After studying this chapter, you would be able to:

- comprehend the term ‘job work’.
- explain the various aspects including procedure pertaining to removal of goods for the purposes of job work.
- understand the provisions relating to availing input tax credits in relation to goods sent for job work.
Job-work sector constitutes a significant industry in Indian economy. It includes outsourced activities that may or may not culminate into manufacture. The term job-work itself explains the meaning. It is processing of goods – inputs/semi finished goods – supplied by the principal, for further processing.

Principal is a registered person who sends the inputs/capital goods to a job worker for carrying out the job work. Many facilities, procedural concessions have been given to the job workers as well as the principal supplier who sends goods for job-work. The whole idea is to make the principal responsible for meeting compliances on behalf of the job-worker on the goods processed by him (job worker), considering the fact that typically the job-workers are small persons who are unable to comply with the discrete provisions of the law.

The GST law makes special provisions with regard to removal of goods for job-work and receiving back the goods after processing from the job-worker without the payment of GST. The benefit of these provisions shall be available both to the principal and the job worker.

Section 2(68) of the CGST Act, 2017 defines job work as ‘any treatment or process undertaken by a person on goods belonging to another registered person’. E.g. Painting, packing, fitting, etc. The one who does the said job would be termed as ‘job worker’. The job worker is expected to work on the goods sent by the principal and whether the activity is covered within the scope of job work or not would have to be determined on the basis of facts and
circumstances of each case. The ownership of the goods does not transfer to the job worker, but it rests with the principal.

There may arise a doubt as to whether any inputs, other than the goods provided by the principal, can be used by the job worker for providing the services of job work. In this regard, it is clarified that the job worker, in addition to the goods received from the principal, can use his own goods for providing the services of job work.

**Supply of job work services**

The job worker, as a supplier of services, is liable to pay GST if he is liable to be registered. He shall issue an invoice at the time of supply of the services as determined in terms of section 13 read with section 31 of the CGST Act.

The value of services would be determined in terms of section 15 of the CGST Act and would include not only the service charges, but also the value of any goods or services used by him for supplying the job work services, if recovered from the principal.

The question may arise whether value of moulds and dies, jigs and fixtures or tools which have been provided by the principal to the job worker and have been used by the latter for providing job work services would be included in the value of job work services?

Section 15(2)(b) of the CGST Act [*Discussed in detail in Chapter 7 – Value of Supply*] stipulates that any amount that the supplier is liable to pay in relation to the supply but which has been incurred by the recipient will form part of the valuation for that particular supply, provided it has not been included in the price for such supply.

Accordingly, it is clarified that the value of such moulds and dies, jigs and fixtures or tools may

---

1 *Circular No. 38/12/2018 GST dated 26.03.2018*
not be included in the value of job work services provided its value has been factored in the price for the supply of such services by the job worker.

Provisions relating to job work are, *inter alia*, covered in sections 19 and 143 of the CGST Act. State GST laws also prescribe identical provisions in relation to job work.

---

**Provisions of job work under CGST Act have also been made applicable to IGST Act vide section 20 of the IGST Act.**

---

### 2. RELEVANT DEFINITIONS

- **Taxable supply**: means a supply of goods or services or both which is leviable to tax under this Act [Section 2(108)].

- **Place of business**: includes [Section 2(85)]:
  - a place from where the business is ordinarily carried on, and includes a warehouse, a godown or any other place where a taxable person stores his goods, supplies or receives goods or services or both; or
  - a place where a taxable person maintains his books of account; or
  - a place where a taxable person is engaged in business through an agent, by whatever name called.

- **Capital goods**: means goods, the value of which is capitalized in the books of account of the person claiming the ITC and which are used or intended to be used in the course or furtherance of business [Section 2(19)].

- **Input**: means any goods other than capital goods used or intended to be used by a supplier in the course or furtherance of business [Section 2(59)].
**Registered person:** means a person who is registered under section 25 but does not include a person having a Unique Identity Number [Section 2(94)].

### 3. JOB WORK PROCEDURE [SECTION 143]

The provisions related to job work are encapsulated under section 143 of the CGST Act, 2017. It is important to note that the provisions of said section are applicable to a registered person. Thus, a principal, who can send the goods for job work under the said provisions, must be registered person.

However, the principal is not obligated to follow the said provisions. It is his choice whether or not to avail or not to avail of the benefit of these special provisions. The provisions of section 143 have been discussed as follows:

**Principal can send goods to job worker without payment of tax**

A registered person (Principal) is allowed to send inputs/capital goods without payment of tax to a job-worker and from there to another job-worker and after completion of job-work bring back such goods without payment of tax. Such goods need to be removed under intimation and subject to certain conditions.

Principal is not required to reverse the ITC availed on inputs or capital goods dispatched to job-worker.

Principal can also send inputs/capital goods directly to the job-worker without bringing them to his premises and can still avail the credit of tax paid on such inputs or capital goods.
However, inputs and/or capital goods [other than moulds and dies, jigs and fixtures, or tools] sent to a job- worker are required to be returned to the principal within 1 year and 3 years respectively, from the date of sending such goods to the job-worker. However, the period of 1 year and 3 years may, on sufficient cause being shown, be extended by the Commissioner for a further period not exceeding 1 year and 2 years respectively. Extension of time is allowed to cover the situations where the period of 1 year specified is not adequate in respect of job works such as hull construction/fabrication of vessels (for defence purposes), since these processes complete in a period of around 14 to 16 months. The provision of return of goods is not applicable in case of moulds and dies, jigs and fixtures or tools supplied by the principal to job worker.

After processing of goods, the job-worker may clear the goods to-
- another job-worker for further processing, or
- dispatch the goods to any of the place of business of the principal without payment of tax.

**Supply of goods directly from job worker’s place of business/premises**

After processing of goods, the principal also has the option to clear the goods, directly from job-worker’s premises, on payment of tax within India or without payment of tax for export outside India on fulfilment of conditions.
The facility of supply of goods by principal to third party directly from the premises of the job-worker, on payment of tax in India likewise with or without payment of tax for export, may be availed by principal on declaring premise of the job-worker as his additional place of business in registration. However, such declaration is not required by principal where:

- job worker is registered under section 25; or
- principal is engaged in supply of notified goods.

In such cases, the supply of goods will be regarded as supply by the principal and not by the job worker. Resultantly, it is clarified that the time, value and place of supply would have to be determined in the hands of the principal irrespective of the location of the job worker’s place of business/premises. Further, the invoice would have to be issued by the principal. It is also clarified that in case of exports directly from the job worker’s place of business/premises, the LUT or bond, as the case may be, shall be executed by the principal. These principles would apply mutatis mutandis in case of supply of waste and scrap generated during job work [discussed subsequently in this heading]².

The principal is located in State A, the job worker in State B and the recipient in State C. In case the supply is made from the job worker’s place of business/premises, the invoice will be issued by the supplier (principal) located in State A to the recipient located in State C. The said transaction will be an inter-State supply. In case the recipient is also located in State A, it will be an intra-State supply.

**Procedure for sending goods to job worker**

Before supply of goods to the job-worker, the principal would be required to send intimation the Jurisdictional Officer containing the details of the description of inputs intended to be sent by the principal and the nature of processing to be carried out by the job-worker. The said intimation shall also contain the details of the other job-workers, if any.

The inputs or capital goods shall be sent to the job worker under the cover of a challan issued by the principal. The challan shall be issued even for

---

² Circular No. 38/12/2018 GST dated 26.03.2018
16.8 GOODS AND SERVICES TAX

the inputs or capital goods sent directly to the job worker. The challan shall contain the specified details.³

Responsibility for keeping accounts for inputs/capital goods

The responsibility for keeping proper accounts for the inputs or capital goods lies with the principal.

Goods not received within the stipulated time deemed as supply

In case the inputs/capital goods are not received back or not supplied from the job worker’s premises, within specified time limit [1 year/3 years/extended time period], it shall be deemed to be a supply from Principal to the Job worker from the day when it was sent for job work. Accordingly, the principal would be liable to tax along with interest.

Thus, goods sent for job work acquire the character of supply when the inputs/capital goods sent for job work are neither received back by the principal nor supplied further by the principal from the place of business/premises of the job worker within 1 year/3 years/extended time period, of being sent out. It may be noted that the responsibility for sending the goods for job work as well as bringing them back or supplying them has been cast on the principal.

In such cases where the inputs or capital goods (other than moulds and dies, jigs and fixtures or tools) are neither returned nor supplied from the job worker’s place of business/premises within the specified time period, the principal would issue an invoice for the same and declare such supplies in his return for that particular month in which the time period of 1 year/3 years or extended time period has expired.

Date of supply: The date of supply shall be the date on which such inputs or capital goods were initially sent to the job worker. Further, interest for the intervening period shall also be payable on the tax.

³ The documents and intimation required for movement of goods from principal to job worker have been discussed in detail subsequently in this chapter.
If such goods are returned by the job worker after the stipulated time period, the same would be treated as a supply by the job worker to the principal and the job worker would be liable to pay GST if he is liable for registration in accordance with the provisions contained in the CGST Act read with the rules made thereunder.

Further, it may be reiterated that there is no requirement of either returning back or supplying the goods from the job worker’s place of business/premises as far as moulds and dies, jigs and fixtures, or tools are concerned.

The above provisions have been summarized in the diagram below:
### STATUTORY PROVISIONS

**Explanation.** - For the purposes of this Chapter,-

| Rule (1) | the expressions “capital goods” shall include “plant and machinery” as defined in the Explanation to section 17; |
| Rule (2) | for determining the value of an exempt supply as referred to in subsection (3) of section 17- |
| (a) | the value of land and building shall be taken as the same as adopted for the purpose of paying stamp duty; and |
| (b) | the value of security shall be taken as one per cent. of the sale value of such security. |
Section 19 deals with ITC on inputs and capital goods sent for job work.

(i) **Credit on goods sent for job work [Sub-sections (1), (2), (4) and (5) of section 19]**

- A principal is entitled to take the credit of input tax paid on inputs and/or capital goods sent to the job-worker for the job work.
- The principal can also take ITC even when the inputs and/or capital goods have been directly sent to the job worker without being brought into his premises. The principal need not wait till the inputs and/or capital goods are first brought to his place of business [See definition of place of business].

**Job worker is also eligible to avail ITC on inputs, etc. used by him in supplying the job work services if he is registered**.

(ii) **Time limits for the return of goods sent for job-work or supply from job worker’s place of business [Sub-sections (3), (6) and (7) read with rule 45 of CGST Rules]**

- Inputs and capital goods sent for job work should either be returned to the principal or must be supplied from the job worker’s premises within 1 year and 3 years respectively from sending them to the job worker.

*Where inputs/capital goods are sent directly to a job worker, said period shall be computed from the date of receipt of inputs/capital goods by the job worker.*

- As discussed earlier, if the above time-lines are not met, it is deemed that the inputs and capital goods were supplied by the principal to the job worker (in other words, tax will be payable on them) on the day they were sent out to the job worker.

---

4 Circular No. 38/12/2018 GST dated 26.03.2018
5 Extendible by further period not exceeding 1 year and 2 years respectively
The said supply is required to be declared in GSTR-1 [Details of Outward Supplies] and the principal is liable to pay tax along with applicable interest.

In such a case, return of the inputs and capital goods by the job worker, after the stipulated time, will be treated as a separate supply.

**Summary of above provisions**

- Principal can take credit on goods (inputs and capital goods) sent for job work.
- Credit can be taken even if the said goods are sent directly to job worker without being first brought to the principal’s place of business.

**Time limit for return of goods sent for job work/supply from job worker’s place of business**

- **Inputs** - 1 year (extendible by another 1 year)
- **Capital goods** - 3 years (extendible by another 2 years)

from the date of sending the same for job work or from the date of receipt of the same by the job worker.

- On failing to comply with the timelines, the goods will be deemed to have been supplied to the job worker on the day they were sent out.
- Principal is liable to pay tax along with applicable interest on such supply.
- Subsequent return of the goods by the job worker will be treated as a separate supply.

**Time-linelines do es not apply to moulds and dies, jigs and fixtures or tools sent out for job work.**

A supplier of notebooks for schools sends the paper of required dimensions and GSM to a job worker for making the notebooks as per the design given by him.

However, the Government changes the specifications of notebooks for supply to its schools. The supplier sends a fresh stock of paper with fresh instructions to the job worker and instructs him to hold the earlier consignment in stock till a buyer is found. The new notebooks are easily sold, but the paper and semi-finished notebooks of the old design lie in the godown of the job worker for over a year. Here, sending of paper by the notebook supplier to the job worker in the first lot will be deemed as a supply and thus, tax would be payable on the same.
(iii) **Special procedure for sending goods for job work [Rule 45 of CGST Rules]**

The procedure for sending the goods for job work, in accordance with rule 45 read with Circular No. 38/12/2018 dated 26.03.2018, has been discussed below:

(a) **Where goods are sent by principal to only one job worker**: Principal has to send the inputs and/or capital goods to the job worker under the cover of a **challan** issued by him. Such challan should contain the details specified in rule 55 namely, date & number of delivery challan, name, address & GSTIN of consignor & consignee, HSN code & description of goods, quantity, taxable value, tax rate and tax amount, place of supply and signature. [Refer Chapter 10: Tax Invoice, Credit and Debit Notes for detailed discussion on rule 55].

The principal shall prepare **in triplicate**, the challan in terms of rules 45 and 55, for sending the goods to a job worker. Two copies of the challan may be sent to the job worker along with the goods. The job worker should send one copy of the said challan along with the goods, while returning them to the principal.

Further, the principal would be required to send the intimation the Jurisdictional Officer. **Form GST ITC-04 will serve as the intimation.** The intimation will contain the details of the description of inputs intended to be sent by the principal and the nature of processing to be carried out by the job-worker.

(b) **Where goods are sent from one job worker to another job worker**: In such cases, the goods may move under the cover of a challan issued either by the principal or the job worker. Alternatively, the challan issued by the principal may be endorsed by the job worker sending the goods to another job worker, indicating therein the quantity and description of goods being sent. The same process may be repeated for subsequent movement of the goods to other job workers, indicating therein the quantity and description of goods.

(c) **Where the goods are returned to the principal by the job worker**: The job worker should send one copy of the challan [as received by him from the principal] while returning the goods to the principal after carrying out the job work.
(d) **Where the goods are sent directly by the supplier to the job worker:** In this case, the goods may move from the place of business of the supplier to the place of business/premises of the job worker with a copy of the invoice issued by the supplier in the name of the buyer (i.e., the principal). Job worker’s name and address should also be mentioned as the consignee in such invoice.

Further, the buyer (i.e., the principal) shall issue the challan and send the same to the job worker directly.

In case of import of goods by the principal which are then supplied directly from the customs station of import, the goods may move from the customs station of import to the place of business/premises of the job worker with a copy of the Bill of Entry and the principal shall issue the challan under rule 45 and send the same to the job worker directly.

(e) **Where goods are returned in piecemeal by the job worker:** In case the goods after carrying out the job work, are sent in piecemeal quantities by a job worker to another job worker or to the principal, the challan issued originally by the principal cannot be endorsed and **a fresh challan is required to be issued** by the job worker.

(f) **Submission of intimation:** It is clarified that it is the responsibility of the principal to include the details of all the challans relating to goods sent by him to one or more job worker or from one job worker to another and its return therefrom **during a quarter in Form GST ITC-04 by the 25th day of the month succeeding the relevant quarter**. This period can be extended by the Commissioner/Commissioner of State GST/Commissioner of UTGST. The Form GST ITC-04 will serve as the intimation as envisaged under section 143 of the CGST Act.

---

6 **required to be issued under rule 45**
(g) **Requirement to generate E-way Bill:** In case of job work, e-way bill\(^7\) shall be generated either by the principal or by the registered job worker irrespective of the value of the consignment, where goods are sent by a principal located in one State/Union territory to a job worker located in any other State/Union territory.

Further, the e-way bill shall be generated by the principal, wherever required, in case the job worker is unregistered\(^8\).

### 5. REGISTRATION REQUIREMENTS

(i) **Registration requirements when both the principal and the job worker are located in the same State:** The job worker is required to obtain registration only if his aggregate turnover, to be computed on all India basis, in a financial year exceeds the specified threshold limit (i.e., ₹ 20 lakh or ₹ 10 lakh in case of **Special Category States of Mizoram, Tripura, Manipur and Nagaland**) in case both the principal and the job worker are located in the same State [Section 22(1) of the CGST Act, 2017].

(ii) **Registration requirements when the job worker is located in a State different from that of the principal:** Where the principal and the job worker are located in different States, the requirement for registration flows from section 24(i) of the CGST Act, which provides for compulsory registration of suppliers making any inter-State supplies. However, exemption from registration has been granted in case the aggregate turnover of the inter-State supply of taxable services does not exceed ₹ 20 lakh or ₹ 10 lakh in case of **Special Category States of Mizoram, Tripura, Manipur and Nagaland**.

\(^7\) Rule 138 of the CGST Rules, inter alia, stipulates that an e-way bill is required to be generated by every registered person who causes movement of goods of consignment value exceeding ₹ 50,000 even in cases where such movement is for reasons other than for supply (e.g. in case of movement for job work). However, in case of goods sent by a principal located in one State/UT to a job worker located in any other State/UT, the e-way bill needs to be generated irrespective of the value of the consignment. Provisions of e-way bill have been discussed in detail in Chapter 10 – Tax Invoice, Credit and Debit Notes.

\(^8\) Since where the goods are supplied by an unregistered supplier to a registered recipient, movement shall be said to be caused by such recipient if the recipient is known at the time of commencement of the movement of goods [Rule 138 of the CGST Rules].

Therefore, it is clarified that a job worker, being a supplier of service, is required to obtain registration only in cases where his aggregate turnover, to be computed on all India basis, in a financial year exceeds the threshold limit regardless of whether the principal and the job worker are located in the same State or in different States.9

(iii) **Value of goods, after completion of job work, supplied directly from the premises of the registered job worker not to be included in its aggregate turnover:** As discussed earlier in this chapter, principal can supply the goods directly from the premises of the job worker without bringing it back to his own premises. It is clarified that the supply of goods by the principal from the place of business/premises of the job worker will be regarded as supply by the principal and not by the job worker.10

Therefore, the value of such goods supplied will be included in the aggregate turnover of the principal and not job worker [Explanation (ii) to section 22 of CGST Act, 2017].

**TEST YOUR KNOWLEDGE**

1. **Under what circumstances can the principal directly supply goods from the premises of job worker without declaring the premises of job worker as his additional place of business?**

2. **What happens when the inputs or capital goods are not received back or supplied from the place of business of job worker within prescribed time period?**

3. **Who is responsible for the maintenance of proper accounts related to job work?**

4. **Genie Engineers had a mould delivered directly to a job worker from the supplier for making certain precision parts for use in the factory of Genie Engineers. As per agreement, the mould was to remain with the job worker as long as work was being sent to him.**

After four years a departmental audit team that visited the job worker noticed the mould and traced it to Genie Engineers. GST was demanded from Genie Engineers for taking ITC without receiving the mould and furthermore for not

10 Circular No. 38/12/2018 GST dated 26.03.2018

© The Institute of Chartered Accountants of India
brining the mould back after three years of delivery to the job worker.

How should they respond to this?

**Answers/ Hints**

1. The goods can be supplied directly from the place of business of job worker without declaring it as additional place of business in two circumstances namely where the job worker is a registered taxable person or where the principal is engaged in supply of such goods as may be notified by the Commissioner.

2. If the inputs or capital goods are not received back by the principal or are not supplied from the place of business of job worker within the prescribed time limit, it would be deemed that such inputs or capital goods had been supplied by the principal to the job worker on the day when the said inputs or capital goods were sent out by the principal (or on the date of receipt by the job worker where the inputs or capital goods were sent directly to the place of business of job worker). Thus the principal would be liable to pay tax accordingly.

3. It is completely the responsibility of the principal to maintain proper accounts of job work related inputs and capital goods.

4. Genie Engineers should reply on the following lines:
   
   Under section 19(6) of CGST Act, the principal may take ITC on capital goods sent to a job worker for job work without being first brought to his place of business.
   
   The capital goods sent for job work should either be returned to the principal or must be supplied from the job worker’s premises within 3 years [extendible by another 2 years] from sending them to the job worker or direct receipt by the job worker from the supplier. If the above time-lines are not met, it is deemed that the capital goods were supplied by the principal to the job worker (in other words, tax will be payable on them) on the day they were sent out to the job worker [Section 19(6)].

   However, sub-section (7) of section 19 provides that the time-limit of three years in sub-section (6) for bringing back the capital goods from the job worker does not apply to moulds.

   Hence, Genie Engineers have correctly taken the ITC on moulds.
