give a true and fair view in order to design audit procedures that are appropriate in the circumstances”.
**Basis for Qualified Opinion on the results of operations and Cash Flows**

We were appointed as auditors of the company on June 30, 20X0 and thus did not observe the counting of the physical inventories at the beginning of the year. We were unable to satisfy ourselves by alternative means concerning inventory quantities held at March 31, 20X0. Since opening inventories enter into the determination of the results of operations and cash flows, we were unable to determine whether adjustments might have been necessary in respect of the profit for the year reported in the Statement of Profit and Loss and the net cash flows from operating activities reported in the cash flow statement.

**Qualified Opinion on the results of operations and Cash Flows**

In our opinion, except for the possible effects of the matter described in the Basis for Qualified Opinion paragraph, the Statement of Profit and Loss and Cash Flow Statement give a true and fair view of the results of operations and cash flows of ABC Company for the year ended March 31, 20X1 in accordance with applicable Accounting Standards.

**Opinion on the State of Affairs**

In our opinion, the balance sheet gives a true and fair view of the State of Affairs of ABC Company as of March 31, 20X1 in accordance with applicable Accounting Standards.

**Other Matters**

The financial statements of the Company for the year ended March 31, 20X0, were audited by another auditor whose report dated July 1, 20X0 expressed an unmodified opinion on those statements.

Introduction

Scope of this SA

1. This Standard on Auditing (SA) deals with the auditor’s use of analytical procedures as substantive procedures (“substantive analytical procedures”), and as procedures near the end of the audit that assist the auditor when forming an overall conclusion on the financial statements. The use of analytical procedures as risk assessment procedures is dealt with in SA 315. SA 330 includes requirements and guidance regarding the nature, timing and extent of audit procedures in response to assessed risks; these audit procedures may include substantive analytical procedures.

Effective Date

2. This SA is effective for audits of financial statements for periods beginning on or after April 1, 2010.

Objectives

3. The objectives of the auditor are:
   (a) To obtain relevant and reliable audit evidence when using substantive analytical procedures; and
   (b) To design and perform analytical procedures near the end of the audit that assist the auditor when forming an overall conclusion as to whether the financial statements are consistent with the auditor’s understanding of the entity.

Definition

4. For the purposes of the SAs, the term “analytical procedures” means evaluations of financial information through analysis of plausible relationships among both financial and non-financial data. Analytical procedures also encompass such investigation as is necessary of identified fluctuations or relationships that are inconsistent with other relevant information or that differ from expected values by a significant amount. The auditor’s choice of procedures, methods and level of application is a matter of professional judgement. (Ref: Para. A1-A3)

Requirements

Substantive Analytical Procedures

5. When designing and performing substantive analytical procedures, either alone or in combination with tests of details, as substantive procedures in accordance with SA 330, the auditor shall: (Ref: Para. A4-A5)
   (a) Determine the suitability of particular substantive analytical procedures for given assertions, taking

---

1 Published in March, 2010 issue of the Journal.
2 SA 315, “Identifying and Assessing the Risks of Material Misstatement Through Understanding the Entity and Its Environment”, paragraphs 6 (b) and A7-A10.
4 SA 330, paragraph 18.
account of the assessed risks of material misstatement and tests of details, if any, for these assertions;  
(Ref: Para. A6-A11)

(b) Evaluate the reliability of data from which the auditor's expectation of recorded amounts or ratios is 
developed, taking account of source, comparability, and nature and relevance of information available, 
and controls over preparation; (Ref: Para. A12-A14)

(c) Develop an expectation of recorded amounts or ratios and evaluate whether the expectation is 
sufficiently precise to identify a misstatement that, individually or when aggregated with other 
misstatements, may cause the financial statements to be materially misstated; and (Ref: Para. A15)

(d) Determine the amount of any difference of recorded amounts from expected values that is acceptable 
without further investigation as required by paragraph 7. (Ref: Para. A16)

Analytical Procedures that Assist When Forming an Overall Conclusion

6. The auditor shall design and perform analytical procedures near the end of the audit that assist the 
auditor when forming an overall conclusion as to whether the financial statements are consistent with the 
auditor's understanding of the entity. (Ref: Para. A17-A19)

Investigating Results of Analytical Procedures

7. If analytical procedures performed in accordance with this SA identify fluctuations or relationships that 
are inconsistent with other relevant information or that differ from expected values by a significant amount, the 
auditor shall investigate such differences by:

(a) Inquiring of management and obtaining appropriate audit evidence relevant to management's responses; 
and

(b) Performing other audit procedures as necessary in the circumstances. (Ref: Para. A20-A21)

Application and Other Explanatory Material

Nature of Analytical Procedures (Ref: Para. 4)

A1. Analytical procedures include the consideration of comparisons of the entity’s financial information with, 
for example:

• Comparable information for prior periods.

• Anticipated results of the entity, such as budgets or forecasts, or expectations of the auditor, such as an 
estimation of depreciation.

• Similar industry information, such as a comparison of the entity's ratio of sales to accounts receivable 
with industry averages or with other entities of comparable size in the same industry.

A2. Analytical procedures also include consideration of relationships, for example:

• Among elements of financial information that would be expected to conform to a predictable pattern 
based on the entity's experience, such as gross margin percentages.

• Between financial information and relevant non-financial information, such as payroll costs to number of 
employees.

A3. Various methods may be used to perform analytical procedures. These methods range from performing 
simple comparisons to performing complex analyses using advanced statistical techniques. Analytical 
procedures may be applied to consolidated financial statements, components and individual elements of 
information.
Substantive Analytical Procedures (Ref: Para. 5)

A4. The auditor’s substantive procedures at the assertion level may be tests of details, substantive analytical
procedures, or a combination of both. The decision about which audit procedures to perform, including whether
to use substantive analytical procedures, is based on the auditor’s judgment about the expected effectiveness
and efficiency of the available audit procedures to reduce audit risk at the assertion level to an acceptably low
level.

A5. The auditor may inquire of management as to the availability and reliability of information needed to
apply substantive analytical procedures, and the results of any such analytical procedures performed by the
entity. It may be effective to use analytical data prepared by management, provided the auditor is satisfied that
such data is properly prepared.

Suitability of Particular Analytical Procedures for Given Assertions (Ref: Para. 5(a))

A6. Substantive analytical procedures are generally more applicable to large volumes of transactions that
tend to be predictable over time. The application of planned analytical procedures is based on the expectation
that relationships among data exist and continue in the absence of known conditions to the contrary. However,
the suitability of a particular analytical procedure will depend upon the auditor’s assessment of how effective it
will be in detecting a misstatement that, individually or when aggregated with other misstatements, may cause
the financial statements to be materially misstated.

A7. In some cases, even an unsophisticated predictive model may be effective as an analytical procedure.
For example, where an entity has a known number of employees at fixed rates of pay throughout the period, it
may be possible for the auditor to use this data to estimate the total payroll costs for the period with a high
degree of accuracy, thereby providing audit evidence for a significant item in the financial statements and
reducing the need to perform tests of details on the payroll. The use of widely recognised trade ratios (such as
profit margins for different types of retail entities) can often be used effectively in substantive analytical
procedures to provide evidence to support the reasonableness of recorded amounts.

A8. Different types of analytical procedures provide different levels of assurance. Analytical procedures
involving, for example, the prediction of total rental income on a building divided into apartments, taking the
rental rates, the number of apartments and vacancy rates into consideration, can provide persuasive evidence
and may eliminate the need for further verification by means of tests of details on the payroll. The use of widely recognised trade ratios (such as profit margins for different types of retail entities) can often be used effectively in substantive analytical
procedures to provide evidence to support the reasonableness of recorded amounts.

A9. The determination of the suitability of particular substantive analytical procedures is influenced by the
nature of the assertion and the auditor’s assessment of the risk of material misstatement. For example, if
controls over sales order processing are weak, the auditor may place more reliance on tests of details rather
than on substantive analytical procedures for assertions related to receivables.

A10. Particular substantive analytical procedures may also be considered suitable when tests of details are
performed on the same assertion. For example, when obtaining audit evidence regarding the valuation
assertion for accounts receivable balances, the auditor may apply analytical procedures to an aging of
customers’ accounts in addition to performing tests of details on subsequent cash receipts to determine the
collectability of the receivables.

Considerations Specific to Public Sector Entities

A11. The relationships between individual financial statement items traditionally considered in the audit of
business entities may not always be relevant in the audit of governments or other non-business public sector
entities; for example, in many public sector entities there may be little direct relationship between revenue and
expenditure. In addition, because expenditure on the acquisition of assets may not be capitalised, there may be no relationship between expenditures on, for example, inventories and fixed assets and the amount of those assets reported in the financial statements. Also, industry data or statistics for comparative purposes may not be available in the public sector. However, other relationships may be relevant, for example, variations in the cost per kilometer of road construction or the number of vehicles acquired compared with vehicles retired.

**The Reliability of the Data (Ref: Para. 5(b))**

A12. The reliability of data is influenced by its source and nature and is dependent on the circumstances under which it is obtained. Accordingly, the following are relevant when determining whether data is reliable for purposes of designing substantive analytical procedures:

(a) Source of the information available. For example, information may be more reliable when it is obtained from independent sources outside the entity;

(b) Comparability of the information available. For example, broad industry data may need to be supplemented to be comparable to that of an entity that produces and sells specialised products;

(c) Nature and relevance of the information available. For example, whether budgets have been established as results to be expected rather than as goals to be achieved; and

(d) Controls over the preparation of the information that are designed to ensure its completeness, accuracy and validity. For example, controls over the preparation, review and maintenance of budgets.

A13. The auditor may consider testing the operating effectiveness of controls, if any, over the entity’s preparation of information used by the auditor in performing substantive analytical procedures in response to assessed risks. When such controls are effective, the auditor generally has greater confidence in the reliability of the information and, therefore, in the results of analytical procedures. The operating effectiveness of controls over non-financial information may often be tested in conjunction with other tests of controls. For example, in establishing controls over the processing of sales invoices, an entity may include controls over the recording of unit sales. In these circumstances, the auditor may test the operating effectiveness of controls over the recording of unit sales in conjunction with tests of the operating effectiveness of controls over the processing of sales invoices. Alternatively, the auditor may consider whether the information was subjected to audit testing. SA 500 establishes requirements and provides guidance in determining the audit procedures to be performed on the information to be used for substantive analytical procedures.

A14. The matters discussed in paragraphs A12(a)-A12(d) are relevant irrespective of whether the auditor performs substantive analytical procedures on the entity’s period end financial statements, or at an interim date and plans to perform substantive analytical procedures for the remaining period. SA 330 establishes requirements and provides guidance on substantive procedures performed at an interim date.

**Evaluation of Whether the Expectation Is Sufficiently Precise (Ref: Para. 5(c))**

A15. Matters relevant to the auditor’s evaluation of whether the expectation can be developed sufficiently precisely to identify a misstatement that, when aggregated with other misstatements, may cause the financial statements to be materially misstated, include:

- The accuracy with which the expected results of substantive analytical procedures can be predicted. For example, the auditor may expect greater consistency in comparing gross profit margins from one period to another than in comparing discretionary expenses, such as research or advertising.

---

5 SA 500, paragraph 10.
6 SA 330, paragraphs 22-23.
The degree to which information can be disaggregated. For example, substantive analytical procedures may be more effective when applied to financial information on individual sections of an operation or to financial statements of components of a diversified entity, than when applied to the financial statements of the entity as a whole.

The availability of the information, both financial and non-financial. For example, the auditor may consider whether financial information, such as budgets or forecasts, and non-financial information, such as the number of units produced or sold, is available to design substantive analytical procedures. If the information is available, the auditor may also consider the reliability of the information as discussed in paragraphs A12 - A13 above.

**Amount of Difference of Recorded Amounts from Expected Values that Is Acceptable** (Ref: Para. 5(d))
A16. The auditor’s determination of the amount of difference from the expectation that can be accepted without further investigation is influenced by materiality⁷ and the consistency with the desired level of assurance, taking account of the possibility that a misstatement, individually or when aggregated with other misstatements, may cause the financial statements to be materially misstated. SA 330 requires the auditor to obtain more persuasive audit evidence the higher the auditor’s assessment of risk⁸. Accordingly, as the assessed risk increases, the amount of difference considered acceptable without investigation decreases in order to achieve the desired level of persuasive evidence⁹.

**Analytical Procedures that Assist When Forming an Overall Conclusion** (Ref: Para. 6)
A17. The conclusions drawn from the results of analytical procedures designed and performed in accordance with paragraph 6 are intended to corroborate conclusions formed during the audit of individual components or elements of the financial statements. This assists the auditor to draw reasonable conclusions on which to base the auditor’s opinion.

A18. The results of such analytical procedures may identify a previously unrecognised risk of material misstatement. In such circumstances, SA 315 requires the auditor to revise the auditor’s assessment of the risks of material misstatement and modify the further planned audit procedures accordingly¹⁰.

A19. The analytical procedures performed in accordance with paragraph 6 may be similar to those that would be used as risk assessment procedures.

**Investigating Results of Analytical Procedures** (Ref: Para. 7)
A20. Audit evidence relevant to management’s responses may be obtained by evaluating those responses taking into account the auditor’s understanding of the entity and its environment, and with other audit evidence obtained during the course of the audit.

A21. The need to perform other audit procedures may arise when, for example, management is unable to provide an explanation, or the explanation, together with the audit evidence obtained relevant to management’s response, is not considered adequate.

**Modifications vis-à-vis ISA 520, “Analytical Procedures”**
SA 520, “Analytical Procedures” does not contain any modifications vis-à-vis ISA 520.

Analytical Procedures

Trends
Analysing account fluctuations by comparing current year to prior year information and, also, to information derived over several years.

Reasonableness
Tests are made by reviewing the relationship of certain account balances to other balances for reasonableness of amounts. Examples of accounts that may be reasonably tested are:
- Interest expense against interest bearing obligations
- Raw Material Consumption to Production (quantity)
- Wastage & Scrap % against production & raw material consumption (quantity)
- Work-in-Progress based on issued of materials & Sales (quantity)
- Sales discounts and commissions against sales volume
- Rental revenues based on occupancy of premises

Ratios
Analysis by computation of ratios includes the study of relationships between financial statement amounts. Commonly used ratios include:
- Elements of income or loss as a percentage of sales
- Gross profit turnover
- Accounts receivable turnover
- Inventory turnover
- Profitability, leverage, and liquidity

Sources of information
- Interim financial information
- Budgets
- Management accounts
- Non-financial information
- Bank and cash records
- VAT returns
- Board minutes
- Discussion or correspondence with the client at the year-end
Introduction

Scope of this SA

1. This Standard on Auditing (SA) applies when the auditor has decided to use audit sampling in performing audit procedures. It deals with the auditor’s use of statistical and non-statistical sampling when designing and selecting the audit sample, performing tests of controls and tests of details, and evaluating the results from the sample.

2. This SA complements SA 500, which deals with the auditor’s responsibility to design and perform audit procedures to obtain sufficient appropriate audit evidence to be able to draw reasonable conclusions on which to base the audit opinion. SA 500 provides guidance on the means available to the auditor for selecting items for testing, of which audit sampling is one means.

Effective Date

3. This SA is effective for audits of financial statements for periods beginning on or after April 1, 2009.

Objective

4. The objective of the auditor when using audit sampling is to provide a reasonable basis for the auditor to draw conclusions about the population from which the sample is selected.

Definitions

5. For purposes of the SAs, the following terms have the meanings attributed below:

(a) Audit sampling (sampling) – The application of audit procedures to less than 100% of items within a population of audit relevance such that all sampling units have a chance of selection in order to provide the auditor with a reasonable basis on which to draw conclusions about the entire population.

(b) Population – The entire set of data from which a sample is selected and about which the auditor wishes to draw conclusions.

(c) Sampling risk – The risk that the auditor’s conclusion based on a sample may be different from the conclusion if the entire population were subjected to the same audit procedure. Sampling risk can lead to two types of erroneous conclusions:

(i) In the case of a test of controls, that controls are more effective than they actually are, or in the case of a test of details, that a material misstatement does not exist when in fact it does. The auditor is primarily concerned with this type of erroneous conclusion because it affects audit effectiveness and is more likely to lead to an inappropriate audit opinion.
In the case of a test of controls, that controls are less effective than they actually are, or in the case of a test of details, that a material misstatement exists when in fact it does not. This type of erroneous conclusion affects audit efficiency as it would usually lead to additional work to establish that initial conclusions were incorrect.

(d) Non-sampling risk – The risk that the auditor reaches an erroneous conclusion for any reason not related to sampling risk. (Ref: Para A1)

(e) Anomaly – A misstatement or deviation that is demonstrably not representative of misstatements or deviations in a population.

(f) Sampling unit – The individual items constituting a population. (Ref: Para A2)

(g) Statistical sampling – An approach to sampling that has the following characteristics:
   (i) Random selection of the sample items; and
   (ii) The use of probability theory to evaluate sample results, including measurement of sampling risk.

A sampling approach that does not have characteristics (i) and (ii) is considered non-statistical sampling.

(h) Stratification – The process of dividing a population into sub-populations, each of which is a group of sampling units which have similar characteristics (often monetary value).

(i) Tolerable misstatement – A monetary amount set by the auditor in respect of which the auditor seeks to obtain an appropriate level of assurance that the monetary amount set by the auditor is not exceeded by the actual misstatement in the population. (Ref: Para. A3)

(j) Tolerable rate of deviation – A rate of deviation from prescribed internal control procedures set by the auditor in respect of which the auditor seeks to obtain an appropriate level of assurance that the rate of deviation set by the auditor is not exceeded by the actual rate of deviation in the population.

Requirements
Sample Design, Size and Selection of Items for Testing
6. When designing an audit sample, the auditor shall consider the purpose of the audit procedure and the characteristics of the population from which the sample will be drawn. (Ref: Para. A4-A9)

7. The auditor shall determine a sample size sufficient to reduce sampling risk to an acceptably low level. (Ref: Para. A10-A11)

8. The auditor shall select items for the sample in such a way that each sampling unit in the population has a chance of selection. (Ref: Para. A12-A13)

Performing Audit Procedures
9. The auditor shall perform audit procedures, appropriate to the purpose, on each item selected.

10. If the audit procedure is not applicable to the selected item, the auditor shall perform the procedure on a replacement item. (Ref: Para. A14)

11. If the auditor is unable to apply the designed audit procedures, or suitable alternative procedures, to a selected item, the auditor shall treat that item as a deviation from the prescribed control, in the case of tests of controls, or a misstatement, in the case of tests of details. (Ref: Para. A15-A16)

Nature and Cause of Deviations and Misstatements
12. The auditor shall investigate the nature and cause of any deviations or misstatements identified, and evaluate their possible effect on the purpose of the audit procedure and on other areas of the audit. (Ref: Para. A17)

13. In the extremely rare circumstances when the auditor considers a misstatement or deviation discovered in a sample to be an anomaly, the auditor shall obtain a high degree of certainty that such misstatement or deviation is not representative of the population. The auditor shall obtain this degree of certainty by performing additional audit procedures to obtain sufficient appropriate audit evidence that the misstatement or deviation does not affect the remainder of the population.

**Projecting Misstatements**

14. For tests of details, the auditor shall project misstatements found in the sample to the population. (Ref: Para. A18-A20)

**Evaluating Results of Audit Sampling**

15. The auditor shall evaluate:

   (a) The results of the sample; and (Ref: Para. A21-A22)

   (b) Whether the use of audit sampling has provided a reasonable basis for conclusions about the population that has been tested. (Ref: Para. A23)

**Application and Other Explanatory Material**

**Definitions**

**Non-Sampling Risk** (Ref: Para. 5(d))

A1. Examples of non-sampling risk include use of inappropriate audit procedures, or misinterpretation of audit evidence and failure to recognise a misstatement or deviation.

**Sampling Unit** (Ref: Para. 5(f))

A2. The sampling units might be physical items (for example, cheques listed on deposit slips, credit entries on bank statements, sales invoices or debtors' balances) or monetary units.

**Tolerable Misstatement** (Ref: Para. 5(i))

A3. When designing a sample, the auditor determines tolerable misstatement in order to address the risk that the aggregate of individually immaterial misstatements may cause the financial statements to be materially misstated and provide a margin for possible undetected misstatements. Tolerable misstatement is the application of performance materiality, as defined in SA 320\(^2\), to a particular sampling procedure. Tolerable misstatement may be the same amount or an amount lower than performance materiality.

**Sample Design, Size and Selection of Items for Testing**

**Sample Design** (Ref: Para. 6)

A4. Audit sampling enables the auditor to obtain and evaluate audit evidence about some characteristic of the items selected in order to form or assist in forming a conclusion concerning the population from which the sample is drawn. Audit sampling can be applied using either non-statistical or statistical sampling approaches.

A5. When designing an audit sample, the auditor’s consideration includes the specific purpose to be achieved and the combination of audit procedures that is likely to best achieve that purpose. Consideration of the nature of the audit evidence sought and possible deviation or misstatement conditions or other

\(^2\) SA 320, “Materiality in Planning and Performing an Audit”, paragraph 9.
characteristics relating to that audit evidence will assist the auditor in defining what constitutes a deviation or misstatement and what population to use for sampling. In fulfilling the requirement of paragraph 8 of SA 500, when performing audit sampling, the auditor performs audit procedures to obtain evidence that the population from which the audit sample is drawn is complete.

A6. The auditor's consideration of the purpose of the audit procedure, as required by paragraph 6, includes a clear understanding of what constitutes a deviation or misstatement so that all, and only, those conditions that are relevant to the purpose of the audit procedure are included in the evaluation of deviations or projection of misstatements. For example, in a test of details relating to the existence of accounts receivable, such as confirmation, payments made by the customer before the confirmation date but received shortly after that date by the client, are not considered a misstatement. Also, a misposting between customer accounts does not affect the total accounts receivable balance. Therefore, it may not be appropriate to consider this a misstatement in evaluating the sample results of this particular audit procedure, even though it may have an important effect on other areas of the audit, such as the assessment of the risk of fraud or the adequacy of the allowance for doubtful accounts.

A7. In considering the characteristics of a population, for tests of controls, the auditor makes an assessment of the expected rate of deviation based on the auditor's understanding of the relevant controls or on the examination of a small number of items from the population. This assessment is made in order to design an audit sample and to determine sample size. For example, if the expected rate of deviation is unacceptably high, the auditor will normally decide not to perform tests of controls. Similarly, for tests of details, the auditor makes an assessment of the expected misstatement in the population. If the expected misstatement is high, 100% examination or use of a large sample size may be appropriate when performing tests of details.

A8. In considering the characteristics of the population from which the sample will be drawn, the auditor may determine that stratification or value-weighted selection is appropriate. Appendix 1 provides further discussion on stratification and value-weighted selection.

A9. The decision whether to use a statistical or non-statistical sampling approach is a matter for the auditor's judgment; however, sample size is not a valid criterion to distinguish between statistical and non-statistical approaches.

**Sample Size** (Ref: Para. 7)

A10. The level of sampling risk that the auditor is willing to accept affects the sample size required. The lower the risk the auditor is willing to accept, the greater the sample size will need to be.

A11. The sample size can be determined by the application of a statistically-based formula or through the exercise of professional judgment. Appendices 2 and 3 indicate the influences that various factors typically have on the determination of sample size. When circumstances are similar, the effect on sample size of factors such as those identified in Appendices 2 and 3 will be similar regardless of whether a statistical or non-statistical approach is chosen.

**Selection of Items for Testing** (Ref: Para. 8)

A12. With statistical sampling, sample items are selected in a way that each sampling unit has a known probability of being selected. With non-statistical sampling, judgment is used to select sample items. Because the purpose of sampling is to provide a reasonable basis for the auditor to draw conclusions about the population from which the sample is selected, it is important that the auditor selects a representative sample, so that bias is avoided, by choosing sample items which have characteristics typical of the population.

A13. The principal methods of selecting samples are the use of random selection, systematic selection and haphazard selection. Each of these methods is discussed in Appendix 4.

**Performing Audit Procedures** (Ref: Para. 10-11)
A14. An example of when it is necessary to perform the procedure on a replacement item is when a cancelled cheque is selected while testing for evidence of payment authorisation. If the auditor is satisfied that the cheque has been properly cancelled such that it does not constitute a deviation, an appropriately chosen replacement is examined.

A15. An example of when the auditor is unable to apply the designed audit procedures to a selected item is when documentation relating to that item has been lost.

A16. An example of a suitable alternative procedure might be the examination of subsequent cash receipts together with evidence of their source and the items they are intended to settle when no reply has been received in response to a positive confirmation request.

**Nature and Cause of Deviations and Misstatements** (Ref: Para. 12)

A17. In analysing the deviations and misstatements identified, the auditor may observe that many have a common feature, for example, type of transaction, location, product line or period of time. In such circumstances, the auditor may decide to identify all items in the population that possess the common feature, and extend audit procedures to those items. In addition, such deviations or misstatements may be intentional, and may indicate the possibility of fraud.

**Projecting Misstatements** (Ref: Para. 14)

A18. The auditor is required to project misstatements for the population to obtain a broad view of the scale of misstatement but this projection may not be sufficient to determine an amount to be recorded.

A19. When a misstatement has been established as an anomaly, it may be excluded when projecting misstatements to the population. However, the effect of any such misstatement, if uncorrected, still needs to be considered in addition to the projection of the non-anomalous misstatements.

A20. For tests of controls, no explicit projection of deviations is necessary since the sample deviation rate is also the projected deviation rate for the population as a whole. SA 330\(^3\) provides guidance when deviations from controls upon which the auditor intends to rely are detected.

**Evaluating Results of Audit Sampling** (Ref: Para. 15)

A21. For tests of controls, an unexpectedly high sample deviation rate may lead to an increase in the assessed risk of material misstatement, unless further audit evidence substantiating the initial assessment is obtained. For tests of details, an unexpectedly high misstatement amount in a sample may cause the auditor to believe that a class of transactions or account balance is materially misstated, in the absence of further audit evidence that no material misstatement exists.

A22. In the case of tests of details, the projected misstatement plus anomalous misstatement, if any, is the auditor’s best estimate of misstatement in the population. When the projected misstatement plus anomalous misstatement, if any, exceeds tolerable misstatement, the sample does not provide a reasonable basis for conclusions about the population that has been tested. The closer the projected misstatement plus anomalous misstatement is to tolerable misstatement, the more likely that actual misstatement in the population may exceed tolerable misstatement. Also if the projected misstatement is greater than the auditor’s expectations of misstatement used to determine the sample size, the auditor may conclude that there is an unacceptable sampling risk that the actual misstatement in the population exceeds the tolerable misstatement. Considering the results of other audit procedures helps the auditor to assess the risk that actual misstatement in the population exceeds tolerable misstatement, and the risk may be reduced if additional audit evidence is obtained.

---

\(^3\) SA 330, “The Auditor’s Responses to Assessed Risks”, paragraphs 17 and A41.
If the auditor concludes that audit sampling has not provided a reasonable basis for conclusions about the population that has been tested, the auditor may:

- Request management to investigate misstatements that have been identified and the potential for further misstatements and to make any necessary adjustments; or
- Tailor the nature, timing and extent of those further audit procedures to best achieve the required assurance. For example, in the case of tests of controls, the auditor might extend the sample size, test an alternative control or modify related substantive procedures.

Material Modifications vis à vis ISA 530, “Audit Sampling”

SA 530, “Audit Sampling” does not contain any material modifications vis à vis ISA 530.

Appendix 1

(Ref: Para. A8)

Stratification and Value-Weighted Selection

In considering the characteristics of the population from which the sample will be drawn, the auditor may determine that stratification or value-weighted selection is appropriate. This Appendix provides guidance to the auditor on the use of stratification and value-weighted sampling techniques.

Stratification

1. Audit efficiency may be improved if the auditor stratifies a population by dividing it into discrete sub-populations which have an identifying characteristic. The objective of stratification is to reduce the variability of items within each stratum and therefore allow sample size to be reduced without increasing sampling risk.

2. When performing tests of details, the population is often stratified by monetary value. This allows greater audit effort to be directed to the larger value items, as these items may contain the greatest potential misstatement in terms of overstatement. Similarly, a population may be stratified according to a particular characteristic that indicates a higher risk of misstatement, for example, when testing the allowance for doubtful accounts in the valuation of accounts receivable, balances may be stratified by age.

3. The results of audit procedures applied to a sample of items within a stratum can only be projected to the items that make up that stratum. To draw a conclusion on the entire population, the auditor will need to consider the risk of material misstatement in relation to whatever other strata make up the entire population. For example, 20% of the items in a population may make up 90% of the value of an account balance. The auditor may decide to examine a sample of these items. The auditor evaluates the results of this sample and reaches a conclusion on the 90% of value separately from the remaining 10% (on which a further sample or other means of gathering audit evidence will be used, or which may be considered immaterial).

4. If a class of transactions or account balance has been divided into strata, the misstatement is projected for each stratum separately. Projected misstatements for each stratum are then combined when considering the possible effect of misstatements on the total class of transactions or account balance.
Value-Weighted Selection
5. When performing tests of details it may be efficient to identify the sampling unit as the individual monetary units that make up the population. Having selected specific monetary units from within the population, for example, the accounts receivable balance, the auditor may then examine the particular items, for example, individual balances, that contain those monetary units. One benefit of this approach to defining the sampling unit is that audit effort is directed to the larger value items because they have a greater chance of selection, and can result in smaller sample sizes. This approach may be used in conjunction with the systematic method of sample selection (described in Appendix 4) and is most efficient when selecting items using random selection.

Appendix 2
(Ref: Para. A11)

Examples of Factors Influencing Sample Size for Tests of Controls
The following are factors that the auditor may consider when determining the sample size for tests of controls. These factors, which need to be considered together, assume the auditor does not modify the nature or timing of tests of controls or otherwise modify the approach to substantive procedures in response to assessed risks.

<table>
<thead>
<tr>
<th>FACTOR</th>
<th>EFFECT ON SAMPLE SIZE</th>
<th>ON</th>
</tr>
</thead>
<tbody>
<tr>
<td>1. An increase in the extent to which the auditor’s risk assessment takes into account relevant controls</td>
<td>Increase</td>
<td>The more assurance the auditor intends to obtain from the operating effectiveness of controls, the lower the auditor’s assessment of the risk of material misstatement will be, and the larger the sample size will need to be. When the auditor’s assessment of the risk of material misstatement at the assertion level includes an expectation of the operating effectiveness of controls, the auditor is required to perform tests of controls. Other things being equal, the greater the reliance the auditor places on the operating effectiveness of controls in the risk assessment, the greater is the extent of the auditor’s tests of controls (and therefore, the sample size is increased).</td>
</tr>
<tr>
<td>2. An increase in the tolerable rate of deviation</td>
<td>Decrease</td>
<td>The lower the tolerable rate of deviation, the larger the sample size needs to be.</td>
</tr>
<tr>
<td>3. An increase in the expected rate of deviation of the population to be tested</td>
<td>Increase</td>
<td>The higher the expected rate of deviation, the larger the sample size needs to be so that the auditor is in a position to make a reasonable estimate of the actual rate of deviation. Factors relevant to the auditor’s consideration of the expected rate of deviation include the auditor’s understanding of the business (in particular, risk assessment procedures</td>
</tr>
</tbody>
</table>
undertaken to obtain an understanding of internal control), changes in personnel or in internal control, the results of audit procedures applied in prior periods and the results of other audit procedures. High expected control deviation rates ordinarily warrant little, if any, reduction of the assessed risk of material misstatement.

4. An increase in the auditor’s desired level of assurance that the tolerable rate of deviation is not exceeded by the actual rate of deviation in the population

Increase

The greater the level of assurance that the auditor desires that the results of the sample are in fact indicative of the actual incidence of deviation in the population, the larger the sample size needs to be.

5. An increase in the number of sampling units in the population

Negligible effect

For large populations, the actual size of the population has little, if any, effect on sample size. For small populations however, audit sampling may not be as efficient as alternative means of obtaining sufficient appropriate audit evidence.

Appendix 3
(Ref: Para. A11)

Examples of Factors Influencing Sample Size for Tests of Details

The following are factors that the auditor may consider when determining the sample size for tests of details. These factors, which need to be considered together, assume the auditor does not modify the approach to tests of controls or otherwise modify the nature or timing of substantive procedures in response to the assessed risks.

<table>
<thead>
<tr>
<th>FACTOR</th>
<th>EFFECT ON SAMPLE SIZE</th>
<th>EFFECT ON SAMPLE SIZE</th>
</tr>
</thead>
<tbody>
<tr>
<td>1. An increase in the auditor’s assessment of the risk of material misstatement</td>
<td>Increase</td>
<td>The higher the auditor’s assessment of the risk of material misstatement, the larger the sample size needs to be. The auditor’s assessment of the risk of material misstatement is affected by inherent risk and control risk. For example, if the auditor does not perform tests of controls, the auditor’s risk assessment cannot be reduced for the effective operation of internal controls with respect to the particular assertion. Therefore, in order to reduce audit risk to an acceptably low level, the auditor needs a low detection risk and will rely more on substantive procedures. The more audit evidence that is obtained from tests of details (that is, the lower the detection risk), the larger the sample size will need to be.</td>
</tr>
<tr>
<td></td>
<td></td>
<td></td>
</tr>
<tr>
<td>---</td>
<td>---</td>
<td>---</td>
</tr>
<tr>
<td><strong>2. An increase in the use of other substantive procedures directed at the same assertion</strong></td>
<td><strong>Decrease</strong></td>
<td>The more the auditor is relying on other substantive procedures (tests of details or substantive analytical procedures) to reduce to an acceptable level the detection risk regarding a particular population, the less assurance the auditor will require from sampling and, therefore, the smaller the sample size can be.</td>
</tr>
<tr>
<td><strong>3. An increase in the auditor’s desired level of assurance that tolerable misstatement is not exceeded by actual misstatement in the population</strong></td>
<td><strong>Increase</strong></td>
<td>The greater the level of assurance that the auditor requires that the results of the sample are in fact indicative of the actual amount of misstatement in the population, the larger the sample size needs to be.</td>
</tr>
<tr>
<td><strong>4. An increase in tolerable misstatement</strong></td>
<td><strong>Decrease</strong></td>
<td>The lower the tolerable misstatement, the larger the sample size needs to be.</td>
</tr>
<tr>
<td><strong>5. An increase in the amount of misstatement the auditor expects to find in the population</strong></td>
<td><strong>Increase</strong></td>
<td>The greater the amount of misstatement the auditor expects to find in the population, the larger the sample size needs to be in order to make a reasonable estimate of the actual amount of misstatement in the population. Factors relevant to the auditor's consideration of the expected misstatement amount include the extent to which item values are determined subjectively, the results of risk assessment procedures, the results of tests of control, the results of audit procedures applied in prior periods, and the results of other substantive procedures.</td>
</tr>
<tr>
<td><strong>6. Stratification of the population when appropriate</strong></td>
<td><strong>Decrease</strong></td>
<td>When there is a wide range (variability) in the monetary size of items in the population, it may be useful to stratify the population. When a population can be appropriately stratified, the aggregate of the sample sizes from the strata generally will be less than the sample size that would have been required to attain a given level of sampling risk, had one sample been drawn from the whole population.</td>
</tr>
<tr>
<td><strong>7. The number of sampling units in the population</strong></td>
<td><strong>Negligible effect</strong></td>
<td>For large populations, the actual size of the population has little, if any, effect on sample size. Thus, for small populations, audit sampling is often not as efficient as alternative means of obtaining sufficient appropriate audit evidence. (However, when using monetary unit sampling, an increase in the monetary value of the population increases sample size, unless this is offset by a proportional increase in materiality for the financial statements as a whole (and, if applicable, materiality level or levels for particular classes of transactions, account balances or disclosures).</td>
</tr>
</tbody>
</table>
Sample Selection Methods

There are many methods of selecting samples. The principal methods are as follows:

(a) Random selection (applied through random number generators, for example, random number tables).

(b) Systematic selection, in which the number of sampling units in the population is divided by the sample size to give a sampling interval, for example 50, and having determined a starting point within the first 50, each 50th sampling unit thereafter is selected. Although the starting point may be determined haphazardly, the sample is more likely to be truly random if it is determined by use of a computerised random number generator or random number tables. When using systematic selection, the auditor would need to determine that sampling units within the population are not structured in such a way that the sampling interval corresponds with a particular pattern in the population.

(c) Monetary Unit Sampling is a type of value-weighted selection (as described in Appendix 1) in which sample size, selection and evaluation results in a conclusion in monetary amounts.

(d) Haphazard selection, in which the auditor selects the sample without following a structured technique. Although no structured technique is used, the auditor would nonetheless avoid any conscious bias or predictability (for example, avoiding difficult to locate items, or always choosing or avoiding the first or last entries on a page) and thus attempt to ensure that all items in the population have a chance of selection. Haphazard selection is not appropriate when using statistical sampling.

(e) Block selection involves selection of a block(s) of contiguous items from within the population. Block selection cannot ordinarily be used in audit sampling because most populations are structured such that items in a sequence can be expected to have similar characteristics to each other, but different characteristics from items elsewhere in the population. Although in some circumstances it may be an appropriate audit procedure to examine a block of items, it would rarely be an appropriate sample selection technique when the auditor intends to draw valid inferences about the entire population based on the sample.

**RELATED PARTIES**

*(Effective for audits of financial statements for periods beginning on or after April 1, 2010)*

**Introduction**

**Scope of this SA**

1. This Standard on Auditing (SA) deals with the auditor’s responsibilities regarding related party relationships and transactions when performing an audit of financial statements. Specifically, it expands on how SA 315, SA 330, and SA 240 are to be applied in relation to risks of material misstatement associated with related party relationships and transactions.

**Nature of Related Party Relationships and Transactions**

2. Many related party transactions are in the normal course of business. In such circumstances, they may carry no higher risk of material misstatement of the financial statements than similar transactions with unrelated parties. However, the nature of related party relationships and transactions may, in some circumstances, give rise to higher risks of material misstatement of the financial statements than transactions with unrelated parties. For example:
   - Related parties may operate through an extensive and complex range of relationships and structures, with a corresponding increase in the complexity of related party transactions.
   - Information systems may be ineffective at identifying or summarising transactions and outstanding balances between an entity and its related parties.
   - Related party transactions may not be conducted under normal market terms and conditions; for example, some related party transactions may be conducted with no exchange of consideration.

**Responsibilities of the Auditor**

3. Because related parties are not independent of each other, many financial reporting frameworks establish specific accounting and disclosure requirements for related party relationships, transactions and balances to enable users of the financial statements to understand their nature and actual or potential effects on the financial statements. Where the applicable financial reporting framework establishes such requirements, the auditor has a responsibility to perform audit procedures to identify, assess and respond to the risks of material misstatement arising from the entity’s failure to appropriately account for or disclose related party relationships, transactions or balances in accordance with the requirements of the framework.

4. Even if the applicable financial reporting framework establishes minimal or no related party requirements, the auditor nevertheless needs to obtain an understanding of the entity’s related party relationships and transactions sufficient to be able to conclude whether the financial statements, insofar as they are affected by...

those relationships and transactions: (Ref: Para. A1)
(a) Achieve a true and fair presentation (for fair presentation frameworks); or (Ref: Para. A2)
(b) Are not misleading (for compliance frameworks). (Ref: Para. A3)

5. In addition, an understanding of the entity’s related party relationships and transactions is relevant to the auditor’s evaluation of whether one or more fraud risk factors are present as required by SA 240 because fraud may be more easily committed through related parties.

6. Owing to the inherent limitations of an audit, there is an unavoidable risk that some material misstatements of the financial statements may not be detected, even though the audit is properly planned and performed in accordance with the SAs. In the context of related parties, the potential effects of inherent limitations on the auditor’s ability to detect material misstatements are greater for such reasons as the following:
   • Management may be unaware of the existence of all related party relationships and transactions, particularly if the applicable financial reporting framework does not establish related party requirements.
   • Related party relationships may present a greater opportunity for collusion, concealment or manipulation by management.

7. Planning and performing the audit with professional skepticism as required by SA 200 is therefore particularly important in this context, given the potential for undisclosed related party relationships and transactions. The requirements in this SA are designed to assist the auditor in identifying and assessing the risks of material misstatement associated with related party relationships and transactions, and in designing audit procedures to respond to the assessed risks.

**Effective Date**

8. This SA is effective for audits of financial statements for periods beginning on or after April 1, 2010.

**Objectives**

9. The objectives of the auditor are:
(a) Irrespective of whether the applicable financial reporting framework establishes related party requirements, to obtain an understanding of related party relationships and transactions sufficient to be able:
   (i) To recognise fraud risk factors, if any, arising from related party relationships and transactions that are relevant to the identification and assessment of the risks of material misstatement due to fraud; and
   (ii) To conclude whether the financial statements, insofar as they are affected by those relationships and transactions:
      a. Achieve a true and fair presentation (for fair presentation frameworks); or
      b. Are not misleading (for compliance frameworks); and
(b) In addition, where the applicable financial reporting framework establishes related party requirements, to obtain sufficient appropriate audit evidence about whether related party relationships and transactions have been appropriately identified, accounted for and disclosed in the financial statements in accordance with the framework.

5 SA 200, paragraph A52.
6 SA 200, paragraph 15.
Definitions
10. For purposes of the SAs, the following terms have the meanings attributed below:
   (a) Arm’s length transaction–A transaction conducted on such terms and conditions as between a willing buyer and a willing seller who are unrelated and are acting independently of each other and pursuing their own best interests.
   (b) Related party – A party that is either: (Ref: Para. A4-A7)
      (i) A related party as defined in the applicable financial reporting framework; or
      (ii) Where the applicable financial reporting framework establishes minimal or no related party requirements:
         a. A person or other entity that has control or significant influence, directly or indirectly through one or more intermediaries, over the reporting entity;
         b. Another entity over which the reporting entity has control or significant influence, directly or indirectly through one or more intermediaries; or
         c. Another entity that is under common control with the reporting entity through having:
            i. Common controlling ownership;
            ii. Owners who are close family members; or
            iii. Common key management.
         However, entities that are under common control by a state (i.e., a national, regional or local government) are not considered related unless they engage in significant transactions or share resources to a significant extent with one another.

Requirements
Risk Assessment Procedures and Related Activities
11. As part of the risk assessment procedures and related activities that SA 315 and SA 240 require the auditor to perform during the audit, the auditor shall perform the audit procedures and related activities set out in paragraphs 12-17 to obtain information relevant to identifying the risks of material misstatement associated with related party relationships and transactions. (Ref: Para. A8)

Understanding the Entity’s Related Party Relationships and Transactions
12. The engagement team discussion that SA 315 and SA 240 require shall include specific consideration of the susceptibility of the financial statements to material misstatement due to fraud or error that could result from the entity’s related party relationships and transactions. (Ref: Para. A9-A10)

13. The auditor shall inquire of management regarding:
   (a) The identity of the entity’s related parties, including changes from the prior period; (Ref: Para. A11-A14)
   (b) The nature of the relationships between the entity and these related parties; and
   (c) Whether the entity entered into any transactions with these related parties during the period and, if so, the type and purpose of the transactions.

14. The auditor shall inquire of management and others within the entity, and perform other risk assessment

---

7 In Indian context, definitions of “Related Party” and “Related Party Transactions” as given in Accounting Standard (AS) 18, “Related Party Disclosures”, issued by the Institute of Chartered Accountants of India, will be applicable for the purposes of this SA, and the said definitions also meet the tests laid down in paragraph 10(b)(ii) of this SA.
8 SA 315, paragraph 5; and SA 240, paragraph 16.
9 SA 315, paragraph 10; and SA 240, paragraph 15.
procedures considered appropriate, to obtain an understanding of the controls, if any, that management has established to: (Ref: Para. A15-A20)

(a) Identify, account for, and disclose related party relationships and transactions in accordance with the applicable financial reporting framework;

(b) Authorise and approve significant transactions and arrangements with related parties; and (Ref: Para. A21)

(c) Authorise and approve significant transactions and arrangements outside the normal course of business.

Maintaining Alertness for Related Party Information When Reviewing Records or Documents

15. During the audit, the auditor shall remain alert, when inspecting records or documents, for arrangements or other information that may indicate the existence of related party relationships or transactions that management has not previously identified or disclosed to the auditor. (Ref: Para. A22-A23)

In particular, the auditor shall inspect the following for indications of the existence of related party relationships or transactions that management has not previously identified or disclosed to the auditor:

(a) Bank, legal and third party confirmations obtained as part of the auditor's procedures;

(b) Minutes of meetings of shareholders and of those charged with governance; and

(c) Such other records or documents as the auditor considers necessary in the circumstances of the entity.

16. If the auditor identifies significant transactions outside the entity’s normal course of business when performing the audit procedures required by paragraph 15 or through other audit procedures, the auditor shall inquire of management about: (Ref: Para. A24-A25)

(a) The nature of these transactions; and (Ref: Para. A26)

(b) Whether related parties could be involved. (Ref: Para. A27)

Sharing Related Party Information with the Engagement Team

17. The auditor shall share relevant information obtained about the entity’s related parties with the other members of the engagement team. (Ref: Para. A28)

Identification and Assessment of the Risks of Material Misstatement Associated with Related Party Relationships and Transactions

18. In meeting the SA 315 requirement to identify and assess the risks of material misstatement, the auditor shall identify and assess the risks of material misstatement associated with related party relationships and transactions and determine whether any of those risks are significant risks. In making this determination, the auditor shall treat identified significant related party transactions outside the entity's normal course of business as giving rise to significant risks.

19. If the auditor identifies fraud risk factors (including circumstances relating to the existence of a related party with dominant influence) when performing the risk assessment procedures and related activities in connection with related parties, the auditor shall consider such information when identifying and assessing the risks of material misstatement due to fraud in accordance with SA 240. (Ref: Para. A6 and A29-A30)

Responses to the Risks of Material Misstatement Associated with Related Party Relationships and Transactions

20. As part of the SA 330 requirement that the auditor respond to assessed risks, the auditor designs and

---

10 SA 315, paragraph 25.
11 SA 330, paragraphs 5-6.
performs further audit procedures to obtain sufficient appropriate audit evidence about the assessed risks of material misstatement associated with related party relationships and transactions. These audit procedures shall include those required by paragraphs 21-24. *(Ref: Para. A31-A34)*

**Identification of Previously Unidentified or Undisclosed Related Parties or Significant Related Party Transactions**

21. If the auditor identifies arrangements or information that suggests the existence of related party relationships or transactions that management has not previously identified or disclosed to the auditor, the auditor shall determine whether the underlying circumstances confirm the existence of those relationships or transactions.

22. If the auditor identifies related parties or significant related party transactions that management has not previously identified or disclosed to the auditor, the auditor shall:

(a) Promptly communicate the relevant information to the other members of the engagement team; *(Ref: Para. A35)*

(b) Where the applicable financial reporting framework establishes related party requirements:

(i) Request management to identify all transactions with the newly identified related parties for the auditor's further evaluation; and

(ii) Inquire as to why the entity's controls over related party relationships and transactions failed to enable the identification or disclosure of the related party relationships or transactions;

(c) Perform appropriate substantive audit procedures relating to such newly identified related parties or significant related party transactions; *(Ref: Para. A36)*

(d) Reconsider the risk that other related parties or significant related party transactions may exist that management has not previously identified or disclosed to the auditor, and perform additional audit procedures as necessary; and

(e) If the non-disclosure by management appears intentional (and therefore indicative of a risk of material misstatement due to fraud), evaluate the implications for the audit. *(Ref: Para. A37)*

**Identified Significant Related Party Transactions outside the Entity's Normal Course of Business**

23. For identified significant related party transactions outside the entity's normal course of business, the auditor shall:

(a) Inspect the underlying contracts or agreements, if any, and evaluate whether:

(i) The business rationale (or lack thereof) of the transactions suggests that they may have been entered into to engage in fraudulent financial reporting or to conceal misappropriation of assets; *(Ref: Para. A38-A39)*

(ii) The terms of the transactions are consistent with management's explanations; and

(iii) The transactions have been appropriately accounted for and disclosed in accordance with the applicable financial reporting framework; and

(b) Obtain audit evidence that the transactions have been appropriately authorised and approved. *(Ref: Para. A40-A41)*

**Assertions That Related Party Transactions Were Conducted on Terms Equivalent to Those Prevailing in an Arm’s Length Transaction**

---

12 SA 240, paragraph 32(c).
24. When management has made an assertion in the financial statements to the effect that a related party transaction was conducted on terms equivalent to those prevailing in an arm’s length transaction, the auditor shall obtain sufficient appropriate audit evidence about the assertion. (Ref: Para. A42-A45)

**Evaluation of the Accounting for and Disclosure of Identified Related Party Relationships and Transactions**

25. In forming an opinion on the financial statements in accordance with SA 700, the auditor shall evaluate: (Ref: Para. A46)

(a) Whether the identified related party relationships and transactions have been appropriately accounted for and disclosed in accordance with the applicable financial reporting framework; and (Ref: Para. A47)

(b) Whether the effects of the related party relationships and transactions:

(i) Prevent the financial statements from achieving true and fair presentation (for fair presentation frameworks); or

(ii) Cause the financial statements to be misleading (for compliance frameworks).

**Written Representations**

26. Where the applicable financial reporting framework establishes related party requirements, the auditor shall obtain written representations from management and, where appropriate, those charged with governance that: (Ref: Para. A48-A49)

(a) They have disclosed to the auditor the identity of the entity’s related parties and all the related party relationships and transactions of which they are aware; and

(b) They have appropriately accounted for and disclosed such relationships and transactions in accordance with the requirements of the framework.

**Communication with Those Charged with Governance**

27. Unless all of those charged with governance are involved in managing the entity, the auditor shall communicate with those charged with governance significant matters arising during the audit in connection with the entity’s related parties. (Ref: Para. A50)

**Documentation**

28. In meeting the documentation requirements of SA 230 and other SAs, the auditor shall include in the audit documentation the names of the identified related parties and the nature of the related party relationships.

Application and Other Explanatory Material

Responsibilities of the Auditor

Financial Reporting Frameworks That Establish Minimal Related Party Requirements (Ref: Para. 4)

A1. An applicable financial reporting framework that establishes minimal related party requirements is one that defines the meaning of a related party but that definition has a substantially narrower scope than the definition set out in paragraph 10(b)(ii) of this SA, so that a requirement in the framework to disclose related party relationships and transactions would apply to substantially fewer related party relationships and transactions.

Fair Presentation Frameworks (Ref: Para. 4(a))

A2. In the context of a fair presentation framework, related party relationships and transactions may cause the financial statements to fail to achieve true and fair presentation if, for example, the economic reality of such relationships and transactions is not appropriately reflected in the financial statements. For instance, true and fair presentation may not be achieved if the sale of a property by the entity to a controlling shareholder at a price above or below fair market value has been accounted for as a transaction involving a profit or loss for the entity when it may constitute a contribution or return of capital or the payment of a dividend.

Compliance Frameworks (Ref: Para. 4(b))

A3. In the context of a compliance framework, whether related party relationships and transactions cause the financial statements to be misleading as discussed in SA 700 depends upon the particular circumstances of the engagement. For example, even if non-disclosure of related party transactions in the financial statements is in compliance with the framework and applicable law or regulation, the financial statements could be misleading if the entity derives a very substantial portion of its revenue from transactions with related parties, and that fact is not disclosed. However, it will be extremely rare for the auditor to consider financial statements that are prepared and presented in accordance with a compliance framework to be misleading if in accordance with SA 210 the auditor determined that the framework is acceptable.

Definition of a Related Party (Ref: Para. 10(b))

A4. Many financial reporting frameworks discuss the concepts of control and significant influence. Although they may discuss these concepts using different terms, they generally explain that:

(a) Control is the power to govern the financial and operating policies of an entity so as to obtain benefits from its activities; and

(b) Significant influence (which may be gained by share ownership, statute or agreement) is the power to participate in the financial and operating policy decisions of an entity, but is not control over those policies.

A5. The existence of the following relationships may indicate the presence of control or significant influence:

(a) Direct or indirect equity holdings or other financial interests in the entity.

(b) The entity’s holdings of direct or indirect equity or other financial interests in other entities.

(c) Being part of those charged with governance or key management (i.e., those members of management who have the authority and responsibility for planning, directing and controlling the activities of the entity).

(d) Being a close family member of any person referred to in subparagraph (c).

16 SA 200, “Overall Objectives of the Independent Auditor and the Conduct of an Audit in Accordance with Standards on Auditing”, paragraph 13 (a), defines the meaning of fair presentation and compliance frameworks.

17 SA 210, “Agreeing the Terms of Audit Engagements,” paragraph 4(a).

(e) Having a significant business relationship with any person referred to in subparagraph (c).

**Related Parties with Dominant Influence**

A6. Related parties, by virtue of their ability to exert control or significant influence, may be in a position to exert dominant influence over the entity or its management. Consideration of such behavior is relevant when identifying and assessing the risks of material misstatement due to fraud, as further explained in paragraphs A29-A30.

**Special-Purpose Entities as Related Parties**

A7. In some circumstances, a special-purpose entity\(^{19}\) may be a related party of the entity because the entity may in substance control it, even if the entity owns little or none of the special-purpose entity’s equity.

**Risk Assessment Procedures and Related Activities**

**Risks of Material Misstatement Associated with Related Party Relationships and Transactions** (Ref: Para. 11)

A8. In case of certain entities, auditor's responsibilities regarding related party relationships and transactions may be affected by the audit mandate, or by obligations on those entities arising from legislation, regulation, ministerial directives, government policy requirements, or resolutions of the legislature. Consequently, in such cases the auditor's responsibilities may not be limited to addressing the risks of material misstatement associated with related party relationships and transactions, but may also include a broader responsibility to address the risks of non-compliance with laws and regulations governing such entities that lay down specific requirements in the conduct of business with related parties. Further, in such cases the auditor may need to have regard to any specific financial reporting requirements for related party relationships and transactions that may differ from other entities.

**Understanding the Entity’s Related Party Relationships and Transactions**

**Discussion among the Engagement Team** (Ref: Para. 12)

A9. Matters that may be addressed in the discussion among the engagement team include:

- The nature and extent of the entity’s relationships and transactions with related parties (using, for example, the auditor’s record of identified related parties updated after each audit).
- An emphasis on the importance of maintaining professional skepticism throughout the audit regarding the potential for material misstatement associated with related party relationships and transactions.
- The circumstances or conditions of the entity that may indicate the existence of related party relationships or transactions that management has not identified or disclosed to the auditor (e.g., a complex organisational structure, use of special-purpose entities for off-balance sheet transactions, or an inadequate information system).
- The records or documents that may indicate the existence of related party relationships or transactions.
- The importance that management and those charged with governance attach to the identification, appropriate accounting for, and disclosure of related party relationships and transactions (if the applicable financial reporting framework establishes related party requirements), and the related risk of management override of relevant controls.

A10. In addition, the discussion in the context of fraud may include specific consideration of how related parties may be involved in fraud. For example:

\(^{19}\) SA 315, paragraphs A26-A27, provides guidance regarding the nature of a special-purpose entity.
Auditing Pronouncements

How special-purpose entities controlled by management might be used to facilitate earnings management.

How transactions between the entity and a known business partner of a key member of management could be arranged to facilitate misappropriation of the entity’s assets.

The Identity of the Entity’s Related Parties (Ref: Para. 13(a))

A11. Where the applicable financial reporting framework establishes related party requirements, information regarding the identity of the entity’s related parties is likely to be readily available to management because the entity’s information systems will need to record, process and summarise related party relationships and transactions to enable the entity to meet the accounting and disclosure requirements of the framework. Management is therefore likely to have a comprehensive list of related parties and changes from the prior period. For recurring engagements, making the inquiries provides a basis for comparing the information supplied by management with the auditor’s record of related parties noted in previous audits.

A12. However, where the framework does not establish related party requirements, the entity may not have such information systems in place. Under such circumstances, it is possible that management may not be aware of the existence of all related parties. Nevertheless, the requirement to make the inquiries specified by paragraph 13 still applies because management may be aware of parties that meet the related party definition set out in this SA.

In such a case, however, the auditor’s inquiries regarding the identity of the entity’s related parties are likely to form part of the auditor’s risk assessment procedures and related activities performed in accordance with SA 315 to obtain information regarding:

- The entity’s ownership and governance structures;
- The types of investments that the entity is making and plans to make; and
- The way the entity is structured and how it is financed.

In the particular case of common control relationships, as management is more likely to be aware of such relationships if they have economic significance to the entity, the auditor’s inquiries are likely to be more effective if they are focused on whether parties with which the entity engages in significant transactions, or shares resources to a significant degree, are related parties.

A13. In the context of a group audit, SA 600 requires the group engagement team to provide each component auditor with a list of related parties prepared by group management and any other related parties of which the group engagement team is aware20. Where the entity is a component within a group, this information provides a useful basis for the auditor’s inquiries of management regarding the identity of the entity’s related parties.

A14. The auditor may also obtain some information regarding the identity of the entity’s related parties through inquiries of management during the engagement acceptance or continuance process.

The Entity’s Controls over Related Party Relationships and Transactions (Ref: Para. 14)

A15. Others within the entity are those considered likely to have knowledge of the entity’s related party relationships and transactions, and the entity’s controls over such relationships and transactions. These may include, to the extent that they do not form part of management:

- Those charged with governance;
- Personnel in a position to initiate, process, or record transactions that are both significant and outside

---

20 Currently, SA 600, ‘Using the Work of Another Auditor’ is in force. The standard is being revised in light of the corresponding international standard.
the entity's normal course of business, and those who supervise or monitor such personnel;

- Internal auditors;
- In-house legal counsel; and
- The chief ethics officer or equivalent person.

A16. The audit is conducted on the premise that management and, where appropriate, those charged with
governance have acknowledged and understand that they have responsibility for the preparation of the financial
statements in accordance with the applicable financial reporting framework, including where relevant their fair
presentation, and for such internal control as management and, where appropriate, those charged with
governance, determine is necessary to enable the preparation of financial statements that are free
from material misstatement, whether due to fraud or error. Accordingly, where the framework establishes
related party requirements, management, with oversight from those charged with governance, is responsible
for the design, implementation and maintenance of adequate controls over related party relationships and
transactions so that these are identified and appropriately accounted for and disclosed in accordance with the
framework. In their oversight role, those charged with governance are responsible for monitoring how
management is discharging its responsibility for such controls. Regardless of any related party requirements
the framework may establish, those charged with governance may, in order to fulfill their oversight
responsibilities, obtain information from management to enable them to understand the nature and business
rationale of the entity’s related party relationships and transactions.

A17. In meeting the SA 315 requirement to obtain an understanding of the control environment, the auditor
may consider features of the control environment relevant to mitigating the risks of material misstatement
associated with related party relationships and transactions, such as:

- Internal ethical codes, appropriately communicated to the entity’s personnel and enforced, governing the
  circumstances in which the entity may enter into specific types of related party transactions.
- Policies and procedures for open and timely disclosure of the interests that management and those
  charged with governance have in related party transactions.
- The assignment of responsibilities within the entity for identifying, recording, summarising, and disclosing
  related party transactions.
- Timely disclosure and discussion between management and those charged with governance of
  significant related party transactions outside the entity’s normal course of business, including whether
  those charged with governance have appropriately challenged the business rationale of such
  transactions (for example, by seeking advice from external professional advisors).
- Clear guidelines for the approval of related party transactions involving actual or perceived conflicts
  of interest, such as approval by a subcommittee of those charged with governance comprising individuals
  independent of management.
- Periodic reviews by internal auditors, where applicable.
- Proactive action taken by management to resolve related party disclosure issues, such as by
  seeking advice from the auditor or external legal counsel.
- The existence of whistle-blowing policies and procedures, where applicable.

A18. Controls over related party relationships and transactions within some entities may be deficient or non-

---

21 SA 200, paragraph A2.
22 SA 315, paragraph 14.
existent for a number of reasons, such as:

- The low importance attached by management to identifying and disclosing related party relationships and transactions.
- The lack of appropriate oversight by those charged with governance.
- An intentional disregard for such controls because related party disclosures may reveal information that management considers sensitive, for example, the existence of transactions involving family members of management.
- An insufficient understanding by management of the related party requirements of the applicable financial reporting framework.
- The absence of disclosure requirements under the applicable financial reporting framework.

Where such controls are ineffective or non-existent, the auditor may be unable to obtain sufficient appropriate audit evidence about related party relationships and transactions. If this were the case, the auditor would, in accordance with SA 705, consider the implications for the audit, including the auditor’s report.

A19. Fraudulent financial reporting often involves management override of controls that otherwise may appear to be operating effectively. The risk of management override of controls is higher if management has relationships that involve control or significant influence with parties with which the entity does business because these relationships may present management with greater incentives and opportunities to perpetrate fraud. For example, management’s financial interests in certain related parties may provide incentives for management to override controls by (a) directing the entity, against its interests, to conclude transactions for the benefit of these parties, or (b) colluding with such parties or controlling their actions. Examples of possible fraud include:

- Creating fictitious terms of transactions with related parties designed to misrepresent the business rationale of these transactions.
- Fraudulently organizing the transfer of assets from or to management or others at amounts significantly above or below market value.
- Engaging in complex transactions with related parties, such as special-purpose entities, that are structured to misrepresent the financial position or financial performance of the entity.

Considerations specific to smaller entities

A20. Control environment in smaller entities is likely to be different from larger entities. In particular those charged with governance may not include an outside member, and the role of governance may be undertaken directly by the owner-manager where no other owner exists. Control activities in smaller entities are likely to be less formal and smaller entities may have no documented processes for dealing with related party relationships and transactions. An owner-manager may mitigate some of the risks arising from related party transactions, or potentially increase those risks, through active involvement in all the main aspects of the transactions. For such entities, the auditor may obtain an understanding of the related party relationships and transactions, and any controls that may exist over these, through inquiry of management combined with other procedures, such as observation of management’s oversight and review activities, and inspection of available relevant documentation.

Authorisation and approval of significant transactions and arrangements (Ref: Para. 14(b))

A21. Authorisation involves the granting of permission by a party or parties with the appropriate authority.

---

23SA 705, “Modifications to the Opinion in the Independent Auditor’s Report”.
24 SA 240, paragraphs 31 and A4.
Engagement and Quality Control Standards

(whether management, those charged with governance or the entity’s shareholders) for the entity to enter into specific transactions in accordance with pre-determined criteria, whether judgmental or not. Approval involves those parties’ acceptance of the transactions the entity has entered into as having satisfied the criteria on which authorisation was granted. Examples of controls the entity may have established to authorise and approve significant transactions and arrangements with related parties or significant transactions and arrangements outside the normal course of business include:

- Monitoring controls to identify such transactions and arrangements for authorisation and approval.
- Approval of the terms and conditions of the transactions and arrangements by management, those charged with governance or, where applicable, shareholders.

Maintaining Alertness for Related Party Information When Reviewing Records or Documents

A22. During the audit, the auditor may inspect records or documents that may provide information about related party relationships and transactions, for example:

- Entity income tax returns.
- Information supplied by the entity to regulatory authorities.
- Shareholder registers to identify the entity’s principal shareholders.
- Statements of conflicts of interest from management and those charged with governance.
- Records of the entity’s investments and those of its pension plans.
- Contracts and agreements with key management or those charged with governance.
- Significant contracts and agreements not in the entity’s ordinary course of business.
- Specific invoices and correspondence from the entity’s professional advisors.
- Life insurance policies acquired by the entity.
- Significant contracts re-negotiated by the entity during the period.
- Internal auditors’ reports.
- Documents associated with the entity’s filings with a securities regulator (e.g., prospectuses).

Arrangements that may indicate the existence of previously unidentified or undisclosed related party relationships or transactions

A23. An arrangement involves a formal or informal agreement between the entity and one or more other parties for such purposes as:

- The establishment of a business relationship through appropriate vehicles or structures.
- The conduct of certain types of transactions under specific terms and conditions.
- The provision of designated services or financial support.

Examples of arrangements that may indicate the existence of related party relationships or transactions that management has not previously identified or disclosed to the auditor include:

- Participation in unincorporated partnerships with other parties.
- Agreements for the provision of services to certain parties under terms and conditions that are outside the entity’s normal course of business.
- Guarantees and guarantor relationships.
Identification of Significant Transactions outside the Normal Course of Business (Ref: Para. 16)

A24. Obtaining further information on significant transactions outside the entity’s normal course of business enables the auditor to evaluate whether fraud risk factors, if any, are present and, where the applicable financial reporting framework establishes related party requirements, to identify the risks of material misstatement.

A25. Examples of transactions outside the entity’s normal course of business may include:
- Complex equity transactions, such as corporate restructurings or acquisitions.
- Transactions with offshore entities in jurisdictions with weak corporate laws.
- The leasing of premises or the rendering of management services by the entity to another party if no consideration is exchanged.
- Sales transactions with unusually large discounts or returns.
- Transactions with circular arrangements, for example, sales with a commitment to repurchase.
- Transactions under contracts whose terms are changed before expiry.

Understanding the nature of significant transactions outside the normal course of business (Ref: Para. 16(a))

A26. Inquiring into the nature of the significant transactions outside the entity's normal course of business involves obtaining an understanding of the business rationale of the transactions, and the terms and conditions under which these have been entered into.

Inquiring into whether related parties could be involved (Ref: Para. 16(b))

A27. A related party could be involved in a significant transaction outside the entity’s normal course of business not only by directly influencing the transaction through being a party to the transaction, but also by indirectly influencing it through an intermediary. Such influence may indicate the presence of a fraud risk factor.

Sharing Related Party Information with the Engagement Team (Ref: Para. 17)

A28. Relevant related party information that may be shared among the engagement team members includes, for example:
- The identity of the entity’s related parties.
- The nature of the related party relationships and transactions.
- Significant or complex related party relationships or transactions that may require special audit consideration, in particular transactions in which management or those charged with governance are financially involved.

Identification and Assessment of the Risks of Material Misstatement Associated with Related Party Relationships and Transactions

Fraud Risk Factors Associated with a Related Party with Dominant Influence (Ref: Para. 19)

A29. Domination of management by a single person or small group of persons without compensating controls is a fraud risk factor.25 Indicators of dominant influence exerted by a related party include:
- The related party has vetoed significant business decisions taken by management or those charged with governance.
- Significant transactions are referred to the related party for final approval.
- There is little or no debate among management and those charged with governance regarding

25 SA 240, Appendix 1.
Transactions involving the related party (or a close family member of the related party) are rarely independently reviewed and approved.

Dominant influence may also exist in some cases if the related party has played a leading role in founding the entity and continues to play a leading role in managing the entity.

A30. In the presence of other risk factors, the existence of a related party with dominant influence may indicate significant risks of material misstatement due to fraud. For example:

- An unusually high turnover of senior management or professional advisors may suggest unethical or fraudulent business practices that serve the related party’s purposes.
- The use of business intermediaries for significant transactions for which there appears to be no clear business justification may suggest that the related party could have an interest in such transactions through control of such intermediaries for fraudulent purposes.
- Evidence of the related party’s excessive participation in or preoccupation with the selection of accounting policies or the determination of significant estimates may suggest the possibility of fraudulent financial reporting.

Responses to the Risks of Material Misstatement Associated with Related Party Relationships and Transactions (Ref: Para. 20)

A31. The nature, timing and extent of the further audit procedures that the auditor may select to respond to the assessed risks of material misstatement associated with related party relationships and transactions depend upon the nature of those risks and the circumstances of the entity.26

A32. Examples of substantive audit procedures that the auditor may perform when the auditor has assessed a significant risk that management has not appropriately accounted for or disclosed specific related party transactions in accordance with the applicable financial reporting framework (whether due to fraud or error) include:

- Confirming or discussing specific aspects of the transactions with intermediaries such as banks, law firms, guarantors, or agents, where practicable and not prohibited by law, regulation or ethical rules.
- Confirming the purposes, specific terms or amounts of the transactions with the related parties (this audit procedure may be less effective where the auditor judges that the entity is likely to influence the related parties in their responses to the auditor).
- Where applicable, reading the financial statements or other relevant financial information, if available, of the related parties for evidence of the accounting of the transactions in the related parties’ accounting records.

A33. If the auditor has assessed a significant risk of material misstatement due to fraud as a result of the presence of a related party with dominant influence, the auditor may, in addition to the general requirements of SA 240, perform audit procedures such as the following to obtain an understanding of the business relationships that such a related party may have established directly or indirectly with the entity and to determine the need for further appropriate substantive audit procedures:

- Inquiries of, and discussion with, management and those charged with governance.

26 SA 330 provides further guidance on considering the nature, timing and extent of further audit procedures. SA 240 establishes requirements and provides guidance on appropriate responses to assessed risks of material misstatement due to fraud.
Inquiries of the related party.

Inspection of significant contracts with the related party.

Appropriate background research, such as through the Internet or specific external business information databases.

Review of employee whistle-blowing reports where these are retained.

A34. Depending upon the results of the auditor’s risk assessment procedures, the auditor may consider it appropriate to obtain audit evidence without testing the entity’s controls over related party relationships and transactions. In some circumstances, however, it may not be possible to obtain sufficient appropriate audit evidence from substantive audit procedures alone in relation to the risks of material misstatement associated with related party relationships and transactions. For example, where intra-group transactions between the entity and its components are numerous and a significant amount of information regarding these transactions is initiated, recorded, processed or reported electronically in an integrated system, the auditor may determine that it is not possible to design effective substantive audit procedures that by themselves would reduce the risks of material misstatement associated with these transactions to an acceptably low level. In such a case, in meeting the SA 330 requirement to obtain sufficient appropriate audit evidence as to the operating effectiveness of relevant controls,27 the auditor is required to test the entity’s controls over the completeness and accuracy of the recording of the related party relationships and transactions.

Identification of Previously Unidentified or Undisclosed Related Parties or Significant Related Party Transactions

Communicating Newly Identified Related Party Information to the Engagement Team (Ref: Para. 22(a))

A35. Communicating promptly any newly identified related parties to the other members of the engagement team assists them in determining whether this information affects the results of, and conclusions drawn from, risk assessment procedures already performed, including whether the risks of material misstatement need to be reassessed.

Substantive Procedures Relating to Newly Identified Related Parties or Significant Related Party Transactions (Ref: Para. 22(c))

A36. Examples of substantive audit procedures that the auditor may perform relating to newly identified related parties or significant related party transactions include:

- Making inquiries regarding the nature of the entity’s relationships with the newly identified related parties, including (where appropriate and not prohibited by law, regulation or ethical rules) inquiring of parties outside the entity who are presumed to have significant knowledge of the entity and its business, such as legal counsel, principal agents, major representatives, consultants, guarantors, or other close business partners.

- Conducting an analysis of accounting records for transactions with the newly identified related parties. Such an analysis may be facilitated using computer-assisted audit techniques.

- Verifying the terms and conditions of the newly identified related party transactions, and evaluating whether the transactions have been appropriately accounted for and disclosed in accordance with the applicable financial reporting framework.

Intentional Non-Disclosure by Management (Ref: Para. 22(e))

A37. The requirements and guidance in SA 240 regarding the auditor’s responsibilities relating to fraud in an audit of financial statements are relevant where management appears to have intentionally failed to disclose

27 SA 330, paragraph 8(b).
related parties or significant related party transactions to the auditor. The auditor may also consider whether it is necessary to re-evaluate the reliability of management’s responses to the auditor’s inquiries and management’s representations to the auditor.

**Identified Significant Related Party Transactions outside the Entity’s Normal Course of Business**

**Evaluating the Business Rationale of Significant Related Party Transactions** (Ref: Para. 23)

A38. In evaluating the business rationale of a significant related party transaction outside the entity’s normal course of business, the auditor may consider the following:

- Whether the transaction:
  - Is overly complex (e.g., it may involve multiple related parties within a consolidated group).
  - Has unusual terms of trade, such as unusual prices, interest rates, guarantees and repayment terms.
  - Lacks an apparent logical business reason for its occurrence.
  - Involves previously unidentified related parties.
  - Is processed in an unusual manner.

- Whether management has discussed the nature of, and accounting for, such a transaction with those charged with governance.

- Whether management is placing more emphasis on a particular accounting treatment rather than giving due regard to the underlying economics of the transaction.

If management’s explanations are materially inconsistent with the terms of the related party transaction, the auditor is required, in accordance with SA 500,\(^{28}\) to consider the reliability of management’s explanations and representations on other significant matters.

A39. The auditor may also seek to understand the business rationale of such a transaction from the related party’s perspective, as this may help the auditor to better understand the economic reality of the transaction and why it was carried out. A business rationale from the related party’s perspective that appears inconsistent with the nature of its business may represent a fraud risk factor.

**Authorization and Approval of Significant Related Party Transactions** (Ref: Para. 23(b))

A40. Authorisation and approval by management, those charged with governance, or, where applicable, the shareholders of significant related party transactions outside the entity’s normal course of business may provide audit evidence that these have been duly considered at the appropriate levels within the entity and that their terms and conditions have been appropriately reflected in the financial statements. The existence of transactions of this nature that were not subject to such authorisation and approval, in the absence of rational explanations based on discussion with management or those charged with governance, may indicate risks of material misstatement due to error or fraud. In these circumstances, the auditor may need to be alert for other transactions of a similar nature. Authorisation and approval alone, however, may not be sufficient in concluding whether risks of material misstatement due to fraud are absent because authorisation and approval may be ineffective if there has been collusion between the related parties or if the entity is subject to the dominant influence of a related party.

**Considerations specific to smaller entities**

A41. A smaller entity may not have the same controls provided by different levels of authority and approval that may exist in a larger entity. Accordingly, when auditing a smaller entity, the auditor may rely to a lesser extent upon the related party’s governance processes and rationale for transactions of a similar nature.

---

\(^{28}\) SA 500, “Audit Evidence”, paragraph 11.
degree on authorization and approval for audit evidence regarding the validity of significant related party transactions outside the entity’s normal course of business. Instead, the auditor may consider performing other audit procedures such as inspecting relevant documents, confirming specific aspects of the transactions with relevant parties, or observing the owner-manager’s involvement with the transactions.

**Assertions That Related Party Transactions Were Conducted on Terms Equivalent to Those Prevailing in an Arm’s Length Transaction**  (Ref: Para. 24)

A42. Although audit evidence may be readily available regarding how the price of a related party transaction compares to that of a similar arm’s length transaction, there are ordinarily practical difficulties that limit the auditor’s ability to obtain audit evidence that all other aspects of the transaction are equivalent to those of the arm’s length transaction. For example, although the auditor may be able to confirm that a related party transaction has been conducted at a market price, it may be impracticable to confirm whether other terms and conditions of the transaction (such as credit terms, contingencies and specific charges) are equivalent to those that would ordinarily be agreed between independent parties. Accordingly, there may be a risk that management’s assertion that a related party transaction was conducted on terms equivalent to those prevailing in an arm’s length transaction may be materially misstated.

A43. Management is responsible for the substantiation of an assertion that a related party transaction was conducted on terms equivalent to those prevailing in an arm’s length transaction. Management’s support for the assertion may include:

- Comparing the terms of the related party transaction to those of an identical or similar transaction with one or more unrelated parties.
- Engaging an external expert to determine a market value and to confirm market terms and conditions for the transaction.
- Comparing the terms of the transaction to known market terms for broadly similar transactions on an open market.

A44. Evaluating management’s support for this assertion may involve one or more of the following:

- Considering the appropriateness of management’s process for supporting the assertion.
- Verifying the source of the internal or external data supporting the assertion, and testing the data to determine their accuracy, completeness and relevance.
- Evaluating the reasonableness of any significant assumptions on which the assertion is based.

A45. Some financial reporting frameworks require the disclosure of related party transactions not conducted on terms equivalent to those prevailing in arm’s length transactions. In these circumstances, if management has not disclosed a related party transaction in the financial statements, there may be an implicit assertion that the transaction was conducted on terms equivalent to those prevailing in an arm’s length transaction.

**Evaluation of the Accounting for and Disclosure of Identified Related Party Relationships and Transactions**

**Materiality Considerations in Evaluating Misstatements**  (Ref: Para. 25)

A46. SA 450 requires the auditor to consider both the size and the nature of a misstatement, and the particular circumstances of its occurrence, when evaluating whether the misstatement is material. The significance of the transaction to the financial statement users may not depend solely on the recorded amount of the transaction.

---

29 SA 450, “Evaluation of Misstatements Identified during the Audit,” paragraph 11(a). Paragraph A16 of SA 450 provides guidance on the circumstances that may affect the evaluation of a misstatement.
transaction but also on other specific relevant factors, such as the nature of the related party relationship.

**Evaluation of Related Party Disclosures** (Ref: Para. 25(a))

A47. Evaluating the related party disclosures in the context of the disclosure requirements of the applicable financial reporting framework means considering whether the facts and circumstances of the entity’s related party relationships and transactions have been appropriately summarized and presented so that the disclosures are understandable. Disclosures of related party transactions may not be understandable if:

(a) The business rationale and the effects of the transactions on the financial statements are unclear or misstated; or

(b) Key terms, conditions, or other important elements of the transactions necessary for understanding them are not appropriately disclosed.

**Written Representations** (Ref: Para. 26)

A48. Circumstances in which it may be appropriate to obtain written representations from those charged with governance include:

- When they have approved specific related party transactions that (a) materially affect the financial statements, or (b) involve management.
- When they have made specific oral representations to the auditor on details of certain related party transactions.
- When they have financial or other interests in the related parties or the related party transactions.
- Management’s assertion of responsibility that related party transactions were conducted on terms equivalent to those prevailing in an arm’s length transaction.

A49. The auditor may also decide to obtain written representations regarding specific assertions that management may have made, such as a representation that specific related party transactions do not involve undisclosed side agreements.

**Communication with Those Charged with Governance** (Ref: Para. 27)

A50. Communicating significant matters arising during the audit\(^{30}\) in connection with the entity’s related parties helps the auditor to establish a common understanding with those charged with governance of the nature and resolution of these matters. Examples of significant related party matters include:

- Non-disclosure (whether intentional or not) by management to the auditor of related parties or significant related party transactions, which may alert those charged with governance to significant related party relationships and transactions of which they may not have been previously aware.
- The identification of significant related party transactions that have not been appropriately authorised and approved, which may give rise to suspected fraud.
- Disagreement with management regarding the accounting for and disclosure of significant related party transactions in accordance with the applicable financial reporting framework.
- Non-compliance with applicable law or regulations prohibiting or restricting specific types of related party transactions.
- Difficulties in identifying the party that ultimately controls the entity.

**Material Modifications vis à vis ISA 550, “Related Parties”**

\(^{30}\) SA 230, “Audit Documentation”, paragraph A8 provides further guidance on the nature of significant matters arising during the audit.
Additions

1. In paragraph A20 of the Application Section, the lines, “Control environment in smaller entities is likely to be different from larger entities. In particular those charged with governance may not include an outside member, and the role of governance may be undertaken directly by the owner-manager where no other owner exists” have been added so to explain the difference between the control environment in the larger entities and smaller entities.

2. In paragraph A48 of the Application Section, it has been added that a written representation may be obtained by the auditor regarding management’s assertion of responsibility that related party transactions were conducted on terms equivalent to those prevailing in an arm’s length transaction.

Deletions

1. Paragraph A8 of the Application Section of ISA 550 deals with the application of the requirement of ISA 550 to the audits of public sector entities regarding the effect of laws and regulations governing the public sector bodies on the auditor’s responsibilities with regard to related party relationships and transactions. Since as mentioned in the “Preface to the Standards on Quality Control, Auditing, Review, Other Assurance and Related Services”, the Standards issued by the Auditing and Assurance Standards Board, apply equally to all entities, irrespective of their form, nature and size, a specific reference to applicability of the Standard to public sector entities has been deleted.

Further, it is also possible that even in case of certain entities, the laws and regulations may also include a broader responsibility to address the risks of non-compliance with laws and regulations that lay down specific requirements in the conduct of business with related parties. Accordingly, the spirit of erstwhile A8, highlighting such additional responsibilities of the auditor, has been retained.
Introduction

Scope of this SA

1. This Standard on Auditing (SA) deals with the auditor’s responsibilities relating to subsequent events in an audit of financial statements. *(Ref: Para. A1)*

2. Financial statements may be affected by certain events that occur after the date of the financial statements. Many financial reporting frameworks specifically refer to such events. Such financial reporting frameworks ordinarily identify two types of events:

   (a) Those that provide evidence of conditions that existed at the date of the financial statements; and

   (b) Those that provide evidence of conditions that arose after the date of the financial statements.

SA 700 explains that the date of the auditor’s report informs the reader that the auditor has considered the effect of events and transactions of which the auditor becomes aware and that occurred up to that date.*

Effective Date

3. This SA is effective for audits of financial statements for periods beginning on or after April 1, 2009.

Objectives

4. The objectives of the auditor are to:

   (a) Obtain sufficient appropriate audit evidence about whether events occurring between the date of the financial statements and the date of the auditor’s report that require adjustment of, or disclosure in, the financial statements are appropriately reflected in those financial statements; and

   (b) Respond appropriately to facts that become known to the auditor after the date of the auditor’s report, that, had they been known to the auditor at that date, may have caused the auditor to amend the auditor’s report.

Definitions

5. For purposes of the SAs, the following terms have the meanings attributed below:

   (a) Date of the financial statements – The date of the end of the latest period covered by the financial statements.

   (b) Date of approval of the financial statements – The date on which all the statements that comprise the financial statements, including the related notes, have been prepared and those with the recognised

* Published in January, 2009 issue of the Journal.

1 SA 200, “Overall Objectives of the Independent Auditor and the Conduct of an Audit in accordance with Standards on Auditing”, Paragraph 13 (a).

2 Revised SA 700, “Forming an Opinion and Reporting on Financial Statements”; paragraph A37.
authority have asserted that they have taken responsibility for those financial statements. (Ref: Para. A2)

(c) Date of the auditor’s report – The date the auditor dates the report on the financial statements in accordance with SA 700. (Ref: Para. A3)

(d) Date the financial statements are issued – The date that the auditor’s report and audited financial statements are made available to third parties. (Ref: Para. A4-A5)

(e) Subsequent events – Events occurring between the date of the financial statements and the date of the auditor’s report, and facts that become known to the auditor after the date of the auditor’s report.

Requirements

Events Occurring Between the Date of the Financial Statements and the Date of the Auditor’s Report

6. The auditor shall perform audit procedures designed to obtain sufficient appropriate audit evidence that all events occurring between the date of the financial statements and the date of the auditor’s report that require adjustment of, or disclosure in, the financial statements have been identified. The auditor is not, however, expected to perform additional audit procedures on matters to which previously applied audit procedures have provided satisfactory conclusions. (Ref: Para. A6)

7. The auditor shall perform the procedures required by paragraph 6 so that they cover the period from the date of the financial statements to the date of the auditor’s report, or as near as practicable thereto. The auditor shall take into account the auditor’s risk assessment in determining the nature and extent of such audit procedures, which shall include the following: (Ref: Para. A7-A8)

(a) Obtaining an understanding of any procedures management has established to ensure that subsequent events are identified.

(b) Inquiring of management and, where appropriate, those charged with governance as to whether any subsequent events have occurred which might affect the financial statements. (Ref: Para. A9)

(c) Reading minutes, if any, of the meetings, of the entity’s owners, management and those charged with governance, that have been held after the date of the financial statements and inquiring about matters discussed at any such meetings for which minutes are not yet available. (Ref: Para. A10)

(d) Reading the entity’s latest subsequent interim financial statements, if any.

8. When, as a result of the procedures performed as required by paragraphs 6 and 7, the auditor identifies events that require adjustment of, or disclosure in, the financial statements, the auditor shall determine whether each such event is appropriately reflected in those financial statements.

Written Representations

9. The auditor shall request management and, where appropriate, those charged with governance, to provide a written representation in accordance with SA 580, “Written Representations” that all events occurring subsequent to the date of the financial statements and for which the applicable financial reporting framework requires adjustment or disclosure have been adjusted or disclosed.

Facts Which Become Known to the Auditor After the Date of the Auditor’s Report but Before the Date the Financial Statements are Issued

10. The auditor has no obligation to perform any audit procedures regarding the financial statements after the date of the auditor’s report. However, when, after the date of the auditor’s report but before the date the financial statements are issued, a fact becomes known to the auditor that, had it been known to the auditor at the date of the auditor’s report, may have caused the auditor to amend the auditor’s report, the auditor shall: (Ref: Para. A11)

(a) Discuss the matter with management and, where appropriate, those charged with governance.
(b) Determine whether the financial statements need amendment and, if so,

(c) Inquire how management intends to address the matter in the financial statements.

11. If management amends the financial statements, the auditor shall:

(a) Carry out the audit procedures necessary in the circumstances on the amendment.

(b) Unless the circumstances in paragraph 12 apply:

   (i) Extend the audit procedures referred to in paragraphs 6 and 7 to the date of the new auditor’s report; and

   (ii) Provide a new auditor’s report on the amended financial statements. The new auditor’s report shall not be dated earlier than the date of approval of the amended financial statements.

12. When law, regulation or the financial reporting framework does not prohibit management from restricting the amendment of the financial statements to the effects of the subsequent events or events causing that amendments and those responsible for approving the financial statements are not prohibited from restricting their approval to that amendment, the auditor is permitted to restrict the audit procedures on subsequent events required in paragraph 11(b)(i) to that amendment. In such cases, the auditor shall either:

(a) Amend the auditor’s report to include an additional date restricted to that amendment that thereby indicates that the auditor’s procedures on subsequent events are restricted solely to the amendment of the financial statements described in the relevant note to the financial statements; or (Ref: Para. A12)

(b) Provide a new or amended auditor’s report that includes a statement in an Emphasis of Matter paragraph or Other Matter(s) paragraph\(^3\) that conveys that auditor’s procedures on subsequent events are restricted solely to the amendment of the financial statements as described in the relevant note to the financial statements.

13. In some entities, management may not be required by the applicable law, regulation or the financial reporting framework to issue amended financial statements and, accordingly, the auditor need not provide an amended or new auditor’s report. However, when management does not amend the financial statements in circumstances where the auditor believes they need to be amended, then: (Ref: Para. A13-A14)

(a) If the auditor’s report has not yet been provided to the entity, the auditor shall modify the opinion as required by SA 705\(^4\) and then provide the auditor’s report; or

(b) If the auditor’s report has already been provided to the entity, the auditor shall notify management and, unless all of those charged with governance are involved in managing the entity, those charged with governance, not to issue the financial statements to third parties before the necessary amendments have been made. If the financial statements are nevertheless subsequently issued without the necessary amendments, the auditor shall take appropriate action, to seek to prevent reliance on the auditor’s report. (Ref: Para. A15-A16)

**Facts Which Become Known to the Auditor After the Financial Statements have been Issued**

14. After the financial statements have been issued, the auditor has no obligation to perform any audit procedures regarding such financial statements. However, when, after the financial statements have been issued, a fact becomes known to the auditor that, had it been known to the auditor at the date of the auditor’s report, may have caused the auditor to amend the auditor’s report, the auditor shall:

(a) Discuss the matter with management and, where appropriate, those charged with governance.

\(^3\) SA 706, “Emphasis of Matter Paragraphs and Other Matter Paragraphs in the Independent Auditor’s Report”.

\(^4\) SA 705, “Modifications to the Opinion in the Independent Auditor’s Report”.

© The Institute of Chartered Accountants of India
(b) Determine whether the financial statements need amendment and, if so,
(c) Inquire how management intends to address the matter in the financial statements.
15. If the management amends the financial statements, the auditor shall: (Ref: Para. A17)
(a) Carry out the audit procedures necessary in the circumstances on the amendment.
(b) Review the steps taken by management to ensure that anyone in receipt of the previously issued financial statements together with the auditor’s report thereon is informed of the situation.
(c) Unless the circumstances in paragraph 12 apply:
   (i) Extend the audit procedures referred to in paragraphs 6 and 7 to the date of the new auditor’s report, and the date the new auditor’s report no earlier than the date of approval of the amended financial statements; and
   (ii) Provide a new auditor’s report on the amended financial statements.
(d) When the circumstances in paragraph 12 apply, amend the auditor’s report, or provide a new auditor’s report as required by paragraph 12.
16. The auditor shall include in the new or amended auditor’s report an Emphasis of Matter paragraph or Other Matter(s) paragraph referring to a note to the financial statements that more extensively discusses the reason for the amendment of the previously issued financial statements and to the earlier report provided by the auditor.
17. If management does not take the necessary steps to ensure that anyone in receipt of the previously issued financial statements is informed of the situation and does not amend the financial statements in circumstances where the auditor believes they need to be amended, the auditor shall notify management and, unless all of those charged with governance\(^5\) are involved in managing the entity, those charged with governance, that the auditor will seek to prevent future reliance on the auditor’s report. If, despite such notification, management or those charged with governance do not take these necessary steps, the auditor shall take appropriate action to seek to prevent reliance on the auditor’s report. (Ref: Para. A18)

**Application and Other Explanatory Material**

**Introduction** (Ref: Para. 1)

A1. When the audited financial statements are included in other documents subsequent to the issuance of the financial statements, the auditor may have additional responsibilities relating to subsequent events that the auditor may need to consider, such as legal or regulatory requirements involving the offering of securities to the public in jurisdictions in which the securities are being offered. For example, the auditor may be required to perform additional audit procedures to the date of the final offering document. These procedures may include those referred to in paragraphs 6 and 7 performed up to a date at or near the effective date of the final offering document, and reading the offering document to assess whether the other information in the offering document is consistent with the financial information with which the auditor is associated.

**Definitions**

**Date of Approval of the Financial Statements** (Ref: Para. 5(b))

A2. In some entities, the applicable law or regulation identifies the individuals or bodies (for example, management or those charged with governance) that are responsible for concluding that all the statements that comprise the financial statements, including the related notes, have been prepared, and specifies the necessary approval process. In some other entities, the approval process is not prescribed in law or regulation

---

\(^5\) SA 260, paragraph 12(c).
and the entity follows its own procedures in preparing and finalising its financial statements in view of its management and governance structures. In some cases, final approval of the financial statements by shareholders is required. In such cases, final approval by shareholders is not necessary for the auditor to conclude that sufficient appropriate audit evidence on which to base the auditor’s opinion on the financial statements has been obtained. The date of approval of the financial statements for purposes of the SAs is the earlier date on which those with the recognised authority determine that all the statements that comprise the financial statements, including the related notes, have been prepared and that those with the recognised authority have asserted that they have taken responsibility for those financial statements.

**Date of the Auditor’s Report** (Ref: Para. 5(c))

A3. The auditor’s report cannot be dated earlier than the date on which the auditor has obtained sufficient appropriate audit evidence on which to base the opinion on the financial statements, including evidence that all the statements that comprise the financial statements, including the related notes, have been prepared and that those with the recognised authority have asserted that they have taken responsibility for those financial statements. Consequently, the date of the auditor’s report cannot be earlier than the date of approval of the financial statements as defined in paragraph 5(b). A time period may elapse due to administrative issues between the date of the auditor’s report as defined in paragraph 5(c) and the date the auditor’s report is provided to the entity.

**Date the Financial Statements are Issued** (Ref: Para. 5(d))

A4. The date the financial statements are issued generally depends on the regulatory environment of the entity. In some circumstances, the date the financial statements are issued may be the date that they are filed with a regulatory authority. Since audited financial statements cannot be issued without an auditor’s report, the date that the audited financial statements are issued must not only be at or later than the date of the auditor’s report, but must also be at or later than the date the auditor’s report is provided to the entity.

A5. In the case of certain entities, such as, Central/State governments and related government entities (for example, agencies, boards, commissions), the date the financial statements are issued may be the date the audited financial statements and the auditor’s report thereon are presented to the legislature or otherwise made public.

**Events Occurring Between the Date of the Financial Statements and the Date of the Auditor’s Report** (Ref: Para. 6-9)

A6. Depending on the auditor’s risk assessment, the audit procedures required by paragraph 6 may include procedures, necessary to obtain sufficient appropriate audit evidence, involving the review or testing of accounting records or transactions occurring between the date of the financial statements and the date of the auditor’s report. The audit procedures required by paragraphs 6 and 7 are in addition to procedures that the auditor may perform for other purposes that, nevertheless, may provide evidence about subsequent events (for example, to obtain audit evidence for account balances as at the date of the financial statements, such as cut-off procedures or procedures in relation to subsequent receipts of accounts receivable).

A7. Paragraph 7 stipulates certain audit procedures in this context that the auditor is required to perform pursuant to paragraph 6. The subsequent events procedures that the auditor performs may, however, depend on the information that is available and, in particular, the extent to which the accounting records have been prepared since the date of the financial statements. When the accounting records are not up-to-date, and accordingly no interim financial statements (whether for internal or external purposes) have been prepared, or minutes of meetings of management or those charged with governance have not been prepared, relevant audit evidence

---

6 SA 700, paragraph 41.
Auditing Pronouncements

procedures may take the form of inspection of available books and records, including bank statements. Paragraph A8 gives examples of some of the additional matters that the auditor may consider in the course of these inquiries.

A8. In addition to the audit procedures required by paragraph 7, the auditor may consider it necessary and appropriate to:

• Read the entity's latest available budgets, cash flow forecasts and other related management reports for periods after the date of the financial statements;
• Inquire, or extend previous oral or written inquiries, of the entity's legal counsel concerning litigation and claims; or
• Consider whether written representations covering particular subsequent events may be necessary to support other audit evidence and thereby obtain sufficient appropriate audit evidence.

Inquiry (Ref: Para. 7(b))

A9. In inquiring of management and, where appropriate, those charged with governance, as to whether any subsequent events have occurred that might affect the financial statements, the auditor may inquire as to the current status of items that were accounted for on the basis of preliminary or inconclusive data and may make specific inquiries about the following matters:

• Whether new commitments, borrowings or guarantees have been entered into.
• Whether sales or acquisitions of assets have occurred or are planned.
• Whether there have been increases in capital or issuance of debt instruments, such as the issue of new shares or debentures, or an agreement to merge or liquidate has been made or is planned.
• Whether any assets have been appropriated by government or destroyed, for example, by fire or flood.
• Whether there have been any developments regarding contingencies.
• Whether any unusual accounting adjustments have been made or are contemplated.
• Whether any events have occurred or are likely to occur that will bring into question the appropriateness of accounting policies used in the financial statements, as would be the case, for example, if such events call into question the validity of the going concern assumption.
• Whether any events have occurred that are relevant to the measurement of estimates or provisions made in the financial statements.
• Whether any events have occurred that are relevant to the recoverability of assets.

Reading Minutes (Ref: Para. 7(c))

A10. In case of certain entities, such as, Central/State governments and related government entities (for example, agencies, boards, commissions), the auditor may read the official records of relevant proceedings of the legislature and inquire about matters addressed in proceedings for which official records are not yet available.

Facts Which Become Known to the Auditor After the Date of the Auditor’s Report but Before the Date the Financial Statements are Issued

Management Responsibility Towards Auditor (Ref: Para. 10)

A11. As explained in SA 210, the terms of the audit engagement include the agreement of management to inform the auditor of facts that may affect the financial statements, of which management may become aware.
during the period from the date of the auditor's report to the date the financial statements are issued.\(^7\)

**Dual Dating** *(Ref: Para. 12(a))*

A12. When, in the circumstances described in paragraph 12(a), the auditor amends the auditor's report to include an additional date restricted to that amendment, the date of the auditor’s report on the financial statements prior to their subsequent amendment by management remains unchanged because this date informs the reader as to when the audit work on those financial statements was completed. However, an additional date is included in the auditor’s report to inform users that the auditor’s procedures subsequent to that date were restricted to the subsequent amendment of the financial statements. The following is an illustration of such an additional date:

“(Date of auditor’s report), except as to Note Y, which is as of (date of completion of audit procedures restricted to amendment described in Note Y)”.

**No Amendment of Financial Statements by Management** *(Ref: Para. 13)*

A13. In some entities, management may not be required by the applicable law, regulation or the financial reporting framework to issue amended financial statements. This is often the case when issuance of the financial statements for the following period is imminent, provided appropriate disclosures are made in such statements.

A14. In case of certain entities, such as, Central/State governments and related government entities (for example, agencies, boards, commissions), the actions taken in accordance with paragraph 13 when management does not amend the financial statements may also include reporting separately to the legislature, or other relevant body in the reporting hierarchy, on the implications of the subsequent event for the financial statements and the auditor’s report.

**Auditor Action to Seek to Prevent Reliance on Auditor’s Report** *(Ref: Para. 13(b))*

A15. The auditor may need to fulfill additional legal obligations even when the auditor has notified management not to issue the financial statements and management has agreed to this request.

A16. When management has issued the financial statements despite the auditor’s notification not to issue the financial statements to third parties, the auditor’s course of action to prevent reliance on the auditor’s report on the financial statements depends upon the auditor’s legal rights and obligations. Consequently, the auditor may consider it appropriate to seek legal advice.

**Facts Which Become Known to the Auditor After the Financial Statements have been Issued**

**No Amendment of Financial Statements by Management** *(Ref: Para. 15)*

A17. In some circumstances, the entities, such as, Central/State governments and related government entities (for example, agencies, boards, commissions) may be prevented from issuing amended financial statements by law or regulation. In such circumstances, the appropriate course of action for the auditor may be to report to the appropriate statutory body.

**Auditor Action to Seek to Prevent Reliance on Auditor’s Report** *(Ref: Para. 17)*

A18. When the auditor believes that management, or those charged with governance, have failed to take the necessary steps to prevent reliance on the auditor’s report on financial statements previously issued by the entity despite the auditor’s prior notification that the auditor will take action to seek to prevent such reliance, the auditor’s course of action depends upon the auditor’s legal rights and obligations. Consequently, the auditor may consider it appropriate to seek legal advice.

\(^7\) SA 210, “Agreeing the Terms of Audit Engagements”, paragraph A23.
Material Modifications to ISA 560, “Subsequent Events”

Deletion

1. Paragraph A5 of ISA 560 provides that in the case of public sector entities, the date the financial statements are issued may be the date the audited financial statements and the auditor’s report thereon are presented to the legislature or otherwise made public. Paragraph A10 of ISA 560 provides that in the case of public sector, the auditor may read the official records of relevant proceedings of the legislature and inquire about matters addressed in proceedings for which official records are not yet available. Paragraph A14 of ISA 560 provides that in the case of public sector, the actions taken in accordance with paragraph 13 of ISA when management does not amend the financial statements may also include reporting separately to the legislature, or other relevant body in the reporting hierarchy, on the implications of the subsequent event for the financial statements and the auditor’s report. Paragraph A17 of ISA 560 provides that in some circumstances, the entities in the public sector may be prevented from issuing amended financial statements by law or regulation. In such circumstances, the appropriate course of action for the auditor may be to report to the appropriate statutory body. Since as mentioned in the “Preface to the Standards on Quality Control, Auditing, Review, Other Assurance and Related Services”, the Standards issued by the Auditing and Assurance Standards Board, apply equally to all entities, irrespective of their form, nature and size, a specific reference to applicability of the Standard to public sector entities has been deleted.

Further, it is also possible that such situations may also exist in case of certain entities pursuant to a requirement under the statute or regulation under which they operate. Accordingly, the spirit of erstwhile A5, A10, A14 and A17, highlighting such fact, has been retained though a specific reference to public sector entities has been deleted.
Introduction

Scope of this SA

1. This Standard on Auditing (SA) deals with the auditor’s responsibilities in the audit of financial statements relating to going concern and the implications for the auditor’s report. (Ref: Para. A1)

Going Concern Basis of Accounting

2. Under the going concern basis of accounting, the financial statements are prepared on the assumption that the entity is a going concern and will continue its operations for the foreseeable future. General purpose financial statements are prepared using the going concern basis of accounting, unless management either intends to liquidate the entity or to cease operations, or has no realistic alternative but to do so. Special purpose financial statements may or may not be prepared in accordance with a financial reporting framework for which the going concern basis of accounting is relevant (e.g., the going concern basis of accounting is not relevant for some financial statements prepared on a tax basis). When the use of the going concern basis of accounting is appropriate, assets and liabilities are recorded on the basis that the entity will be able to realize its assets and discharge its liabilities in the normal course of business. (Ref: Para. A2)

Responsibility for Assessment of the Entity’s Ability to Continue as a Going Concern

3. Some financial reporting frameworks contain an explicit requirement for management to make a specific assessment of the entity’s ability to continue as a going concern, and standards regarding matters to be considered and disclosures to be made in connection with going concern. The detailed requirements regarding management’s responsibility to assess the entity’s ability to continue as a going concern and related financial statement disclosures may also be set out in law or regulation.

4. In other financial reporting frameworks, there may be no explicit requirement for management to make a specific assessment of the entity’s ability to continue as a going concern. Nevertheless, where the going concern basis of accounting is a fundamental principle in the preparation of financial statements as discussed in paragraph 2, the preparation of the financial statements requires management to assess the entity’s ability to continue as a going concern even if the financial reporting framework does not include an explicit requirement to do so.

5. Management’s assessment of the entity’s ability to continue as a going concern involves making a judgment, at a particular point in time, about inherently uncertain future outcomes of events or conditions. The following factors are relevant to that judgment:

- The degree of uncertainty associated with the outcome of an event or condition increases significantly the further into the future an event or condition or the outcome occurs. For that reason, most financial reporting frameworks that require an explicit management assessment specify the period for which management is required to take into account all available information.
- The size and complexity of the entity, the nature and condition of its business and the degree to which it is affected by external factors affect the judgment regarding the outcome of events or conditions.
Any judgment about the future is based on information available at the time at which the judgment is made. Subsequent events may result in outcomes that are inconsistent with judgments that were reasonable at the time they were made.

Responsibilities of the Auditor

6. The auditor’s responsibilities are to obtain sufficient appropriate audit evidence regarding, and conclude on, the appropriateness of management’s use of the going concern basis of accounting in the preparation of the financial statements, and to conclude, based on the audit evidence obtained, whether a material uncertainty exists about the entity’s ability to continue as a going concern. These responsibilities exist even if the financial reporting framework used in the preparation of the financial statements does not include an explicit requirement for management to make a specific assessment of the entity’s ability to continue as a going concern.

7. However, as described in SA 200, the potential effects of inherent limitations on the auditor’s ability to detect material misstatements are greater for future events or conditions that may cause an entity to cease to continue as a going concern. The auditor cannot predict such future events or conditions. Accordingly, the absence of any reference to a material uncertainty about the entity’s ability to continue as a going concern in an auditor’s report cannot be viewed as a guarantee as to the entity’s ability to continue as a going concern.

Effective Date

8. This SA is effective for audits of financial statements for periods beginning on or after April 1, 2017.

Objectives

9. The objectives of the auditor are:

(a) To obtain sufficient appropriate audit evidence regarding, and conclude on, the appropriateness of management’s use of the going concern basis of accounting in the preparation of the financial statements;

(b) To conclude, based on the audit evidence obtained, whether a material uncertainty exists related to events or conditions that may cast significant doubt on the entity’s ability to continue as a going concern; and

(c) To report in accordance with this SA.

Requirements

Risk Assessment Procedures and Related Activities

10. When performing risk assessment procedures as required by SA 315, the auditor shall consider whether events or conditions exist that may cast significant doubt on the entity’s ability to continue as a going concern. In so doing, the auditor shall determine whether management has already performed a preliminary assessment of the entity’s ability to continue as a going concern, and: (Ref: Para. A3–A6)

(a) If such an assessment has been performed, the auditor shall discuss the assessment with management and determine whether management has identified events or conditions that, individually or collectively, may cast significant doubt on the entity’s ability to continue as a going concern and, if so, management’s plans to address them; or

1 SA 200, Overall Objectives of the Independent Auditor and the Conduct of an Audit in Accordance with Standards on Auditing, paragraphs A51–A52

2 SA 315, Identifying and Assessing the Risks of Material Misstatement through Understanding the Entity and Its Environment, paragraph 5
If such an assessment has not yet been performed, the auditor shall discuss with management the basis for the intended use of the going concern basis of accounting, and inquire of management whether events or conditions exist that, individually or collectively, may cast significant doubt on the entity’s ability to continue as a going concern.

11. The auditor shall remain alert throughout the audit for audit evidence of events or conditions that may cast significant doubt on the entity’s ability to continue as a going concern. (Ref: Para. A7)

Evaluating Management’s Assessment

12. The auditor shall evaluate management’s assessment of the entity’s ability to continue as a going concern. (Ref: Para. A8–A10, A12–A13)

13. In evaluating management’s assessment of the entity’s ability to continue as a going concern, the auditor shall cover the same period as that used by management to make its assessment as required by the applicable financial reporting framework, or by law or regulation if it specifies a longer period. If management’s assessment of the entity’s ability to continue as a going concern covers less than twelve months from the date of the financial statements as defined in SA 560, the auditor shall request management to extend its assessment period to at least twelve months from that date. (Ref: Para. A11–A13)

14. In evaluating management’s assessment, the auditor shall consider whether management’s assessment includes all relevant information of which the auditor is aware as a result of the audit.

Period beyond Management’s Assessment

15. The auditor shall inquire of management as to its knowledge of events or conditions beyond the period of management’s assessment that may cast significant doubt on the entity’s ability to continue as a going concern. (Ref: Para. A14–A15)

Additional Audit Procedures When Events or Conditions Are Identified

16. If events or conditions have been identified that may cast significant doubt on the entity’s ability to continue as a going concern, the auditor shall obtain sufficient appropriate audit evidence to determine whether or not a material uncertainty exists related to events or conditions that may cast significant doubt on the entity’s ability to continue as a going concern (hereinafter referred to as “material uncertainty”) through performing additional audit procedures, including consideration of mitigating factors. These procedures shall include: (Ref: Para. A16)

(a) Where management has not yet performed an assessment of the entity’s ability to continue as a going concern, requesting management to make its assessment.

(b) Evaluating management’s plans for future actions in relation to its going concern assessment, whether the outcome of these plans is likely to improve the situation and whether management’s plans are feasible in the circumstances. (Ref: Para. A17)

(c) Where the entity has prepared a cash flow forecast, and analysis of the forecast is a significant factor in considering the future outcome of events or conditions in the evaluation of management’s plans for future actions: (Ref: Para. A18–A19)

(i) Evaluating the reliability of the underlying data generated to prepare the forecast; and

(ii) Determining whether there is adequate support for the assumptions underlying the forecast.

(d) Considering whether any additional facts or information have become available since the date on which management made its assessment.

3 SA 560, Subsequent Events, paragraph 5(a)
Auditor Conclusions

17. The auditor shall evaluate whether sufficient appropriate audit evidence has been obtained regarding, and shall conclude on, the appropriateness of management's use of the going concern basis of accounting in the preparation of the financial statements.

18. Based on the audit evidence obtained, the auditor shall conclude whether, in the auditor's judgment, a material uncertainty exists related to events or conditions that, individually or collectively, may cast significant doubt on the entity's ability to continue as a going concern. A material uncertainty exists when the magnitude of its potential impact and likelihood of occurrence is such that, in the auditor's judgment, appropriate disclosure of the nature and implications of the uncertainty is necessary for: (Ref: Para. A21–A22)

(a) In the case of a fair presentation financial reporting framework, the fair presentation of the financial statements, or

(b) In the case of a compliance framework, the financial statements not to be misleading.

Adequacy of Disclosures When Events or Conditions Have Been Identified and a Material Uncertainty Exists

19. If the auditor concludes that management's use of the going concern basis of accounting is appropriate in the circumstances but a material uncertainty exists, the auditor shall determine whether the financial statements: (Ref: Para. A22–A23)

(a) Adequately disclose the principal events or conditions that may cast significant doubt on the entity's ability to continue as a going concern and management's plans to deal with these events or conditions; and

(b) Disclose clearly that there is a material uncertainty related to events or conditions that may cast significant doubt on the entity's ability to continue as a going concern and, therefore, that it may be unable to realize its assets and discharge its liabilities in the normal course of business.

Adequacy of Disclosures When Events or Conditions Have Been Identified but No Material Uncertainty Exists

20. If events or conditions have been identified that may cast significant doubt on the entity's ability to continue as a going concern but, based on the audit evidence obtained the auditor concludes that no material uncertainty exists, the auditor shall evaluate whether, in view of the requirements of the applicable financial reporting framework, the financial statements provide adequate disclosures about these events or conditions. (Ref: Para. A24–A25)

Implications for the Auditor's Report

Use of Going Concern Basis of Accounting Is Inappropriate

21. If the financial statements have been prepared using the going concern basis of accounting but, in the auditor's judgment, management's use of the going concern basis of accounting in the preparation of the financial statements is inappropriate, the auditor shall express an adverse opinion. (Ref: Para. A26–A27)

Use of Going Concern Basis of Accounting Is Appropriate but a Material Uncertainty Exists

Adequate Disclosure of a Material Uncertainty Is Made in the Financial Statements

22. If adequate disclosure about the material uncertainty is made in the financial statements, the auditor shall express an unmodified opinion and the auditor's report shall include a separate section under the heading “Material Uncertainty Related to Going Concern” to: (Ref: Para. A28–A31, A34)

(a) Draw attention to the note in the financial statements that discloses the matters set out in paragraph 19; and
(b) State that these events or conditions indicate that a material uncertainty exists that may cast significant doubt on the entity’s ability to continue as a going concern and that the auditor’s opinion is not modified in respect of the matter.

Adequate Disclosure of a Material Uncertainty Is Not Made in the Financial Statements

23. If adequate disclosure about the material uncertainty is not made in the financial statements, the auditor shall: (Ref: Para. A32–A34)

(a) Express a qualified opinion or adverse opinion, as appropriate, in accordance with SA 705 (Revised)⁴; and

(b) In the Basis for Qualified (Adverse) Opinion section of the auditor’s report, state that a material uncertainty exists that may cast significant doubt on the entity’s ability to continue as a going concern and that the financial statements do not adequately disclose this matter.

Management Unwilling to Make or Extend Its Assessment

24. If management is unwilling to make or extend its assessment when requested to do so by the auditor, the auditor shall consider the implications for the auditor’s report. (Ref: Para. A35)

Communication with Those Charged with Governance

25. Unless all those charged with governance are involved in managing the entity,⁵ the auditor shall communicate with those charged with governance events or conditions identified that may cast significant doubt on the entity’s ability to continue as a going concern. Such communication with those charged with governance shall include the following:

(a) Whether the events or conditions constitute a material uncertainty;

(b) Whether management’s use of the going concern basis of accounting is appropriate in the preparation of the financial statements;

(c) The adequacy of related disclosures in the financial statements; and

(d) Where applicable, the implications for the auditor’s report.

Significant Delay in the Approval of Financial Statements

26. If there is significant delay in the approval of the financial statements by management or those charged with governance after the date of the financial statements, the auditor shall inquire as to the reasons for the delay. If the auditor believes that the delay could be related to events or conditions relating to the going concern assessment, the auditor shall perform those additional audit procedures necessary, as described in paragraph 16, as well as consider the effect on the auditor’s conclusion regarding the existence of a material uncertainty, as described in paragraph 18.

***

Application and Other Explanatory Material

Scope of this SA (Ref: Para 1)

A1. SA 701⁶ deals with the auditor’s responsibility to communicate key audit matters in the auditor’s report. That SA acknowledges that, when SA 701 applies, matters relating to going concern may be determined to be key audit matters, and explains that a material uncertainty related to events or conditions that may cast

---

⁴ SA 705 (Revised), Modifications to the Opinion in the Independent Auditor’s Report.
⁵ SA 260 (Revised), Communication with Those Charged with Governance, paragraph 13.
⁶ SA 701, Communicating Key Audit Matters in the Independent Auditor’s Report.
significant doubt on the entity’s ability to continue as a going concern is, by its nature, a key audit matter.⁷

**Going Concern Basis of Accounting** (Ref: Para. 2)

**Considerations Specific to Public Sector Entities**

A2. Management’s use of the going concern basis of accounting is also relevant to public sector entities. Going concern risks may arise, but are not limited to, situations where public sector entities operate on a for-profit basis, where government support may be reduced or withdrawn, or in the case of privatization. Events or conditions that may cast significant doubt on an entity’s ability to continue as a going concern in the public sector may include situations where the public sector entity lacks funding for its continued existence or when policy decisions are made that affect the services provided by the public sector entity.

**Risk Assessment Procedures and Related Activities**

**Events or Conditions That May Cast Significant Doubt on the Entity’s Ability to Continue as a Going Concern** (Ref: Para. 10)

A3. The following are examples of events or conditions that, individually or collectively, may cast significant doubt on the entity’s ability to continue as a going concern. This listing is not all-inclusive nor does the existence of one or more of the items always signify that a material uncertainty exists.

**Financial**

- Net liability or net current liability position.
- Fixed-term borrowings approaching maturity without realistic prospects of renewal or repayment; or excessive reliance on short-term borrowings to finance long-term assets.
- Indications of withdrawal of financial support by creditors.
- Negative operating cash flows indicated by historical or prospective financial statements.
- Adverse key financial ratios.
- Substantial operating losses or significant deterioration in the value of assets used to generate cash flows.
- Arrears or discontinuance of dividends.
- Inability to pay creditors on due dates.
- Inability to comply with the terms of loan agreements.
- Change from credit to cash-on-delivery transactions with suppliers.
- Inability to obtain financing for essential new product development or other essential investments.

**Operating**

- Management intentions to liquidate the entity or to cease operations.
- Loss of key management without replacement.
- Loss of a major market, key customer(s), franchise, license, or principal supplier(s).
- Labor difficulties.
- Shortages of important supplies.
- Emergence of a highly successful competitor.

⁷ See paragraphs 15 and A41 of SA 701.
Other

- Non-compliance with capital or other statutory or regulatory requirements, such as solvency or liquidity requirements for financial institutions.
- Pending legal or regulatory proceedings against the entity that may, if successful, result in claims that the entity is unlikely to be able to satisfy.
- Changes in law or regulation or government policy expected to adversely affect the entity.
- Uninsured or underinsured catastrophes when they occur.

The significance of such events or conditions often can be mitigated by other factors. For example, the effect of an entity being unable to make its normal debt repayments may be counter-balanced by management’s plans to maintain adequate cash flows by alternative means, such as by disposing of assets, rescheduling loan repayments, or obtaining additional capital. Similarly, the loss of a principal supplier may be mitigated by the availability of a suitable alternative source of supply.

A4. The risk assessment procedures required by paragraph 10 help the auditor to determine whether management’s use of the going concern basis of accounting is likely to be an important issue and its impact on planning the audit. These procedures also allow for more timely discussions with management, including a discussion of management’s plans and resolution of any identified going concern issues.

Considerations Specific to Smaller Entities (Ref: Para. 10)

A5. The size of an entity may affect its ability to withstand adverse conditions. Small entities may be able to respond quickly to exploit opportunities, but may lack reserves to sustain operations.

A6. Conditions of particular relevance to small entities include the risk that banks and other lenders may cease to support the entity, as well as the possible loss of a principal supplier, major customer, key employee, or the right to operate under a license, franchise or other legal agreement.

Remaining Alert throughout the Audit for Audit Evidence about Events or Conditions (Ref: Para. 11)

A7. SA 315 requires the auditor to revise the auditor’s risk assessment and modify the further planned audit procedures accordingly when additional audit evidence is obtained during the course of the audit that affects the auditor’s assessment of risk. If events or conditions that may cast significant doubt on the entity’s ability to continue as a going concern are identified after the auditor’s risk assessments are made, in addition to performing the procedures in paragraph 16, the auditor’s assessment of the risks of material misstatement may need to be revised. The existence of such events or conditions may also affect the nature, timing and extent of the auditor’s further procedures in response to the assessed risks. SA 330 establishes requirements and provides guidance on this issue.

Evaluating Management’s Assessment

Management’s Assessment and Supporting Analysis and the Auditor’s Evaluation (Ref: Para. 12)

A8. Management’s assessment of the entity’s ability to continue as a going concern is a key part of the auditor’s consideration of management’s use of the going concern basis of accounting.

A9. It is not the auditor’s responsibility to rectify the lack of analysis by management. In some circumstances, however, the lack of detailed analysis by management to support its assessment may not prevent the auditor from concluding whether management’s use of the going concern basis of accounting is appropriate in the circumstances. For example, when there is a history of profitable operations and a ready access to financial

\[ ^8 \text{SA 315, paragraph 31} \]
\[ ^9 \text{SA 330, } The \text{ Auditor’s Responses to Assessed Risks} \]
resources, management may make its assessment without detailed analysis. In this case, the auditor’s
evaluation of the appropriateness of management’s assessment may be made without performing detailed
evaluation procedures if the auditor’s other audit procedures are sufficient to enable the auditor to conclude
whether management’s use of the going concern basis of accounting in the preparation of the financial
statements is appropriate in the circumstances.

A10. In other circumstances, evaluating management’s assessment of the entity’s ability to continue as a
going concern, as required by paragraph 12, may include an evaluation of the process management followed
to make its assessment, the assumptions on which the assessment is based and management’s plans for
future action and whether management’s plans are feasible in the circumstances.

The Period of Management’s Assessment (Ref: Para. 13)

A11. Most financial reporting frameworks requiring an explicit management assessment specify the period for
which management is required to take into account all available information.

Considerations Specific to Smaller Entities (Ref: Para. 12–13)

A12. In many cases, the management of smaller entities may not have prepared a detailed assessment of the
entity’s ability to continue as a going concern, but instead may rely on in-depth knowledge of the business and
anticipated future prospects. Nevertheless, in accordance with the requirements of this SA, the auditor needs
to evaluate management’s assessment of the entity’s ability to continue as a going concern. For smaller
entities, it may be appropriate to discuss the medium and long-term financing of the entity with management,
provided that management’s contentions can be corroborated by sufficient documentary evidence and are not
inconsistent with the auditor’s understanding of the entity. Therefore, the requirement in paragraph 13 for the
auditor to request management to extend its assessment may, for example, be satisfied by discussion, inquiry
and inspection of supporting documentation, for example, orders received for future supply, evaluated as to
their feasibility or otherwise substantiated.

A13. Continued support by owner-managers is often important to smaller entities’ ability to continue as a going
concern. Where a small entity is largely financed by a loan from the owner-manager, it may be important that
these funds are not withdrawn. For example, the continuance of a small entity in financial difficulty may be
dependent on the owner-manager subordinating a loan to the entity in favor of banks or other creditors, or the
owner-manager supporting a loan for the entity by providing a guarantee with his or her personal assets as
collateral. In such circumstances, the auditor may obtain appropriate documentary evidence of the
subordination of the owner-manager’s loan or of the guarantee. Where an entity is dependent on additional
support from the owner-manager, the auditor may evaluate the owner-manager’s ability to meet the obligation
under the support arrangement. In addition, the auditor may request written confirmation of the terms and
conditions attaching to such support and the owner-manager’s intention or understanding.

Period beyond Management’s Assessment (Ref: Para. 15)

A14. As required by paragraph 11, the auditor remains alert to the possibility that there may be known events,
scheduled or otherwise, or conditions that will occur beyond the period of assessment used by management
that may bring into question the appropriateness of management’s use of the going concern basis of
accounting in preparing the financial statements. Since the degree of uncertainty associated with the outcome
of an event or condition increases as the event or condition is further into the future, in considering events or
conditions further in the future, the indications of going concern issues need to be significant before the auditor
needs to consider taking further action. If such events or conditions are identified, the auditor may need to
request management to evaluate the potential significance of the event or condition on its assessment of the
entity’s ability to continue as a going concern. In these circumstances, the procedures in paragraph 16 apply.

A15. Other than inquiry of management, the auditor does not have a responsibility to perform any other audit
procedures to identify events or conditions that may cast significant doubt on the entity’s ability to continue as
a going concern beyond the period assessed by management, which, as discussed in paragraph 13, would be at least twelve months from the date of the financial statements.

**Additional Audit Procedures When Events or Conditions Are Identified** (Ref: Para.16)

A16. Audit procedures that are relevant to the requirement in paragraph 16 may include the following:

- Analyzing and discussing cash flow, profit and other relevant forecasts with management.
- Analyzing and discussing the entity’s latest available interim financial statements.
- Reading the terms of debentures and loan agreements and determining whether any have been breached.
- Reading minutes of the meetings of shareholders, those charged with governance and relevant committees for reference to financing difficulties.
- Inquiring of the entity’s legal counsel regarding the existence of litigation and claims and the reasonableness of management’s assessments of their outcome and the estimate of their financial implications.
- Confirming the existence, legality and enforceability of arrangements to provide or maintain financial support with related and third parties and assessing the financial ability of such parties to provide additional funds.
- Evaluating the entity’s plans to deal with unfilled customer orders.
- Performing audit procedures regarding subsequent events to identify those that either mitigate or otherwise affect the entity’s ability to continue as a going concern.
- Confirming the existence, terms and adequacy of borrowing facilities.
- Obtaining and reviewing reports of regulatory actions.
- Determining the adequacy of support for any planned disposals of assets.

**Evaluating Management’s Plans for Future Actions** (Ref: Para. 16(b))

A17. Evaluating management’s plans for future actions may include inquiries of management as to its plans for future action, including, for example, its plans to liquidate assets, borrow money or restructure debt, reduce or delay expenditures, or increase capital.

**The Period of Management’s Assessment** (Ref: Para. 16(c))

A18. In addition to the procedures required in paragraph 16(c), the auditor may compare:

- The prospective financial information for recent prior periods with historical results; and
- The prospective financial information for the current period with results achieved to date.

A19. Where management’s assumptions include continued support by third parties, whether through the subordination of loans, commitments to maintain or provide additional funding, or guarantees, and such support is important to an entity’s ability to continue as a going concern, the auditor may need to consider requesting written confirmation (including of terms and conditions) from those third parties and to obtain evidence of their ability to provide such support.

**Written Representations** (Ref: Para. 16(e))

A20. The auditor may consider it appropriate to obtain specific written representations beyond those required in paragraph 16 in support of audit evidence obtained regarding management’s plans for future actions in relation to its going concern assessment and the feasibility of those plans.

**Auditor Conclusions**
Material Uncertainty Related to Events or Conditions that May Cast Significant Doubt on the Entity’s Ability to Continue as a Going Concern (Ref: Para. 18-19)

A21. The phrase “material uncertainty” means the uncertainties related to events or conditions which may cast significant doubt on the entity’s ability to continue as a going concern that should be disclosed in the financial statements. In some other financial reporting frameworks the phrase “significant uncertainty” is used in similar circumstances.

Adequacy of Disclosure when Events or Conditions Have Been Identified and a Material Uncertainty Exists

A22. Paragraph 18 explains that a material uncertainty exists when the magnitude of the potential impact of the events or conditions and the likelihood of occurrence is such that appropriate disclosure is necessary to achieve fair presentation (for fair presentation frameworks) or for the financial statements not to be misleading (for compliance frameworks). The auditor is required by paragraph 18 to conclude whether such a material uncertainty exists regardless of whether or how the applicable financial reporting framework defines a material uncertainty.

A23. Paragraph 19 requires the auditor to determine whether the financial statement disclosures address the matters set forth in that paragraph. This determination is in addition to the auditor determining whether disclosures about a material uncertainty, required by the applicable financial reporting framework, are adequate. Disclosures required by some financial reporting frameworks that are in addition to matters set forth in paragraph 19 may include disclosures about:

- Management’s evaluation of the significance of the events or conditions relating to the entity’s ability to meet its obligations; or
- Significant judgments made by management as part of its assessment of the entity’s ability to continue as a going concern.

Some financial reporting frameworks may provide additional guidance regarding management’s consideration of disclosures about the magnitude of the potential impact of the principal events or conditions, and the likelihood and timing of their occurrence.

Adequacy of Disclosures When Events or Conditions Have Been Identified but No Material Uncertainty Exists (Ref: Para. 20)

A24. Even when no material uncertainty exists, paragraph 20 requires the auditor to evaluate whether, in view of the requirements of the applicable financial reporting framework, the financial statements provide adequate disclosure about events or conditions that may cast significant doubt on the entity’s ability to continue as a going concern. Some financial reporting frameworks may address disclosures about:

- Principal events or conditions;
- Management’s evaluation of the significance of those events or conditions in relation to the entity’s ability to meet its obligations;
- Management’s plans that mitigate the effect of these events or conditions; or
- Significant judgments made by management as part of its assessment of the entity’s ability to continue as a going concern.

A25. When the financial statements are prepared in accordance with a fair presentation framework, the auditor’s evaluation as to whether the financial statements achieve fair presentation includes the consideration of the overall presentation, structure and content of the financial statements, and whether the financial statements, including the related notes, represent the underlying transactions and events in a manner that
achieves fair presentation. Depending on the facts and circumstances, the auditor may determine that additional disclosures are necessary to achieve fair presentation. This may be the case, for example, when events or conditions have been identified that may cast significant doubt on the entity’s ability to continue as a going concern but, based on the audit evidence obtained, the auditor concludes that no material uncertainty exists, and no disclosures are explicitly required by the applicable financial reporting framework regarding these circumstances.

Implications for the Auditor’s Report

Use of Going Concern Basis of Accounting is Inappropriate (Ref: Para. 21)

A26. If the financial statements have been prepared using the going concern basis of accounting but, in the auditor’s judgment, management’s use of the going concern basis of accounting in the financial statements is inappropriate, the requirement in paragraph 21 for the auditor to express an adverse opinion applies regardless of whether or not the financial statements include disclosure of the inappropriateness of management’s use of the going concern basis of accounting.

A27. When the use of the going concern basis of accounting is not appropriate in the circumstances, management may be required, or may elect, to prepare the financial statements on another basis (e.g., liquidation basis). The auditor may be able to perform an audit of those financial statements provided that the auditor determines that the other basis of accounting is acceptable in the circumstances. The auditor may be able to express an unmodified opinion on those financial statements, provided there is adequate disclosure therein about the basis of accounting on which the financial statements are prepared, but may consider it appropriate or necessary to include an Emphasis of Matter paragraph in accordance with SA 706 (Revised) in the auditor’s report to draw the user’s attention to that alternative basis of accounting and the reasons for its use.

Use of the Going Concern Basis of Accounting Is Appropriate but a Material Uncertainty Exists (Ref: Para. 22-23)

A28. The identification of a material uncertainty is a matter that is important to users’ understanding of the financial statements. The use of a separate section with a heading that includes reference to the fact that a material uncertainty related to going concern exists alerts users to this circumstance.

A29. The Appendix to this SA provides illustrations of the statements that are required to be included in the auditor’s report on the financial statements when “the Accounting Principles generally accepted in India” is the applicable financial reporting framework. If an applicable financial reporting framework other than abovementioned framework is used, the illustrative statements presented in the Appendix to this SA may need to be adapted to reflect the application of the other financial reporting framework in the circumstances.

A30. Paragraph 22 establishes the minimum information required to be presented in the auditor’s report in each of the circumstances described. The auditor may provide additional information to supplement the required statements, for example to explain:

- That the existence of a material uncertainty is fundamental to users’ understanding of the financial statements; or
- How the matter was addressed in the audit. (Ref: Para. A1)

Adequate Disclosure of a Material Uncertainty Is Made in the Financial Statements (Ref: Para. 22)

---

10 SA 700 (Revised), Forming an Opinion and Reporting on Financial Statements, paragraph 14
11 SA 706 (Revised), Emphasis of Matter Paragraphs and Other Matter Paragraphs in the Independent Auditor’s Report
12 SA 706(Revised), paragraph A2
A31. Illustration 1 of the Appendix to this SA is an example of an auditor’s report when the auditor has obtained sufficient appropriate audit evidence regarding the appropriateness of management’s use of the going concern basis of accounting but a material uncertainty exists and disclosure is adequate in the financial statements. The Appendix of SA 700 (Revised) also includes illustrative wording to be included in the auditor’s report for all entities in relation to going concern to describe the respective responsibilities of those responsible for the financial statements and the auditor in relation to going concern.

Adequate Disclosure of a Material Uncertainty is Not Made in the Financial Statements (Ref: Para. 23)

A32. Illustrations 2 and 3 of the Appendix to this SA are examples of auditor’s reports containing qualified and adverse opinions, respectively, when the auditor has obtained sufficient appropriate audit evidence regarding the appropriateness of the management’s use of the going concern basis of accounting but adequate disclosure of a material uncertainty is not made in the financial statements.

A33. In situations involving multiple uncertainties that are significant to the financial statements as a whole, the auditor may consider it appropriate in extremely rare cases to express a disclaimer of opinion instead of including the statements required by paragraph 22. SA 705 (Revised) provides guidance on this issue.13

Communication with Regulators (Ref: Para. 22–23)

A34. When the auditor of a regulated entity considers that it may be necessary to include a reference to going concern matters in the auditor’s report, the auditor may have a duty to communicate with the applicable regulatory, enforcement or supervisory authorities.

Management Unwilling to Make or Extend Its Assessment (Ref: Para. 24)

A35. In certain circumstances, the auditor may believe it necessary to request management to make or extend its assessment. If management is unwilling to do so, a qualified opinion or a disclaimer of opinion in the auditor’s report may be appropriate, because it may not be possible for the auditor to obtain sufficient appropriate audit evidence regarding management’s use of the going concern basis of accounting in the preparation of the financial statements, such as audit evidence regarding the existence of plans management has put in place or the existence of other mitigating factors.

Appendix

(Ref: Para. A29, A31–A32)

Illustrations of Auditor’s Reports Relating to Going Concern

- Illustration 1: An auditor’s report containing an unmodified opinion when the auditor has concluded that a material uncertainty exists and disclosure in the financial statements is adequate.
- Illustration 2: An auditor’s report containing a qualified opinion when the auditor has concluded that a material uncertainty exists and that the financial statements are materially misstated due to inadequate disclosure.
- Illustration 3: An auditor’s report containing an adverse opinion when the auditor has concluded that a material uncertainty exists and the financial statements omit the required disclosures relating to a material uncertainty.

13 SA 705(Revised), paragraph 10
Illustration 1 – Unmodified Opinion When a Material Uncertainty Exists and Disclosure in the Financial Statements Is Adequate

For purposes of this illustrative auditor’s report, the following circumstances are assumed:

- Audit of a complete set of financial statements of a listed company (registered under the Companies Act, 2013) using a fair presentation framework. The audit is not a group audit (i.e., SA 600 does not apply).
- The financial statements are prepared by management of the entity in accordance with the accounting Standards prescribed under section 133 of the Companies Act, 2013.
- The terms of the audit engagement reflect the description of management’s responsibility for the financial statements in SA 210.14
- The auditor has concluded an unmodified (i.e., “clean”) opinion is appropriate based on the audit evidence obtained.
- The relevant ethical requirements that apply to the audit are those of the jurisdiction.
- Based on the audit evidence obtained, the auditor has concluded that a material uncertainty exists related to events or conditions that may cast significant doubt on the entity’s ability to continue as a going concern. The disclosure of the material uncertainty in the financial statements is adequate.
- Key audit matters have been communicated in accordance with SA 701.
- Those responsible for oversight of the financial statements differ from those responsible for the preparation of the financial statements.
- In addition to the audit of the financial statements, the auditor has other reporting responsibilities required under the Companies Act, 2013.

INDEPENDENT AUDITOR’S REPORT

To the Members of ABC Company Limited

Report on the Audit of the Standalone Financial Statements15

Opinion

We have audited the standalone financial statements of ABC Company Limited (“the Company”), which comprise the balance sheet as at 31st March 20XX, and the statement of Profit and Loss, (statement of changes in equity)16 and statement of cash flows for the year then ended, and notes to the financial statements, including a summary of significant accounting policies and other explanatory information [in which are included the Returns for the year ended on that date audited by the branch auditors of the Company’s branches located at (location of branches)]17.

In our opinion and to the best of our information and according to the explanations given to us, the aforesaid standalone financial statements give the information required by the Act in the manner so required and give a true and fair view in conformity with the accounting principles generally accepted in India, of the state of affairs of the Company as at March 31, 20XX, and profit/loss, (changes in equity)18 and its cash flows for the year ended on that date.

Basis for Opinion

14 SA 210, Agreeing the Terms of Audit Engagements
15 The sub-title “Report on the Audit of the Standalone Financial Statements” is unnecessary in circumstances when the second sub-title “Report on Other Legal and Regulatory Requirements” is not applicable.
16 Where applicable.
17 Where applicable.
18 Where applicable
We conducted our audit in accordance with the Standards on Auditing (SAs) specified under section 143(10) of the Companies Act, 2013. Our responsibilities under those Standards are further described in the Auditor’s Responsibilities for the Audit of the Financial Statements section of our report. We are independent of the Company in accordance with the Code of Ethics issued by the Institute of Chartered Accountants of India together with the ethical requirements that are relevant to our audit of the financial statements under the provisions of the Companies Act, 2013 and the Rules thereunder, and we have fulfilled our other ethical responsibilities in accordance with these requirements and the Code of Ethics. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our opinion.

Material Uncertainty Related to Going Concern

We draw attention to Note XX in the financial statements, which indicates that the Company incurred a net loss of ZZZ during the year ended December 31, 20X1 and, as of that date, the Company’s current liabilities exceeded its total assets by YYY. As stated in Note 6, these events or conditions, along with other matters as set forth in Note XX, indicate that a material uncertainty exists that may cast significant doubt on the Company’s ability to continue as a going concern. Our opinion is not modified in respect of this matter.

Key Audit Matters

Key audit matters are those matters that, in our professional judgment, were of most significance in our audit of the financial statements of the current period. These matters were addressed in the context of our audit of the financial statements as a whole, and in forming our opinion thereon, and we do not provide a separate opinion on these matters. In addition to the matter described in the Material Uncertainty Related to Going Concern section, we have determined the matters described below to be the key audit matters to be communicated in our report.

Responsibilities of Management and Those Charged with Governance for the Financial Statements

[Reporting in accordance with SA 700 (Revised) – see Illustration 1 in SA 700 (Revised).]

Auditor’s Responsibilities for the Audit of the Financial Statements

[Reporting in accordance with SA 700 (Revised) – see Illustration 1 in SA 700 (Revised).]

Report on Other Legal and Regulatory Requirements

[Reporting in accordance with SA 700 (Revised) – see Illustration 1 in SA 700 (Revised).]

19 Paragraphs 33 and 38 of SA 700 (Revised) require wording to be included in the auditor’s report for all entities in relation to going concern to describe the respective responsibilities of those responsible for the financial statements and the auditor in relation to going concern.

20 Partner or Proprietor, as the case may be
Illustration 2 – Qualified Opinion When a Material Uncertainty Exists and the Financial Statements Are Materially Misstated Due to Inadequate Disclosure

For purposes of this illustrative auditor’s report, the following circumstances are assumed:

- Audit of a complete set of financial statements of a listed company using a fair presentation framework. The audit is not a group audit (i.e., SA 600 does not apply).
- The financial statements are prepared by management of the entity in accordance with the accounting Standards prescribed under section 133 of the Companies Act, 2013.
- The terms of the audit engagement reflect the description of management’s responsibility for the financial statements in SA 210.
- The relevant ethical requirements that apply to the audit are those of the jurisdiction.
- Based on the audit evidence obtained, the auditor has concluded that a material uncertainty exists related to events or conditions that may cast significant doubt on the entity’s ability to continue as a going concern. Note YY to the financial statements discusses the magnitude of financing arrangements, the expiration and the total financing arrangements; however the financial statements do not include discussion on the impact or the availability of refinancing or characterize this situation as a material uncertainty.
- The financial statements are materially misstated due to the inadequate disclosure of the material uncertainty. A qualified opinion is being expressed because the auditor concluded that the effects on the financial statements of this inadequate disclosure are material but not pervasive to the financial statements.
- Key audit matters have been communicated in accordance with SA 701.
- Those responsible for oversight of the financial statements differ from those responsible for the preparation of the financial statements.
- In addition to the audit of the financial statements, the auditor has other reporting responsibilities required under the Companies Act, 2013.

INDEPENDENT AUDITOR’S REPORT

To the Members of ABC Company Limited

Report on the Audit of the Standalone Financial Statements

Qualified Opinion

We have audited the standalone financial statements of ABC Company Limited (“the Company”), which comprise the balance sheet as at 31\(^{st}\) March 20XX, and the statement of Profit and Loss, \(\text{statement of changes in equity}\)\(^{22}\) and statement of cash flows for the year then ended, and notes to the financial statements, including a summary of significant accounting policies and other explanatory information [in which are included the Returns for the year ended on that date audited by the branch auditors of the Company’s branches located at \(\text{location of branches}\)]\(^{23}\).

In our opinion and to the best of our information and according to the explanations given to us, except for the incomplete disclosure of the information referred to in the Basis for Qualified Opinion section of our report, the aforesaid standalone financial statements give the information required by the Act in the manner so required and give a true and fair view in conformity with the accounting principles generally accepted in India, of the

\(^{21}\) The sub-title “Report on the Audit of the Standalone Financial Statements” is unnecessary in circumstances when the second sub-title

\(^{22}\) “Report on Other Legal and Regulatory Requirements” is not applicable.

\(^{23}\) Where applicable.
state of affairs of the Company as at March 31, 20XX, and profit/loss, (changes in equity) and its cash flows for the year ended on that date.

**Basis for Qualified Opinion**

As discussed in Note YY, the Company’s financing arrangements expire and amounts outstanding are payable on April 30, 20X2. The Company has been unable to conclude re-negotiations or obtain replacement financing. This situation indicates that a material uncertainty exists that may cast significant doubt on the Company’s ability to continue as a going concern. The financial statements do not adequately disclose this matter.

We conducted our audit in accordance with the Standards on Auditing (SAs) specified under section 143(10) of the Companies Act, 2013. Our responsibilities under those Standards are further described in the Auditor’s Responsibilities for the Audit of the Financial Statements section of our report. We are independent of the Company in accordance with the Code of Ethics issued by the Institute of Chartered Accountants of India together with the ethical requirements that are relevant to our audit of the financial statements under the provisions of the Companies Act, 2013 and the Rules thereunder, and we have fulfilled our other ethical responsibilities in accordance with these requirements and the Code of Ethics. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our opinion.

**Key Audit Matters**

Key audit matters are those matters that, in our professional judgment, were of most significance in our audit of the financial statements of the current period. These matters were addressed in the context of our audit of the financial statements as a whole, and in forming our opinion thereon, and we do not provide a separate opinion on these matters. In addition to the matter described in the Basis for Qualified Opinion section, we have determined the matters described below to be the key audit matters to be communicated in our report.

*Descriptions of each key audit matter in accordance with SA 701.*

**Responsibilities of Management and Those Charged with Governance for the Financial Statements**

*Reporting in accordance with SA 700 (Revised) – see Illustration 1 in SA 700 (Revised).*

25 Paragraphs 33 and 38 of SA 700 (Revised) require wording to be included in the auditor’s report for all entities in relation to going concern to describe the respective responsibilities of those responsible for the financial statements and the auditor in relation to going concern.
26 Partner or Proprietor, as the case may be
Illustration 3 – Adverse Opinion When a Material Uncertainty Exists and Is Not Disclosed in the Financial Statements

For purposes of the illustrative auditor's report, the following circumstances are assumed:

- Audit of a complete set of financial statements of a non corporate entity using a fair presentation framework. The audit is not a group audit (i.e., SA 600 does not apply).
- The financial statements are prepared by management of the entity in accordance with the Accounting Standards issued by the Institute of Chartered Accountants of India.
- The terms of the audit engagement reflect the description of management’s responsibility for the financial statements in SA 210.
- The relevant ethical requirements that apply to the audit are those of the jurisdiction.
- Based on the audit evidence obtained, the auditor has concluded that a material uncertainty exists related to events or conditions that may cast significant doubt on the entity’s ability to continue as a going concern, and the entity is considering bankruptcy. The financial statements omit the required disclosures relating to the material uncertainty. An adverse opinion is being expressed because the effects on the financial statements of such omission are material and pervasive.
- The auditor is not required, and has otherwise not decided, to communicate key audit matters in accordance with SA 701.
- Those responsible for oversight of the financial statements differ from those responsible for the preparation of the financial statements.
- In addition to the audit of the financial statements, the auditor has other reporting responsibilities required under local law.

INDEPENDENT AUDITOR’S REPORT

To the Partners of ABC & Associates [or Other Appropriate Addressee]

Report on the Audit of the Financial Statements

Adverse Opinion

We have audited the financial statements of ABC & Associates (the entity), which comprise the balance sheet at March 31st 20XX, and the profit and loss account, (and statement of cash flows) for the year then ended, and notes to the financial statements, including a summary of significant accounting policies.

In our opinion, because of the omission of the information mentioned in the Basis for Adverse Opinion section of our report, the accompanying financial statements do not present fairly (or do not give a true and fair view of), the financial position of the entity as at March 31, 20X1, and of its financial performance and its cash flows for the year then ended in accordance with the Accounting Standards issued by the Institute of Chartered Accountants of India.

Basis for Adverse Opinion

The entity’s financing arrangements expired and the amount outstanding was payable on March 31, 20X1. The entity has been unable to conclude re-negotiations or obtain replacement financing and is considering filing for bankruptcy. This situation indicates that a material uncertainty exists that may cast significant doubt on the Company’s ability to continue as a going concern. The financial statements do not adequately disclose this
Basis for Opinion

We conducted our audit in accordance with the Standards on Auditing (SAs) issued by ICAI. Our responsibilities under those standards are further described in the Auditor's Responsibilities for the Audit of the Financial Statements section of our report. We are independent of the entity in accordance with the ethical requirements that are relevant to our audit of the financial statements in [jurisdiction], and we have fulfilled our other ethical responsibilities in accordance with these requirements. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our opinion.

Written Representations

(Effective for audits of financial statements for periods beginning on or after April 1, 2009)

Introduction
Scope of this SA
1. This Standard on Auditing (SA) deals with the auditor’s responsibility to obtain written representations from management and, where appropriate, those charged with governance.

Written Representations as Audit Evidence
2. Audit evidence is all the information used by the auditor in arriving at the conclusions on which the audit opinion is based. Written representations are necessary information that the auditor requires in connection with the audit of the entity’s financial statements. Accordingly, similar to responses to inquiries, written representations are audit evidence. (Ref: Para. A1)

3. Although written representations provide necessary audit evidence, they do not provide sufficient appropriate audit evidence on their own about any of the matters with which they deal. Furthermore, the fact that management has provided reliable written representations does not affect the nature or extent of other audit evidence that the auditor obtains about the fulfillment of management’s responsibilities, or about specific assertions.

Effective Date
4. This SA is effective for audits of financial statements for periods beginning on or after 1st April, 2009.

Objectives
5. The objectives of the auditor are:

   (a) To obtain written representations from management and, where appropriate, those charged with governance that they believe that they have fulfilled their responsibility for the preparation of the financial statements and for the completeness of the information provided to the auditor;

   (b) To support other audit evidence relevant to the financial statements or specific assertions in the financial statements by means of written representations, if determined necessary by the auditor or required by other SAs; and

   (c) To respond appropriately to written representations provided by management and, where appropriate, those charged with governance, or if management or, where appropriate, those charged with governance do not provide the written representations requested by the auditor.

Definition
6. For purposes of the SAs, the following term has the meaning attributed below:

* Published in October, 2008 issue of the Journal.
1 SA 500, “Audit Evidence”, paragraph 5 (c).
Written representations – A written statement by management provided to the auditor to confirm certain matters or to support other audit evidence. Written representations in this context do not include financial statements, the assertions therein, or supporting books and records.

7. For purposes of this SA, references to “management” should be read as “management and, where appropriate, those charged with governance.” Furthermore, in the case of a fair presentation framework, management is responsible for the preparation and fair presentation of the financial statements in accordance with the applicable financial reporting framework; or the preparation of financial statements that give a true and fair view in accordance with the applicable financial reporting framework.

Requirements

Management from Whom Written Representations Requested

8. The auditor shall request written representations from management with appropriate responsibilities for the financial statements and knowledge of the matters concerned. (Ref: Para. A2-A6)

Written Representations about Management’s Responsibilities

Preparation of the Financial Statements

9. The auditor shall request management to provide a written representation that it has fulfilled its responsibility for the preparation of the financial statements in accordance with the applicable financial reporting framework, including where relevant their fair presentation, as set out in the terms of the audit engagement.² (Ref: Para. A7-A9, A14, A22)

Information Provided and Completeness of Transactions

10. The auditor shall request management to provide a written representation that:

(a) It has provided the auditor with all relevant information and access as agreed in the terms of the audit engagement,³ and

(b) All transactions have been recorded and are reflected in the financial statements. (Ref: Para. A7-A9, A14, A22)

Description of Management’s Responsibilities in the Written Representations

11. Management’s responsibilities shall be described in the written representations required by paragraphs 9 and 10 in the manner in which these responsibilities are described in the terms of the audit engagement.

Other Written Representations

12. Other SAs require the auditor to request written representations. If, in addition to such required representations, the auditor determines that it is necessary to obtain one or more written representations to support other audit evidence relevant to the financial statements or one or more specific assertions in the financial statements, the auditor shall request such other written representations. (Ref: Para. A10-A13, A14, A22)

Date of and Period(s) Covered by Written Representations

13. The date of the written representations shall be as near as practicable to, but not after, the date of the auditor’s report on the financial statements. The written representations shall be for all financial statements and period(s) referred to in the auditor’s report. (Ref: Para. A15-A18)

Form of Written Representations

² SA 210, “Agreeing the Terms of Audit Engagements,” paragraph 6(b)(i)
³ SA 210, “Agreeing the Terms of Audit Engagements,” paragraph 6(b)(iii).
14. The written representations shall be in the form of a representation letter addressed to the auditor. If law or regulation requires management to make written public statements about its responsibilities, and the auditor determines that such statements provide some or all of the representations required by paragraphs 9 or 10, the relevant matters covered by such statements need not be included in the representation letter. (Ref: Para. A19-A21)

**Doubt as to the Reliability of Written Representations and Requested Written Representations Not Provided**

**Doubt as to the Reliability of Written Representations**

15. If the auditor has concerns about the competence, integrity, ethical values or diligence of management, or about its commitment to or enforcement of these, the auditor shall determine the effect that such concerns may have on the reliability of representations (oral or written) and audit evidence in general. (Ref: Para. A24-A25)

16. In particular, if written representations are inconsistent with other audit evidence, the auditor shall perform audit procedures to attempt to resolve the matter. If the matter remains unresolved, the auditor shall reconsider the assessment of the competence, integrity, ethical values or diligence of management, or of its commitment to or enforcement of these, and shall determine the effect that this may have on the reliability of representations (oral or written) and audit evidence in general. (Ref: Para. A23)

17. If the auditor concludes that the written representations are not reliable, the auditor shall take appropriate actions, including determining the possible effect on the opinion in the auditor’s report in accordance with SA 705, having regard to the requirement in paragraph 19 of this SA.

**Requested Written Representations Not Provided**

18. If management does not provide one or more of the requested written representations, the auditor shall:

   (a) Discuss the matter with management;

   (b) Re-evaluate the integrity of management and evaluate the effect that this may have on the reliability of representations (oral or written) and audit evidence in general; and

   (c) Take appropriate actions, including determining the possible effect on the opinion in the auditor’s report in accordance with SA 705, having regard to the requirement in paragraph 19 of this SA.

**Written Representations about Management’s Responsibilities**

19. The auditor shall disclaim an opinion on the financial statements in accordance with SA 705 if: (Ref: Para. A26-A27)

   (a) The auditor concludes that there is sufficient doubt about the integrity of management such that the written representations required by paragraphs 9 and 10 are not reliable; or

   (b) Management does not provide the written representations required by paragraphs 9 and 10.

**Application and Other Explanatory Material**

**Written Representations as Audit Evidence** (Ref: Para. 2)

A1. Written representations are an important source of audit evidence. If management modifies or does not provide the requested written representations, it may alert the auditor to the possibility that one or more significant issues may exist. Further, a request for written, rather than oral, representations in many cases

---

4 SA 705, “Modifications to the Opinion in the Independent Auditor’s Report”.

© The Institute of Chartered Accountants of India
may prompt management to consider such matters more rigorously, thereby enhancing the quality of the representations.

Management from Whom Written Representations Requested (Ref: Para. 8)

A2. Written representations are requested from those responsible for the preparation and presentation of the financial statements. Those individuals may vary depending on the governance structure of the entity, and relevant law or regulation; however, management (rather than those charged with governance) is often the responsible party. Written representations may therefore be requested from the entity’s chief executive officer and chief financial officer, or other equivalent persons in entities that do not use such titles. In some circumstances, however, other parties, such as those charged with governance, are also responsible for the preparation and presentation of the financial statements.

A3. Due to its responsibility for the preparation and presentation of the financial statements, and its responsibilities for the conduct of the entity’s business, management would be expected to have sufficient knowledge of the process followed by the entity in preparing and presenting the financial statements and the assertions therein on which to base the written representations.

A4. In some cases, however, management may decide to make inquiries of others who participate in preparing and presenting the financial statements and assertions therein, including individuals who have specialized knowledge relating to the matters about which written representations are requested. Such individuals may include:

- An actuary responsible for actuarially determined accounting measurements.
- Staff engineers who may have responsibility for and specialized knowledge about environmental liability measurements.
- Internal counsel who may provide information essential to provisions for legal claims.

A5. In some cases, management may include in the written representations qualifying language to the effect that representations are made to the best of its knowledge and belief. It is reasonable for the auditor to accept such wording if the auditor is satisfied that the representations are being made by those with appropriate responsibilities and knowledge of the matters included in the representations.

A6. To reinforce the need for management to make informed representations, the auditor may request that management include in the written representations, confirmation that it has made such inquiries as it considered appropriate to place it in the position to be able to make the requested written representations. It is not expected that such inquiries would usually require a formal internal process beyond those already established by the entity.

Written Representations about Management’s Responsibilities (Ref: Para. 9-10)

A7. Audit evidence obtained during the audit that management has fulfilled the responsibilities referred to in paragraphs 10 and 11 is not sufficient without obtaining confirmation from management that it believes that it has fulfilled those responsibilities. This is because the auditor is not able to judge solely on other audit evidence whether management has prepared and presented the financial statements and provided information to the auditor on the basis of the agreed acknowledgement and understanding of its responsibilities. For example, the auditor could not conclude that management has provided the auditor with all relevant information agreed in the terms of the audit engagement without asking it whether, and receiving confirmation that, such information has been provided.

A8. The written representations required by paragraphs 9 and 10 draw on the agreed acknowledgement and understanding of management of its responsibilities in the terms of the audit engagement by requesting confirmation that it has fulfilled them. The auditor may also ask management to reconfirm its
acknowledgement and understanding of those responsibilities in written representations. This is particularly appropriate when:

- Those who signed the terms of the audit engagement on behalf of the entity no longer have the relevant responsibilities;
- The terms of the audit engagement were prepared in a previous year;
- There is any indication that management misunderstands those responsibilities; or
- Changes in circumstances make it appropriate to do so.

Consistent with the requirement of SA 210, such reconfirmation of management’s acknowledgement and understanding of its responsibilities is not made subject to the best of management’s knowledge and belief (as discussed in paragraph A5 of this SA).

A9. The mandates for audits of the financial statements of certain entities may be broader than those of other entities. As a result, the premise, relating to management’s responsibilities, on which an audit of the financial statements of such an entity is conducted may give rise to additional written representations. These may include written representations confirming that transactions and events have been carried out in accordance with legislation or proper authority.

Other Written Representations (Ref: Para. 12)

Additional Written Representations about the Financial Statements

A10. In addition to the written representation required by paragraph 9, the auditor may consider it necessary to request other written representations about the financial statements. Such written representations may supplement, but do not form part of, the written representation required by paragraph 9. They may include representations about the following:

- Whether the selection and application of accounting policies are appropriate; and
- Whether matters such as the following, where relevant under the applicable financial reporting framework, have been recognized, measured, presented or disclosed in accordance with that framework:
  - Plans or intentions that may affect the carrying value or classification of assets and liabilities;
  - Liabilities, both actual and contingent;
  - Title to, or control over, assets, the liens or encumbrances on assets, and assets pledged as collateral; and
  - Aspects of laws, regulations and contractual agreements that may affect the financial statements, including non-compliance.

Additional Written Representations about Information Provided to the Auditor

A11. In addition to the written representation required by paragraph 10, the auditor may consider it necessary to request management to provide a written representation that it has communicated to the auditor all deficiencies in internal control of which management is aware.

Written Representations about Specific Assertions

---

5 SA 210, “Agreeing the Terms of Audit Engagements,” paragraph 6(b).
A12. When obtaining evidence about, or evaluating, judgments and intentions, the auditor may consider one or more of the following:

- The entity’s past history in carrying out its stated intentions.
- The entity’s reasons for choosing a particular course of action.
- The entity’s ability to pursue a specific course of action.
- The existence or lack of any other information that might have been obtained during the course of the audit that may be inconsistent with management’s judgment or intent.

A13. In addition, the auditor may consider it necessary to request management to provide written representations about specific assertions in the financial statements; in particular, to support an understanding that the auditor has obtained from other audit evidence of management’s judgment or intent in relation to, or the completeness of, a specific assertion. For example, if the intent of management is important to the valuation basis for investments, it may not be possible to obtain sufficient appropriate audit evidence without a written representation from management about its intentions. Although such written representations provide necessary audit evidence, they do not provide sufficient appropriate audit evidence on their own for that assertion.

**Communicating a Threshold Amount** (Ref: Para. 9-10, 12)

A14. SA 450 requires the auditor to accumulate misstatements identified during the audit, other than those that are clearly trivial. The auditor may determine a threshold above which misstatements cannot be regarded as clearly trivial. In the same way, the auditor may consider communicating to management a threshold for purposes of the requested written representations.

**Date of and Period(s) Covered by Written Representations** (Ref: Para. 13)

A15. Because written representations are necessary audit evidence, the auditor’s opinion cannot be expressed, and the auditor’s report cannot be dated, before the date of the written representations. Furthermore, because the auditor is concerned with events occurring up to the date of the auditor’s report that may require adjustment to or disclosure in the financial statements, the written representations are dated as near as practicable to, but not after, the date of the auditor’s report on the financial statements.

A16. In some circumstances it may be appropriate for the auditor to obtain a written representation about a specific assertion in the financial statements during the course of the audit. Where this is the case, it may be necessary to request an updated written representation.

A17. The written representations are for all periods referred to in the auditor’s report because management needs to reaffirm that the written representations it previously made with respect to the prior periods remain appropriate. The auditor and management may agree to a form of written representation that updates written representations relating to the prior periods by addressing whether there are any changes to such written representations and, if so, what they are.

A18. Situations may arise where current management were not present during all periods referred to in the auditor’s report. Such persons may assert that they are not in a position to provide some or all of the written representations because they were not in place during the period. This fact, however, does not diminish such persons’ responsibilities for the financial statements as a whole. Accordingly, the requirement for the auditor to request from them written representations that cover the whole of the relevant period(s) still applies.

---

6 SA 450, “Evaluation of Misstatements Identified during the Audit”, paragraph 5.
Form of Written Representations (Ref: Para. 14)

A19. Written representations are required to be included in a representation letter addressed to the auditor. Some laws or regulations may, however, require management to make a written public statement about its responsibilities. Although such statement is a representation to the users of the financial statements, or to relevant authorities, the auditor may determine that it is an appropriate form of written representation in respect of some or all of the representations required by paragraph 9 or 10. Consequently, the relevant matters covered by such statement need not be included in the representation letter. Factors that may affect the auditor’s determination include:

- Whether the statement includes confirmation of the fulfillment of the responsibilities referred to in paragraphs 10 and 11.
- Whether the statement has been given or approved by those from whom the auditor requests the relevant written representations.
- Whether a copy of the statement is provided to the auditor as near as practicable to, but not after, the date of the auditor’s report on the financial statements (see paragraph 13).

A20. A formal statement of compliance with law or regulation, or of approval of the financial statements, would not contain sufficient information for the auditor to be satisfied that all necessary representations have been consciously made. The expression of management’s responsibilities in law or regulation is also not a substitute for the requested written representations.

A21. The Appendix to this Standard provides an illustrative example of a representation letter.

Communication with Those Charged with Governance (Ref: Para. 9-10, 12)

A22. SA 260 requires the auditor to communicate with those charged with governance the written representations which the auditor has requested from management.

Doubt as to the Reliability of Written Representations and Requested Written Representations Not Provided

Doubt as to the Reliability of Written Representations (Ref: Para. 15-16)

A23. In the case of identified inconsistencies between one or more written representations and audit evidence obtained from another source, the auditor may consider whether the risk assessment remains appropriate and, if not, revise the risk assessment and determine the nature, timing and extent of further audit procedures to respond to the assessed risks.

A24. Concerns about the competence, integrity, ethical values or diligence of management, or about its commitment to or enforcement of these, may cause the auditor to conclude that the risk of management misrepresentation in the financial statements is such that an audit cannot be conducted. In such a case, the auditor may consider, where possible, withdrawing from the engagement, unless those charged with governance put in place appropriate corrective measures. Such measures, however, may not be sufficient to enable the auditor to issue an unmodified audit opinion.

A25. SA 230 requires the auditor to document significant matters arising during the audit, the conclusions reached thereon, and significant professional judgments made in reaching those conclusions. The auditor may have identified significant issues relating to the competence, integrity, ethical values or diligence of management, or about its commitment to or enforcement of these, but concluded that the written

---

7 SA 260, “Communication with Those Charged with Governance”, paragraph 12(c)(ii).
representations are nevertheless reliable. In such a case, this significant matter is documented in accordance with SA 230.

**Written Representations about Management’s Responsibilities** (Ref: Para. 19)

A26. As explained in paragraph A7, the auditor is not able to judge solely on other audit evidence whether management has fulfilled the responsibilities referred to in paragraphs 10 and 11. Therefore, if, as described in paragraph 19(a), the auditor concludes that the written representations about these matters are unreliable, or if management does not provide those written representations, the auditor is unable to obtain sufficient appropriate audit evidence. The possible effects on the financial statements of such inability are not confined to specific elements, accounts or items of the financial statements and are hence pervasive. SA 705 requires the auditor to disclaim an opinion on the financial statements in such circumstances.9

A27. A written representation that has been modified from that requested by the auditor does not necessarily mean that management did not provide the written representation. However, the underlying reason for such modification may affect the opinion in the auditor’s report. For example:

- The written representation about management’s fulfillment of its responsibility for the preparation and presentation of the financial statements may state that management believes that, except for material non-compliance with a particular requirement of the applicable financial reporting framework, the financial statements are prepared and presented in accordance with that framework. The requirement in paragraph 19 does not apply because the auditor concluded that management has provided reliable written representations. However, the auditor is required to consider the effect of the non-compliance on the opinion in the auditor’s report in accordance with SA 705.

- The written representation about the responsibility of management to provide the auditor with all relevant information agreed in the terms of the audit engagement may state that management believes that, except for information destroyed in a fire, it has provided the auditor with such information. The requirement in paragraph 19 does not apply because the auditor concluded that management has provided reliable written representations. However, the auditor is required to consider the effects of the pervasiveness of the information destroyed in the fire on the financial statements and the effect thereof on the opinion in the auditor’s report in accordance with SA 705.

**Material Modifications to ISA 580, “Written Representations”**

**Deletions**

Paragraph A9 of the Application Section of ISA 580 deals with the application of the requirements of ISA 580 to the audits of public sector entities regarding the premise, relating to management’s responsibilities which may give rise to additional written representations. Since as mentioned in the “Preface to the Standards on Quality Control, Auditing, Review, Other Assurance and Related Services”, the Standards issued by the Auditing and Assurance Standards Board, apply equally to all entities, irrespective of their form, nature and size, a specific reference to applicability of the Standard to public sector entities has been deleted.

Since it is also possible that even in case of non public sector entities, management responsibilities may give rise to additional representations, accordingly, the spirit of erstwhile A9, highlighting the fact that in case of certain entities, the need of additional representations may arise, has been retained.

9 SA 705, paragraph 9.
Appendix
(Ref: Para. A23)

Illustrative Representation Letter

The following illustrative letter includes written representations that are required by this and other SAs in effect for audits of financial statements for period beginning on or after as at [date]. It is assumed in this illustration that the applicable financial reporting framework is applicable accounting standards in India; the requirement of SA 570 to obtain a written representation is not relevant; and that there are no exceptions to the requested written representations. If there were exceptions, the representations would need to be modified to reflect the exceptions.

(To Auditor)  (Date)

This representation letter is provided in connection with your audit of the financial statements of ABC Company for the year ended March 31, 20XX for the purpose of expressing an opinion as to whether the financial statements are presented fairly, in all material respects, (or give a true and fair view) in accordance with the applicable accounting standards in India.

We confirm that (to the best of our knowledge and belief, having made such inquiries as we considered necessary for the purpose of appropriately informing ourselves):

Financial Statements

• We have fulfilled our responsibilities, as set out in the terms of the audit engagement dated [insert date], for the preparation of the financial statements in accordance with Financial Reporting Standards; in particular the financial statements are fairly presented (or give a true and fair view) in accordance with the applicable accounting standards in India.

• Significant assumptions used by us in making accounting estimates, including those measured at fair value, are reasonable. (SA 540)

• Related party relationships and transactions have been appropriately accounted for and disclosed in accordance with the requirements of applicable accounting standards in India. (SA 550)

• All events subsequent to the date of the financial statements and for which applicable accounting standards in India require adjustment or disclosure have been adjusted or disclosed. (SA 560)

• The effects of uncorrected misstatements are immaterial, both individually and in the aggregate, to the financial statements as a whole. A list of the uncorrected misstatements is attached to the representation letter. (SA 450)

• [Any other matters that the auditor may consider appropriate (see paragraph A10 of this SA).]

Information Provided

• We have provided you with:

---

10 SA 570, “Going Concern”.
11 Where the auditor reports on more than one period, the auditor adjusts the date so that the letter pertains to all periods covered by the auditor’s report.
12 SA 550, “Related Parties”.

© The Institute of Chartered Accountants of India
Access to all information of which we are aware that is relevant to the preparation of the financial statements such as records, documentation and other matters;

Additional information that you have requested from us for the purpose of the audit; and

Unrestricted access to persons within the entity from whom you determined it necessary to obtain audit evidence.

• All transactions have been recorded in the accounting records and are reflected in the financial statements.

• We have disclosed to you the results of our assessment of the risk that the financial statements may be materially misstated as a result of fraud. (SA 240).

• We have disclosed to you all information in relation to fraud or suspected fraud that we are aware of and that affects the entity and involves:
  o Management;
  o Employees who have significant roles in internal control; or
  o Others where the fraud could have a material effect on the financial statements. (SA 240)

• We have disclosed to you all information in relation to allegations of fraud, or suspected fraud, affecting the entity’s financial statements communicated by employees, former employees, analysts, regulators or others. (SA 240)

• We have disclosed to you all known instances of non-compliance or suspected non-compliance with laws and regulations whose effects should be considered when preparing financial statements. (SA 250)

• We have disclosed to you the identity of the entity’s related parties and all the related party relationships and transactions of which we are aware. (SA 550)

• [Any other matters that the auditor may consider necessary (see paragraph A11 of this SA).]
Introduction

Scope of this SA

1. This Standard on Auditing (SA) deals with the external auditor’s responsibilities if using the work of internal auditors. This includes (a) using the work of the internal audit function in obtaining audit evidence and (b) using internal auditors to provide direct assistance under the direction, supervision and review of the external auditor.

2. This SA does not apply if the entity does not have an internal audit function. (Ref: Para. A2)

3. If the entity has an internal audit function, the requirements in this SA relating to using the work of that function do not apply if:
   (a) The responsibilities and activities of the function are not relevant to the audit; or
   (b) Based on the auditor’s preliminary understanding of the function obtained as a result of procedures performed under SA 315, the external auditor does not expect to use the work of the function in obtaining audit evidence.

   Nothing in this SA requires the external auditor to use the work of the internal audit function to modify the nature or timing, or reduce the extent, of audit procedures to be performed directly by the external auditor; it remains a decision of the external auditor in establishing the overall audit strategy.

4. Furthermore, the requirements in this SA relating to direct assistance do not apply if the external auditor does not plan to use internal auditors to provide direct assistance.

5. In some cases, the external auditor may be prohibited, or restricted to some extent, by law or regulation from using the work of the internal audit function or using internal auditors to provide direct assistance. The SAs do not override laws or regulations that govern an audit of financial statements. Such prohibitions or restrictions will therefore not prevent the external auditor from complying with the SAs. (Ref: Para. A31)
Relationship between SA 315 and SA 610 (Revised)

6. Many entities establish internal audit functions as part of their internal control and governance structures. The objectives and scope of an internal audit function, the nature of its responsibilities and its organizational status, including the function's authority and accountability, vary widely and depend on the size and structure of the entity and the requirements of management and, where applicable, those charged with governance.

7. SA 315 addresses how the knowledge and experience of the internal audit function can inform the external auditor’s understanding of the entity and its environment and identification and assessment of risks of material misstatement. SA 315\(^3\) also explains how effective communication between the internal and external auditors also creates an environment in which the external auditor can be informed of significant matters that may affect the external auditor’s work.

8. Depending on whether the internal audit function’s organizational status and relevant policies and procedures adequately support the objectivity of the internal auditors, the level of competency of the internal audit function, and whether the function applies a systematic and disciplined approach, the external auditor may also be able to use the work of the internal audit function in a constructive and complementary manner. This SA addresses the external auditor’s responsibilities when, based on the external auditor’s preliminary understanding of the internal audit function obtained as a result of procedures performed under SA 315, the external auditor expects to use the work of the internal audit function as part of the audit evidence obtained\(^4\). Such use of that work modifies the nature or timing, or reduces the extent, of audit procedures to be performed directly by the external auditor.

9. In addition, this SA also addresses the external auditor’s responsibilities if considering using internal auditors to provide direct assistance under the direction, supervision and review of the external auditor.

10. There may be individuals in an entity that perform procedures similar to those performed by an internal audit function. However, unless performed by an objective and competent function that applies a systematic and disciplined approach, including quality control, such procedures would be considered internal controls and obtaining evidence regarding the effectiveness of such controls would be part of the auditor’s responses to assessed risks in accordance with SA 330\(^5\).

The External Auditor’s Responsibility for the Audit

11. The external auditor has sole responsibility for the audit opinion expressed, and that responsibility is not reduced by the external auditor’s use of the work of the internal audit function or internal auditors to provide direct assistance on the engagement. Although they may perform audit procedures similar to those performed by the external auditor, neither the internal audit function nor the internal auditors are independent of the entity as is required of the external auditor in an audit of financial statements in accordance with SA 200\(^6\). This SA, therefore, defines the conditions that are necessary for the external auditor to be able to use the work of internal auditors. It also defines the necessary work effort to obtain sufficient appropriate evidence that the work of the internal audit function, or internal auditors providing direct assistance, is adequate for the purposes of the audit.

---

\(^3\) Please see the conforming amendments to Revised SA 315, Identifying and Assessing the Risks of Material Misstatement through Understanding the Entity and Its Environment, arising pursuant to issuance of this SA 610 (Revised). These are given at the end of the document. (Para A116 of SA 315 in those conforming amendments)

\(^4\) See paragraphs 15–25

\(^5\) SA 330, The Auditor’s Responses to Assessed Risks.

\(^6\) SA 200, paragraph 14.
The requirements are designed to provide a framework for the external auditor’s judgments regarding the use of the work of internal auditors to prevent over or undue use of such work.

**Effective Date**

12. This SA is effective for audits of financial statements for periods beginning on or after 01st April, 2016.

**Objectives**

13. The objectives of the external auditor, where the entity has an internal audit function and the external auditor expects to use the work of the function to modify the nature or timing, or reduce the extent, of audit procedures to be performed directly by the external auditor, or to use internal auditors to provide direct assistance, are:

(a) To determine whether the work of the internal audit function or direct assistance from internal auditors can be used, and if so, in which areas and to what extent; and having made that determination:

(b) If using the work of the internal audit function, to determine whether that work is adequate for purposes of the audit; and

(c) If using internal auditors to provide direct assistance, to appropriately direct, supervise and review their work.

**Definitions**

14. For purposes of the SAs, the following terms have the meanings attributed below:

(a) Internal audit function – A function of an entity that performs assurance and consulting activities designed to evaluate and improve the effectiveness of the entity’s governance, risk management and internal control processes. (Ref: Para. A1–A4)

(b) Direct assistance – The use of internal auditors to perform audit procedures under the direction, supervision and review of the external auditor.

**Requirements**

**Determining Whether, in Which Areas, and to What Extent the Work of the Internal Audit Function Can Be Used**

**Evaluating the Internal Audit Function**

15. The external auditor shall determine whether the work of the internal audit function can be used for purposes of the audit by evaluating the following:

(a) The extent to which the internal audit function’s organizational status and relevant policies and procedures support the objectivity of the internal auditors; (Ref: Para. A5–A9)

(b) The level of competence of the internal audit function; and (Ref: Para. A5–A9)

(c) Whether the internal audit function applies a systematic and disciplined approach, including quality control. (Ref: Para. A10–A11)

16. The external auditor shall not use the work of the internal audit function if the external auditor determines that:

(a) The function’s organizational status and relevant policies and procedures do not adequately support the objectivity of internal auditors;
(b) The function lacks sufficient competence; or
(c) The function does not apply a systematic and disciplined approach, including quality control. (Ref: Para. A12–A14)

**Determining the Nature and Extent of Work of the Internal Audit Function that Can Be Used**

17. As a basis for determining the areas and the extent to which the work of the internal audit function can be used, the external auditor shall consider the nature and scope of the work that has been performed, or is planned to be performed, by the internal audit function and its relevance to the external auditor's overall audit strategy and audit plan. (Ref: Para. A15–A17)

18. The external auditor shall make all significant judgments in the audit engagement and, to prevent undue use of the work of the internal audit function, shall plan to use less of the work of the function and perform more of the work directly: (Ref: Para. A15–A17)
   (a) The more judgment is involved in:
      (i) Planning and performing relevant audit procedures; and
      (ii) Evaluating the audit evidence gathered; (Ref: Para. A18–A19)
   (b) The higher the assessed risk of material misstatement at the assertion level, with special consideration given to risks identified as significant; (Ref: Para. A20–A22)
   (c) The less the internal audit function's organizational status and relevant policies and procedures adequately support the objectivity of the internal auditors; and
   (d) The lower the level of competence of the internal audit function.

19. The external auditor shall also evaluate whether, in aggregate, using the work of the internal audit function to the extent planned would still result in the external auditor being sufficiently involved in the audit, given the external auditor's sole responsibility for the audit opinion expressed. (Ref: Para. A15–A22)

20. The external auditor shall, in communicating with those charged with governance an overview of the planned scope and timing of the audit in accordance with SA 2607, communicate how the external auditor has planned to use the work of the internal audit function. (Ref: Para. A23)

**Using the Work of the Internal Audit Function**

21. If the external auditor plans to use the work of the internal audit function, the external auditor shall discuss the planned use of its work with the function as a basis for coordinating their respective activities. (Ref: Para. A24–A26)

22. The external auditor shall read the reports of the internal audit function relating to the work of the function that the external auditor plans to use to obtain an understanding of the nature and extent of audit procedures it performed and the related findings.

23. The external auditor shall perform sufficient audit procedures on the body of work of the internal audit function as a whole that the external auditor plans to use to determine its adequacy for purposes of the audit, including evaluating whether:

---

7 SA 260, Communication with Those Charged with Governance, paragraph 11.
(a) The work of the function had been properly planned, performed, supervised, reviewed and documented;
(b) Sufficient appropriate evidence had been obtained to enable the function to draw reasonable conclusions; and
(c) Conclusions reached are appropriate in the circumstances and the reports prepared by the function are consistent with the results of the work performed. (Ref: Para. A27–A30)

24. The nature and extent of the external auditor’s audit procedures shall be responsive to the external auditor’s evaluation of:
(a) The amount of judgment involved;
(b) The assessed risk of material misstatement;
(c) The extent to which the internal audit function’s organizational status and relevant policies and procedures support the objectivity of the internal auditors; and
(d) The level of competence of the function;8 (Ref: Para. A27–A29) and shall include reperformance of some of the work. (Ref: Para. A30)

25. The external auditor shall also evaluate whether the external auditor’s conclusions regarding the internal audit function in paragraph 15 of this SA and the determination of the nature and extent of use of the work of the function for purposes of the audit in paragraphs 18–19 of this SA remain appropriate.

Determining Whether, in Which Areas, and to What Extent Internal Auditors Can Be Used to Provide Direct Assistance

Determining Whether Internal Auditors Can Be Used to Provide Direct Assistance for Purposes of the Audit

26. The external auditor may be prohibited by law or regulation from obtaining direct assistance from internal auditors. If so, paragraphs 27–35 and 37 do not apply. (Ref: Para. A31)

27. If using internal auditors to provide direct assistance is not prohibited by law or regulation, and the external auditor plans to use internal auditors to provide direct assistance on the audit, the external auditor shall evaluate the existence and significance of threats to objectivity and the level of competence of the internal auditors who will be providing such assistance. The external auditor’s evaluation of the existence and significance of threats to the internal auditors’ objectivity shall include inquiry of the internal auditors regarding interests and relationships that may create a threat to their objectivity. (Ref: Para. A32–A34)

28. The external auditor shall not use an internal auditor to provide direct assistance if:
(a) There are significant threats to the objectivity of the internal auditor; or
(b) The internal auditor lacks sufficient competence to perform the proposed work. (Ref: Para. A32–A34)

Determining the Nature and Extent of Work that Can Be Assigned to Internal Auditors Providing Direct Assistance

29. In determining the nature and extent of work that may be assigned to internal auditors and the nature, timing and extent of direction, supervision and review that is appropriate in the circumstances, the external auditor shall consider:

8 See paragraph 18.
(a) The amount of judgment involved in:
   (i) Planning and performing relevant audit procedures; and
   (ii) Evaluating the audit evidence gathered;
(b) The assessed risk of material misstatement; and
(c) The external auditor’s evaluation of the existence and significance of threats to the objectivity and level
of competence of the internal auditors who will be providing such assistance. (Ref: Para. A35–A39)

30. The external auditor shall not use internal auditors to provide direct assistance to perform procedures
that:
(a) Involve making significant judgments in the audit; (Ref: Para. A19)
(b) Relate to higher assessed risks of material misstatement where the judgment required in performing the
relevant audit procedures or evaluating the audit evidence gathered is more than limited; (Ref: Para.
A38)
(c) Relate to work with which the internal auditors have been involved and which has already been, or will
be, reported to management or those charged with governance by the internal audit function; or
(d) Relate to decisions the external auditor makes in accordance with this SA regarding the internal audit
function and the use of its work or direct assistance. (Ref: Para. A35–A39)

31. Having appropriately evaluated whether and, if so, to what extent internal auditors can be used to provide
direct assistance on the audit, the external auditor shall, in communicating with those charged with governance
an overview of the planned scope and timing of the audit in accordance with SA 260, communicate the nature
and extent of the planned use of internal auditors to provide direct assistance so as to reach a mutual
understanding that such use is not excessive in the circumstances of the engagement. (Ref: Para. A39)

32. The external auditor shall evaluate whether, in aggregate, using internal auditors to provide direct
assistance to the extent planned, together with the planned use of the work of the internal audit function, would
still result in the external auditor being sufficiently involved in the audit, given the external auditor’s sole
responsibility for the audit opinion expressed.

Using Internal Auditors to Provide Direct Assistance

33. Prior to using internal auditors to provide direct assistance for purposes of the audit, the external auditor
shall:
(a) Obtain written agreement from an authorized representative of the entity that the internal auditors will be
allowed to follow the external auditor’s instructions, and that the entity will not intervene in the work the
internal auditor performs for the external auditor; and
(b) Obtain written agreement from the internal auditors that they will keep confidential specific matters as
instructed by the external auditor and inform the external auditor of any threat to their objectivity.

34. The external auditor shall direct, supervise and review the work performed by internal auditors on the
engagement in accordance with SA 220. In so doing:
(a) The nature, timing and extent of direction, supervision, and review shall recognize that the internal
auditors are not independent of the entity and be responsive to the outcome of the evaluation of the

9 SA 260, paragraph 11.
10 SA 220, Quality Control for an Audit of Financial Statements.
factors in paragraph 29 of this SA; and

(b) The review procedures shall include the external auditor checking back to the underlying audit evidence for some of the work performed by the internal auditors.

The direction, supervision and review by the external auditor of the work performed by the internal auditors shall be sufficient in order for the external auditor to be satisfied that the internal auditors have obtained sufficient appropriate audit evidence to support the conclusions based on that work. (Ref: Para. A40–A41)

35. In directing, supervising and reviewing the work performed by internal auditors, the external auditor shall remain alert for indications that the external auditor’s evaluations in paragraph 27 are no longer appropriate.

Documentation

36. If the external auditor uses the work of the internal audit function, the external auditor shall include in the audit documentation:

(a) The evaluation of:
   (i) Whether the function’s organizational status and relevant policies and procedures adequately support the objectivity of the internal auditors;
   (ii) The level of competence of the function; and
   (iii) Whether the function applies a systematic and disciplined approach, including quality control;

(b) The nature and extent of the work used and the basis for that decision; and

(c) The audit procedures performed by the external auditor to evaluate the adequacy of the work used.

37. If the external auditor uses internal auditors to provide direct assistance on the audit, the external auditor shall include in the audit documentation:

(a) The evaluation of the existence and significance of threats to the objectivity of the internal auditors, and the level of competence of the internal auditors used to provide direct assistance;

(b) The basis for the decision regarding the nature and extent of the work performed by the internal auditors;

(c) Who reviewed the work performed and the date and extent of that review in accordance with SA 23011;

(d) The written agreements obtained from an authorized representative of the entity and the internal auditors under paragraph 33 of this SA; and

(e) The working papers prepared by the internal auditors who provided direct assistance on the audit engagement.

Application and Other Explanatory Material

Definition of Internal Audit Function (Ref: Para. 2, 14(a))

A1. The objectives and scope of internal audit functions typically include assurance and consulting activities designed to evaluate and improve the effectiveness of the entity’s governance processes, risk management and internal control such as the following:

© The Institute of Chartered Accountants of India
Activities Relating to Governance

- The internal audit function may assess the governance process in its accomplishment of objectives on ethics and values, performance management and accountability, communicating risk and control information to appropriate areas of the organization and effectiveness of communication among those charged with governance, external and internal auditors, and management.

Activities Relating to Risk Management

- The internal audit function may assist the entity by identifying and evaluating significant exposures to risk and contributing to the improvement of risk management and internal control (including effectiveness of the financial reporting process).
- The internal audit function may perform procedures to assist the entity in the detection of fraud.

Activities Relating to Internal Control

- Evaluation of internal control. The internal audit function may be assigned specific responsibility for reviewing controls, evaluating their operation and recommending improvements thereto. In doing so, the internal audit function provides assurance on the control. For example, the internal audit function might plan and perform tests or other procedures to provide assurance to management and those charged with governance regarding the design, implementation and operating effectiveness of internal control, including those controls that are relevant to the audit.
- Examination of financial and operating information. The internal audit function may be assigned to review the means used to identify, recognize, measure, classify and report financial and operating information, and to make specific inquiry into individual items, including detailed testing of transactions, balances and procedures.
- Review of operating activities. The internal audit function may be assigned to review the economy, efficiency and effectiveness of operating activities, including non-financial activities of an entity.
- Review of compliance with laws and regulations. The internal audit function may be assigned to review compliance with laws, regulations and other external requirements, and with management policies and directives and other internal requirements.

A2. Activities similar to those performed by an internal audit function may be conducted by functions with other titles within an entity. Some or all of the activities of an internal audit function may also be outsourced to a third-party service provider. Neither the title of the function, nor whether it is performed by the entity or a third-party service provider, are sole determinants of whether or not the external auditor can use the work of the function. Rather, it is the nature of the activities; the extent to which the internal audit function’s organizational status and relevant policies and procedures support the objectivity of the internal auditors; competence; and systematic and disciplined approach of the function that are relevant. References in this SA to the work of the internal audit function include relevant activities of other functions or third-party providers that have these characteristics.

A3. In addition, those in the entity with operational and managerial duties and responsibilities outside of the internal audit function would ordinarily face threats to their objectivity that would preclude them from being treated as part of an internal audit function for the purpose of this SA, although they may perform control
activities that can be tested in accordance with SA 330\(^\text{12}\). For this reason, monitoring controls performed by an owner-manager would not be considered equivalent to an internal audit function.

A4. While the objectives of an entity’s internal audit function and the external auditor differ, the function may perform audit procedures similar to those performed by the external auditor in an audit of financial statements. If so, the external auditor may make use of the function for purposes of the audit in one or more of the following ways:

- To obtain information that is relevant to the external auditor’s assessments of the risks of material misstatement due to error or fraud. In this regard, SA 315\(^\text{13}\) requires the external auditor to obtain an understanding of the nature of the internal audit function’s responsibilities, its status within the organization, and the activities performed, or to be performed, and make inquiries of appropriate individuals within the internal audit function (if the entity has such a function); or
- Unless prohibited, or restricted to some extent, by law or regulation, the external auditor, after appropriate evaluation, may decide to use work that has been performed by the internal audit function during the period in partial substitution for audit evidence to be obtained directly by the external auditor\(^\text{14}\).\(^\text{14}\)

In addition, unless prohibited, or restricted to some extent, by law or regulation, the external auditor may use internal auditors to perform audit procedures under the direction, supervision and review of the external auditor (referred to as “direct assistance” in this SA)\(^\text{15}\)\(^\text{15}\).

Determining Whether, in Which Areas, and to What Extent the Work of the Internal Audit Function Can Be Used

**Evaluating the Internal Audit Function**

*Objectivity and Competence (Ref: Para. 15(a)–(b))*

A5. The external auditor exercises professional judgment in determining whether the work of the internal audit function can be used for purposes of the audit, and the nature and extent to which the work of the internal audit function can be used in the circumstances.

A6. The extent to which the internal audit function’s organizational status and relevant policies and procedures support the objectivity of the internal auditors and the level of competence of the function are particularly important in determining whether to use and, if so, the nature and extent of the use of the work of the function that is appropriate in the circumstances.

A7. Objectivity refers to the ability to perform those tasks without allowing bias, conflict of interest or undue influence of others to override professional judgments. Factors that may affect the external auditor’s evaluation include the following:

- Whether the organizational status of the internal audit function, including the function’s authority and accountability, supports the ability of the function to be free from bias, conflict of interest or undue influence of others to override professional judgments. For example, whether the internal audit function

---

\(^\text{12}\) See paragraph 10.

\(^\text{13}\) Please see the conforming amendments to Revised SA 315, Identifying and Assessing the Risks of Material Misstatement through Understanding the Entity and Its Environment, arising pursuant to issuance of this SA 610 (Revised). These are given at the end of the document.(please see SA 315, paragraph 6(a) therein)

\(^\text{14}\) See paragraphs 15–25.

\(^\text{15}\) See paragraphs 26–35
reports to those charged with governance or an officer with appropriate authority, or if the function reports
to management, whether it has direct access to those charged with governance.

• Whether the internal audit function is free of any conflicting responsibilities, for example, having
managerial or operational duties or responsibilities that are outside of the internal audit function.

• Whether those charged with governance oversee employment decisions related to the internal audit
function, for example, determining the appropriate remuneration policy.

• Whether there are any constraints or restrictions placed on the internal audit function by management or
those charged with governance, for example, in communicating the internal audit function’s findings to
the external auditor.

• Whether the internal auditors are members of relevant professional bodies and their memberships
obligate their compliance with relevant professional standards relating to objectivity, or whether their
internal policies achieve the same objectives.

A8. Competence of the internal audit function refers to the attainment and maintenance of knowledge and
skills of the function as a whole at the level required to enable assigned tasks to be performed diligently and in
accordance with applicable professional standards. Factors that may affect the external auditor’s determination
include the following:

• Whether the internal audit function is adequately and appropriately resourced relative to the size of the
entity and the nature of its operations.

• Whether there are established policies for hiring, training and assigning internal auditors to internal audit
engagements.

• Whether the internal auditors have adequate technical training and proficiency in auditing. Relevant
criteria that may be considered by the external auditor in making the assessment may include, for
example, the internal auditors’ possession of a relevant professional designation and experience.

• Whether the internal auditors possess the required knowledge relating to the entity’s financial reporting
and the applicable financial reporting framework and whether the internal audit function possesses the
necessary skills (for example, industry-specific knowledge) to perform work related to the entity’s
financial statements.

• Whether the internal auditors are members of relevant professional bodies that oblige them to comply
with the relevant professional standards including continuing professional development requirements.

A9. Objectivity and competence may be viewed as a continuum. The more the internal audit function’s
organizational status and relevant policies and procedures adequately support the objectivity of the internal
auditors and the higher the level of competence of the function, the more likely the external auditor may make
use of the work of the function and in more areas. However, an organizational status and relevant policies
and procedures that provide strong support for the objectivity of the internal auditors cannot compensate for
the lack of sufficient competence of the internal audit function. Equally, a high level of competence of the
internal audit function cannot compensate for an organizational status and policies and procedures that do
not adequately support the objectivity of the internal auditors.

Application of a Systematic and Disciplined Approach (Ref: Para. 15(c))

A10. The application of a systematic and disciplined approach to planning, performing, supervising, reviewing
and documenting its activities distinguishes the activities of the internal audit function from other monitoring
control activities that may be performed within the entity.
A11. Factors that may affect the external auditor’s determination of whether the internal audit function applies a systematic and disciplined approach include the following:

- The existence, adequacy and use of documented internal audit procedures or guidance covering such areas as risk assessments, work programs, documentation and reporting, the nature and extent of which is commensurate with the size and circumstances of an entity.

- Whether the internal audit function has appropriate quality control policies and procedures, for example, such as those policies and procedures in SQC 1\(^{16}\) that would be applicable to an internal audit function (such as those relating to leadership, human resources and engagement performance) or quality control requirements in standards set by the relevant professional bodies for internal auditors. Such bodies may also establish other appropriate requirements such as conducting periodic external quality assessments.

Circumstances When Work of the Internal Audit Function Cannot Be Used (Ref: Para. 16)

A12. The external auditor’s evaluation of whether the internal audit function’s organizational status and relevant policies and procedures adequately support the objectivity of the internal auditors, the level of competence of the internal audit function, and whether it applies a systematic and disciplined approach may indicate that the risks to the quality of the work of the function are too significant and therefore it is not appropriate to use any of the work of the function as audit evidence.

A13. Consideration of the factors in paragraphs A7, A8 and A11 of this SA individually and in aggregate is important because an individual factor is often not sufficient to conclude that the work of the internal audit function cannot be used for purposes of the audit. For example, the internal audit function’s organizational status is particularly important in evaluating threats to the objectivity of the internal auditors. If the internal audit function reports to management, this would be considered a significant threat to the function’s objectivity unless other factors such as those described in paragraph A7 of this SA collectively provide sufficient safeguards to reduce the threat to an acceptable level.

A14. In addition, a self-review threat\(^{17}\) is created when the external auditor accepts an engagement to provide internal audit services to an audit client, and the results of those services will be used in conducting the audit. This is because of the possibility that the engagement team will use the results of the internal audit service without properly evaluating those results or without exercising the same level of professional skepticism as would be exercised when the internal audit work is performed by individuals who are not members of the firm. Paragraph 290.173 of the Code of Ethics, issued by the Institute of Chartered Accountants of India therefore in the context of provision of internal audit service to financial statement audit clients, specifically provides that “a statutory auditor of an entity cannot be its internal auditor as it will not be possible for him to give an independent and objective opinion”. The said Code of Ethics discusses the threats and the safeguards that can be applied to reduce the threats to an acceptable level in other circumstances.

Determining the Nature and Extent of Work of the Internal Audit Function that Can Be Used

Factors Affecting the Determination of the Nature and Extent of the Work of the Internal Audit Function that Can Be Used (Ref: Para. 17–19)

\(^{16}\) Standard on Quality Control (SQC) 1, Quality Control for Firms that Perform Audits and Reviews of Historical Financial Information, and Other Assurance and Related Services Engagements.

\(^{17}\) Attention of the members is also invited to paragraph 2.1 of the Guidance Note on Independence of Auditors, issued by the Institute of Chartered Accountants of India.
A15. Once the external auditor has determined that the work of the internal audit function can be used for purposes of the audit, a first consideration is whether the planned nature and scope of the work of the internal audit function that has been performed, or is planned to be performed, is relevant to the overall audit strategy and audit plan that the external auditor has established in accordance with SA 300. A18

A16. Examples of work of the internal audit function that can be used by the external auditor include the following:

- Testing of the operating effectiveness of controls.
- Substantive procedures involving limited judgment.
- Observations of inventory counts.
- Tracing transactions through the information system relevant to financial reporting.
- Testing of compliance with regulatory requirements.
- In some circumstances, audits or reviews of the financial information of subsidiaries that are not significant components to the group (where this does not conflict with the requirements of SA 600). A19

A17. The external auditor's determination of the planned nature and extent of use of the work of the internal audit function will be influenced by the external auditor's evaluation of the extent to which the internal audit function's organizational status and relevant policies and procedures adequately support the objectivity of the internal auditors and the level of competence of the internal audit function in paragraph 18 of this SA. In addition, the amount of judgment needed in planning, performing and evaluating such work and the assessed risk of material misstatement at the assertion level are inputs to the external auditor’s determination. Further, there are circumstances in which the external auditor cannot use the work of the internal audit function for purpose of the audit as described in paragraph 16 of this SA.

Judgments in planning and performing audit procedures and evaluating results (Ref: Para. 18(a), 30(a))

A18. The greater the judgment needed to be exercised in planning and performing the audit procedures and evaluating the audit evidence, the external auditor will need to perform more procedures directly in accordance with paragraph 18 of this SA, because using the work of the internal audit function alone will not provide the external auditor with sufficient appropriate audit evidence.

A19. Since the external auditor has sole responsibility for the audit opinion expressed, the external auditor needs to make the significant judgments in the audit engagement in accordance with paragraph 18. Significant judgments include the following:

- Assessing the risks of material misstatement;
- Evaluating the sufficiency of tests performed;
- Evaluating the appropriateness of management’s use of the going concern assumption;
- Evaluating significant accounting estimates; and
- Evaluating the adequacy of disclosures in the financial statements, and other matters affecting the auditor's report.

Assessed risk of material misstatement (Ref: Para. 18(b))

18 SA 300, Planning an Audit of Financial Statements.
19 SA 600, Using the Work of Another Auditor.
A20. For a particular account balance, class of transaction or disclosure, the higher an assessed risk of material misstatement at the assertion level, the more judgment is often involved in planning and performing the audit procedures and evaluating the results thereof. In such circumstances, the external auditor will need to perform more procedures directly in accordance with paragraph 18 of this SA, and accordingly, make less use of the work of the internal audit function in obtaining sufficient appropriate audit evidence. Furthermore, as explained in SA 200\textsuperscript{20}, the higher the assessed risks of material misstatement, the more persuasive the audit evidence required by the external auditor will need to be, and, therefore, the external auditor will need to perform more of the work directly.

A21. As explained in SA 315\textsuperscript{21}, significant risks require special audit consideration and therefore the external auditor’s ability to use the work of the internal audit function in relation to significant risks will be restricted to procedures that involve limited judgment. In addition, where the risks of material misstatement is other than low, the use of the work of the internal audit function alone is unlikely to reduce audit risk to an acceptably low level and eliminate the need for the external auditor to perform some tests directly.

A22. Carrying out procedures in accordance with this SA may cause the external auditor to reevaluate the external auditor’s assessment of the risks of material misstatement. Consequently, this may affect the external auditor’s determination of whether to use the work of the internal audit function and whether further application of this SA is necessary.

Communication with Those Charged with Governance (Ref: Para. 20)

A23. In accordance with SA 260\textsuperscript{22}, the external auditor is required to communicate with those charged with governance an overview of the planned scope and timing of the audit. The planned use of the work of the internal audit function is an integral part of the external auditor’s overall audit strategy and is therefore relevant to those charged with governance for their understanding of the proposed audit approach.

Using the Work of the Internal Audit Function

Discussion and Coordination with the Internal Audit Function (Ref: Para. 21)

A24. In discussing the planned use of their work with the internal audit function as a basis for coordinating the respective activities, it may be useful to address the following:

- The timing of such work.
- The nature of the work performed.
- The extent of audit coverage.
- Materiality for the financial statements as a whole (and, if applicable, materiality level or levels for particular classes of transactions, account balances or disclosures), and performance materiality.
- Proposed methods of item selection and sample sizes.
- Documentation of the work performed.
- Review and reporting procedures.

A25. Coordination between the external auditor and the internal audit function is effective when, for example:

\textsuperscript{20} SA 200, paragraph A29.
\textsuperscript{21} SA 315, paragraph 4(e).
\textsuperscript{22} SA 260, paragraph 11.
Discussions take place at appropriate intervals throughout the period.

The external auditor informs the internal audit function of significant matters that may affect the function.

The external auditor is advised of and has access to relevant reports of the internal audit function and is informed of any significant matters that come to the attention of the function when such matters may affect the work of the external auditor so that the external auditor is able to consider the implications of such matters for the audit engagement.

A26. SA 200[^23] discusses the importance of the auditor planning and performing the audit with professional skepticism, including being alert to information that brings into question the reliability of documents and responses to inquiries to be used as audit evidence. Accordingly, communication with the internal audit function throughout the engagement may provide opportunities for internal auditors to bring matters that may affect the work of the external auditor to the external auditor’s attention.[^24] The external auditor is then able to take such information into account in the external auditor’s identification and assessment of risks of material misstatement. In addition, if such information may be indicative of a heightened risk of a material misstatement of the financial statements or may be regarding any actual, suspected or alleged fraud, the external auditor can take this into account in the external auditor’s identification of risk of material misstatement due to fraud in accordance with SA 240[^25].

### Procedures to Determine the Adequacy of Work of the Internal Audit Function (Ref: Para. 23–24)

**A27.** The external auditor’s audit procedures on the body of work of the internal audit function as a whole that the external auditor plans to use provide a basis for evaluating the overall quality of the function’s work and the objectivity with which it has been performed.

**A28.** The procedures the external auditor may perform to evaluate the quality of the work performed and the conclusions reached by the internal audit function, in addition to reperformance in accordance with paragraph 24, include the following:

- Making inquiries of appropriate individuals within the internal audit function.
- Observing procedures performed by the internal audit function.
- Reviewing the internal audit function’s work program and working papers.

**A29.** The more judgment involved, the higher the assessed risk of material misstatement, the less the internal audit function’s organizational status and relevant policies and procedures adequately support the objectivity of the internal auditors, or the lower the level of competence of the internal audit function, the more audit procedures are needed to be performed by the external auditor on the overall body of work of the function to support the decision to use the work of the function in obtaining sufficient appropriate audit evidence on which to base the audit opinion.

**Reperformance (Ref: Para. 24)**

[^23]: SA 200, paragraphs 15 and A18.

[^24]: Please see the conforming amendments to Revised SA 315, Identifying and Assessing the Risks of Material Misstatement through Understanding the Entity and Its Environment, arising pursuant to issuance of this SA 610 (Revised). These are given at the end of the document. (please see SA 315, paragraph A116 therein).

A30. For purposes of this SA, reperformance involves the external auditor’s independent execution of procedures to validate the conclusions reached by the internal audit function. This objective may be accomplished by examining items already examined by the internal audit function or, where it is not possible to do so, the same objective may also be accomplished by examining sufficient other similar items not actually examined by the internal audit function. Reperformance provides more persuasive evidence regarding the adequacy of the work of the internal audit function compared to other procedures the external auditor may perform in paragraph A28. While it is not necessary for the external auditor to do reperformance in each area of work of the internal audit function that is being used, some reperformance is required on the body of work of the internal audit function as a whole that the external auditor plans to use in accordance with paragraph 24. The external auditor is more likely to focus reperformance in those areas where more judgment was exercised by the internal audit function in planning, performing and evaluating the results of the audit procedures and in areas of higher risk of material misstatement.

Determining Whether, in Which Areas and to What Extent Internal Auditors Can Be Used to Provide Direct Assistance

Determining Whether Internal Auditors Can Be Used to Provide Direct Assistance for Purposes of the Audit (Ref: Para. 5, 26–28)

A31. In case where the external auditor is prohibited by law or regulation from using internal auditors to provide direct assistance, it is relevant for the principal auditors to consider whether the prohibition also extends to component auditors and, if so, to address this in the communication to the component auditors.

A32. As stated in paragraph A7 of this SA, objectivity refers to the ability to perform the proposed work without allowing bias, conflict of interest or undue influence of others to override professional judgments. In evaluating the existence and significance of threats to the objectivity of an internal auditor, the following factors may be relevant:

- The extent to which the internal audit function’s organizational status and relevant policies and procedures support the objectivity of the internal auditors.
- Family and personal relationships with an individual working in, or responsible for, the aspect of the entity to which the work relates.
- Association with the division or department in the entity to which the work relates.
- Significant financial interests in the entity other than remuneration on terms consistent with those applicable to other employees at a similar level of seniority.

Material issued by relevant professional bodies for internal auditors may provide additional useful guidance.

A33. There may also be some circumstances in which the significance of the threats to the objectivity of an internal auditor is such that there are no safeguards that could reduce them to an acceptable level. For example, because the adequacy of safeguards is influenced by the significance of the work in the context of the audit, paragraph 30(a) and (b) prohibits the use of internal auditors to provide direct assistance in relation to performing procedures that involve making significant judgments in the audit or that relate to higher assessed risks of material misstatement where the judgment required in performing the relevant audit procedures or evaluating the audit evidence gathered is more than limited. This would also be the case where the work

26 See paragraph A7.
involved creates a self-review threat, which is why internal auditors are prohibited from performing procedures in the circumstances described in paragraph 30(c) and (d).

A34. In evaluating the level of competence of an internal auditor, many of the factors in paragraph A8 of this SA may also be relevant, applied in the context of individual internal auditors and the work to which they may be assigned.

**Determining the Nature and Extent of Work that Can Be Assigned to Internal Auditors Providing Direct Assistance (Ref: Para. 29–31)**

A35. Paragraphs A15–A22 of this SA provide relevant guidance in determining the nature and extent of work that may be assigned to internal auditors.

A36. In determining the nature of work that may be assigned to internal auditors, the external auditor is careful to limit such work to those areas that would be appropriate to be assigned. Examples of activities and tasks that would not be appropriate to use internal auditors to provide direct assistance include the following:

- Discussion of fraud risks. However, the external auditors may make inquiries of internal auditors about fraud risks in the organization in accordance with SA 315.

- Determination of unannounced audit procedures as addressed in SA 240.

A37. Similarly, since in accordance with SA 505 the external auditor is required to maintain control over external confirmation requests and evaluate the results of external confirmation procedures, it would not be appropriate to assign these responsibilities to internal auditors. However, internal auditors may assist in assembling information necessary for the external auditor to resolve exceptions in confirmation responses.

A38. The amount of judgment involved and the risk of material misstatement are also relevant in determining the work that may be assigned to internal auditors providing direct assistance. For example, in circumstances where the valuation of accounts receivable is assessed as an area of higher risk, the external auditor could assign the checking of the accuracy of the aging to an internal auditor providing direct assistance. However, because the evaluation of the adequacy of the provision based on the aging would involve more than limited judgment, it would not be appropriate to assign that latter procedure to an internal auditor providing direct assistance.

A39. Notwithstanding the direction, supervision and review by the external auditor, excessive use of internal auditors to provide direct assistance may affect perceptions regarding the independence of the external audit engagement.

**Using Internal Auditors to Provide Direct Assistance (Ref: Para. 34)**

A40. As individuals in the internal audit function are not independent of the entity as is required of the external auditor when expressing an opinion on financial statements, the external auditor’s direction, supervision and review of the work performed by internal auditors providing direct assistance will generally be of a different nature and more extensive than if members of the engagement team perform the work.

---

27 SA 315, paragraph 6(a).
28 SA 505, External Confirmations, paragraphs 7 and 16.
A41. In directing the internal auditors, the external auditor may, for example, remind the internal auditors to bring accounting and auditing issues identified during the audit to the attention of the external auditor. In reviewing the work performed by the internal auditors, the external auditor’s considerations include whether the evidence obtained is sufficient and appropriate in the circumstances, and that it supports the conclusions reached.

RELATED CONFORMING AMENDMENTS

Note: The following are conforming amendments to SQC 1 and other SAs as a result of SA 610 (Revised), Using the Work of Internal Auditors. The footnote numbers within these amendments do not align with the SAs that will be amended, and reference should be made to those SAs.

SQC 1, Quality Control for Firms that Perform Audits and Reviews of Historical Financial Information, and Other Assurance and Related Services Engagements

Definitions

6. In this SQC, the following terms have the meanings attributed below:

(e) Engagement team – all personnel performing an engagement, including any experts contracted by the firm in connection with that engagement. The term “engagement team” excludes individuals within the client’s internal audit function who provide direct assistance on an audit engagement when the external auditor complies with the requirements of SA 610 (Revised)\(^{29}\).

SA 220, Quality Control for an Audit of Financial Statements

Definitions

7. For purposes of the SAs, the following terms have the meanings attributed below:

(d) Engagement team – all personnel performing an engagement, including any experts contracted by the firm in connection with that engagement. The term “engagement team” excludes individuals within the client’s internal audit function who provide direct assistance on an audit engagement when the external auditor complies with the requirements of SA 610 (Revised)\(^{30}\).

SA 260, Communication with Those Charged with Governance

A18. Other planning matters that it may be appropriate to discuss with those charged with governance include:

- Where the entity has an internal audit function, the extent to which the auditor will use the work of internal audit, and how the external and internal auditors can best work together in a constructive and complementary manner, and the nature and extent of any planned use of internal auditors to provide

\(^{29}\) SA 610 (Revised), Using the Work of Internal Auditors, establishes limits on the use of direct assistance. It also acknowledges that the external auditor may be prohibited by law or regulation from obtaining direct assistance from internal auditors. Therefore, the use of direct assistance is restricted to situations where it is permitted.

\(^{30}\) SA 610 (Revised), Using the Work of Internal Auditors, establishes limits on the use of direct assistance. It also acknowledges that the external auditor may be prohibited by law or regulation from obtaining direct assistance from internal auditors. Therefore, the use of direct assistance is restricted to situations where it is permitted.
direct assistance\textsuperscript{31}.

- SA 300, Planning an Audit of Financial Statements

**Appendix**

**Characteristics of the Engagement**

- The availability of the work of internal auditors and the extent of the auditor's potential reliance on such work, or internal auditors can be used to provide direct assistance.

**SA 315, Identifying and Assessing the Risks of Material Misstatement Through Understanding the Entity and Its Environment**

6. The risk assessment procedures shall include the following:
   - Inquiries of management, of appropriate individuals within the internal audit function (if the function exists), and of others within the entity who in the auditor's judgment may have information that is likely to assist in identifying risks of material misstatement due to fraud or error. (Ref: Para. A6-A13)

23. If the entity has an internal audit function\textsuperscript{32}, the auditor shall obtain an understanding of the following in order to determine whether the internal audit function is likely to be relevant to the audit:
   - The nature of the internal audit function's responsibilities, and how the internal audit function fits in the entity's organisational structure, status, and
   - The activities performed, or to be performed, by the internal audit function. (Ref: Para. A101-A109, A103-116)

**Inquiries of Management, the Internal Audit Function and Others Within the Entity (Ref: Para. 6(a))**

A6. Much of the information obtained by the auditor's inquiries is obtained from management and those responsible for financial reporting. Information may also be obtained by the auditor through inquiries with the internal audit function, if the entity has such a function, and others within the entity.

A7. However, the auditor may also obtain information, or a different perspective in identifying risks of material misstatement, through inquiries of others within the entity and other employees with different levels of authority. For example:

- Inquiries directed toward internal audit personnel may provide information about internal audit procedures performed during the year relating to the design and effectiveness of the entity's internal control and whether management has satisfactorily responded to findings from those procedures.

\textsuperscript{31} SA 610 (Revised), paragraphs 20 and 31.

\textsuperscript{32} SA 610(Revised), "Using the Work of Internal Auditors", paragraph 2(a)14(a), defines the term "internal audit function" for purposes of the SAs.
Inquiries of the Internal Audit Function

**A9.** If an entity has an internal audit function, inquiries of the appropriate individuals within the function may provide information that is useful to the auditor in obtaining an understanding of the entity and its environment, and in identifying and assessing risks of material misstatement at the financial statement and assertion levels. In performing its work, the internal audit function is likely to have obtained insight into the entity’s operations and business risks, and may have findings based on its work, such as identified control deficiencies or risks, that may provide valuable input into the auditor’s understanding of the entity, the auditor’s risk assessments or other aspects of the audit. The auditor’s inquiries are therefore made whether or not the auditor expects to use the work of the internal audit function to modify the nature or timing, or reduce the extent, of audit procedures to be performed. Inquiries of particular relevance may be about matters the internal audit function has raised with those charged with governance and the outcomes of the function’s own risk assessment process.

**A10.** If, based on responses to the auditor’s inquiries, it appears that there are findings that may be relevant to the entity’s financial reporting and the audit, the auditor may consider it appropriate to read related reports of the internal audit function. Examples of reports of the internal audit function that may be relevant include the function’s strategy and planning documents and reports that have been prepared for management or those charged with governance describing the findings of the internal audit function’s examinations.

**A11.** In addition, in accordance with SA 240, if the internal audit function provides information to the auditor regarding any actual, suspected or alleged fraud, the auditor takes this into account in the auditor’s identification of risk of material misstatement due to fraud.

**A12.** Appropriate individuals within the internal audit function with whom inquiries are made are those who, in the auditor’s judgment, have the appropriate knowledge, experience and authority, such as the chief internal audit executive or, depending on the circumstances, other personnel within the function. The auditor may also consider it appropriate to have periodic meetings with these individuals.

**Considerations specific to public sector entities (Ref: Para 6(a))**

**A13.** Auditors of public sector entities often have additional responsibilities with regard to internal control and compliance with applicable laws and regulations. Inquiries of appropriate individuals in the internal audit function can assist the auditors in identifying the risk of material noncompliance with applicable laws and regulations and the risk of deficiencies in internal control over financial reporting.

**A79.** The auditor may also consider how management has responded to the findings and recommendations of the internal audit function regarding identified deficiencies in internal control relevant to the audit, including whether and how such responses have been implemented, and whether they have been subsequently evaluated by the internal audit function.

**The Entity’s Internal Audit Functions (Ref: Para 23)**

---

33 The relevant requirements are contained in SA 610 (Revised).
34 SA 240, paragraph 19.
A109101. If the entity has an internal audit function, obtaining an understanding of that function contributes to the auditor’s understanding of the entity and its environment, including internal control in particular the role that the function plays in the entity’s monitoring of internal control over financial reporting. This understanding, together with the information obtained from the auditor’s inquiries in paragraph 6(a) of this SA, may also provide information that is directly relevant to the auditor’s identification and assessment of the risks of material misstatement. It is likely to be relevant to the audit if the nature of the internal audit function’s responsibilities and activities are related to the entity’s financial reporting, and the auditor expects to use the work of the internal auditors to modify the nature or timing, or reduce the extent, of audit procedures to be performed. When the auditor determines that the internal audit function is likely to be relevant to the audit, SA 610 applies.

A110102. The objectives and scope of an internal audit function, and therefore the nature of its responsibilities and its status within the organisation, including the function’s authority and accountability, vary widely and depend on the size and structure of the entity and the requirements of management and, where applicable, those charged with governance. The responsibilities of an internal audit function may include, for example, monitoring of internal control, risk management, and review of compliance with laws and regulations. On the other hand, the responsibilities of the internal audit function may be limited to the review of the economy, efficiency and effectiveness of operations, for example, and accordingly, may not relate to the entity’s financial reporting. These matters may be set out in an internal audit charter or terms of reference.

A111. The responsibilities of an internal audit function may include performing procedures and evaluating the results to provide assurance to management and those charged with governance regarding the design and effectiveness of risk management, internal control and governance processes. If so, the internal audit function may play an important role in the entity’s monitoring of internal control over financial reporting. However, the responsibilities of the internal audit function may be focussed on evaluating the economy, efficiency and effectiveness of operations and, if so, the work of the function may not directly relate to the entity’s financial reporting.

A112. The auditor’s inquiries of appropriate individuals within the internal audit function in accordance with paragraph 6(a) of this SA help the auditor obtain an understanding of the nature of the internal audit function’s responsibilities. If the auditor determines that the function’s responsibilities are related to the entity’s financial reporting, the auditor may obtain further understanding of the activities performed, or to be performed, by the internal audit function by reviewing the internal audit function’s audit plan for the period, if any, and discussing that plan with the appropriate individuals within the function.

A113103. If the nature of the internal audit function’s responsibilities and assurance activities are related to the entity’s financial reporting, the auditor may also be able to use the work of the internal audit function to modify the nature or timing, or reduce the extent, of audit procedures to be performed directly by the auditor in obtaining audit evidence. Auditors may be more likely to be able to use the work of an entity’s internal audit function when it appears, for example, based on experience in previous audits or the auditor’s risk assessment procedures, that the entity has an internal audit function that is adequately and appropriately resourced relative to the size of the entity and the nature of its operations, and has a direct reporting relationship to those charged with governance, the external auditor’s consideration of the activities performed, or to be performed by, the internal audit function may include review of the internal audit function’s audit plan for the period, if any, and discussion of that plan with the internal auditors.

A114. If, based on the auditor’s preliminary understanding of the internal audit function, the auditor expects to use the work of the internal audit function to modify the nature or timing, or reduce the extent, of audit procedures to be performed, SA 610 (Revised) applies.
A115. As is further discussed in SA 610 (Revised), the activities of an internal audit function are distinct from other monitoring controls that may be relevant to financial reporting, such as reviews of management accounting information that are designed to contribute to how the entity prevents or detects misstatements.

A116. Establishing communications with the appropriate individuals within an entity’s internal audit function early in the engagement, and maintaining such communications throughout the engagement, can facilitate effective sharing of information. It creates an environment in which the auditor can be informed of significant matters that may come to the attention of the internal audit function when such matters may affect the work of the auditor. SA 200 discusses the importance of the auditor planning and performing the audit with professional skepticism, including being alert to information that brings into question the reliability of documents and responses to inquiries to be used as audit evidence. Accordingly, communication with the internal audit function throughout the engagement may provide opportunities for internal auditors to bring such information to the auditor’s attention. The auditor is then able to take such information into account in the auditor’s identification and assessment of risks of material misstatement.
